

Don't Cough Until Weak

Foley's Honey and Tar HELPS COUGHS QUICKLY

Foley's Honey and Tar takes right hold of an obstinate cough and gives quick relief.

It puts a healing coating on the inflamed membranes that line the throat and air passages. It stops the tickle, loosens and raises phlegm easily. It is just splendid for bronchitis and grippe coughs, and hoarseness, and gives quick relief.

Mrs. W. B. Bailey, Lancaster, N. C., writes: "I have used Foley's Honey and Tar continuously day and night for a week, and my cough has almost entirely disappeared. I feel much better than I have for some time."

MT. CARMEL

The weather has been ideal for farming the past week and all farmers have spent the time well preparing and planting their corn crop.

From all reports and the best information the writer can learn, it is safe to say the acreage to be planted in corn will be increased about 60 per cent and the tobacco acreage will be decreased about 40 per cent, and in addition to this a large crop of all food products will be raised in this section this year.

Rev. F. L. Townsend filled his regular appointment at Mt. Carmel Sunday and a large crowd was out to hear him. He also has an appointment at Mt. Carmel next Sunday at 11 a. m. and we hope a large crowd will be out to hear this fine man.

A large crowd from this section attended the County Commencement at Wentworth last Saturday.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by the constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be removed and this tube restored to its normal condition, hearing is destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

Sprains and Strains Relieved

Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates without rubbing. Sloan's Liniment does not stain the skin or clog the pores like mussy plaster and ointments. For chronic rheumatic pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of grippe and following strenuous work, it gives quick relief. At all druggists, 25c.

Nature Cures, The Doctor Takes the

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, thins the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.

GROOM'S

The farmers are busy planting corn. Tobacco plants are plentiful in this section and we think there will be a bumper crop planted in 1917.

Mr. and Mrs. W. W. Wall of this section were the guests of Mr. W. S. Somers of near Thompsonville Sunday.

Fixed Food Prices By Law

If Secretary Houston Houston, of the department of agriculture, gets what he asks from Congress, North Carolina will have several federal farm experts to help the State authorities promote the production of food crops. He will also have food prices fixed.

Mr. Huston in a report to the Senate, recommended that Congress empower the council of national defense to fix maximum and minimum food prices.

Secretary Houston made quite an elaborate report to the Senate in response to a resolution, telling what the department of agriculture is doing to meet the conditions that will come with war with Germany, and the needs to make a better and more effective organization. Mr. Houston said that C. Hoover, head of the food committee of the council of national defense and the department chiefs of five great farmer organizations will confer with him Monday with a view of formulating plans to meet any food situation that might develop.

He asks for \$25,000,000 to carry out the program of the department now outlined.

Mr. Houston suggested that the 2,000,000 boys between the ages of 15 and 19 years in cities and towns not now engaged in productive work vital to the nation in the present emergency are available for producing food.

"In the federal department of agriculture, the State departments of agriculture, and the land-grant colleges the nation already possesses official organized agencies which, for many years, have been actively studying all agricultural problems," said Mr. Houston. "These agencies are working in very close co-operation and are actively directing their energies to the handling of problems presented by this emergency. The nation is also fortunate in possessing many important farmers organizations, such as the Grange, the Farmers' Union, the American Society of Equity, the Cleaners, the Farmers' National Congress, the American National Live Stock Association, the National Wool Growers Association, and many others. It is believed that additional machinery should be created, and steps already should have been taken to develop it along these lines.

"What became of all the buds that were here two seasons ago?" questioned the tourist.

"Some have grown into bachelor's buttons and some into wall flowers."—Exchange.

Recruits Wanted For the Navy

The secretary of the C. & A. Association is in receipt of a letter from Gov. T. W. Bickett, from which it appears that North Carolina is asked to furnish 400 young men for the U. S. Navy. This is a small number and we ought have no difficulty furnishing our quota—especially when it is borne in mind that our State has already furnished five Secretaries of the Navy, and the present Secretary is a citizen of the State.

The navy offers a splendid opportunity for young men. The fight for positions in the Navy in Britain, France, and all European countries, is tremendous, and the standard of education in these countries is exceedingly high and exacting. It must also be borne in mind that the European navies are officered by legalized aristocrats, i. e. young men whose fathers either have money or position, whereas in the United States Navy the standard of education is cut down to essentials, and it is not an essential that a candidate be able to speak four languages at once, while performing on the Jews harp with his toes. Democracy is the ruling passion in the navy, and because a man rises by a merit to a commission is held to be a proof of worth,

Plain Horse Sense

Gentlemen, we want you to understand the value of buying from B. S. Motley & Co. in Danville. For that purpose we're going to tell you something about this big concern every week in The Review for some time to come. We've recently bought the entire stock of Hodnett, Adkins & Mobley Co., and that, added to our already immense stock of hardware, gives us approximately a \$115,000 set of merchandise for you to make your selections from.

We want you to know that it's just "plain, common, horse sense" for you to do your buying at the store with the largest stock. We sell Vulcan Chilled Plows—can't beat 'em, can you? We sell corn planters, mowers, farm tools of all kinds, paints, varnishes, fencing, roofing, Cream Separators, Gas engines and practically everything that any GOOD hardware store carries—and some things none of them tell. In some lines of the New Stock we've got a little more than we want to carry and we're making good sized reductions. Better ask us about it when here
