

# NOTICE TO SICK WOMEN

### Positive Proof That Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Bridgeton, N. J.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and soon felt a change for the better. I took it until I was in good healthy condition. I recommend the Pinkham remedies to all women as I have used them with such good results."—Mrs. MILFORD T. CUMMINGS, 322 Harmony St., Penn's Grove, N. J.

Such testimony should be accepted by all women as convincing evidence of the excellence of Lydia E. Pinkham's Vegetable Compound as a remedy for the distressing ills of women such as displacements, inflammation, ulceration, backache, painful periods, nervousness and kindred ailments.

**At War**

The nation has entered the war. Men differed as to the wisdom of going into war, but the government has acted, and there is no longer division. The people are one, they will stand behind the President and Congress who bear the grave responsibility of leading the country through war to peace. Our lives, our fortunes and sacred honor—all these are pledged to support of the government through every hour until the end.—W. J. Bryan.

The first census of the kind ever taken in Denmark, which has about one-third the area of Wisconsin, credited the country with more than 5,400,000 fruit trees.

## "Kie-Yie-Yie! Get Me 'Gets-It' Quick!"

3 Drops Make Corn "Fall" Off!

"I've joined the Never-Again Club. Never again will I use anything for corns but 'Gets-It'. Put 3 drops of 'Gets-It' on, and from that second the corn begins to shrivel.

"Oh, Don't Touch It! It's So Sore!" "Use 'Gets-It' and It Will Never Be Sore!"

Instead of swelling up like a little white sponge. Then it loosens from your toe—and, glory hallelujah! the corn comes off as though you'd take a glove off your hand!

Yes, "Gets-It" is the corn discovery of the age. More "Gets-It" is sold by many times than any other corn remedy in existence. Try it and you'll know the reason why. It takes two seconds to apply it, and it dries at once. That's all. Don't experiment—follow the experience of millions and use "Gets-It".

"Gets-It" is sold everywhere. See a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Reidsville, and recommended as the world's best corn remedy by Gardner Drug Company.

# President's Spade In Campaign

Probably Mr. Wilson Will Break Ground on White House's Half Acre—Commission Gives His Staff Seeds For Planting.

**P**RESIDENT WILSON may take the lead in the national campaign for increased food production by breaking the ground on the White House farm at Pennsylvania avenue and Madison place, Washington.

The National Emergency Food Garden Commission presented the White House executive office force with seeds, which will be used to start the White House farm.

Secretary of the Treasury McAdoo made public an appeal to the thousands of employees of the department to cultivate as much land as possible.

"Millions of men have been withdrawn from the fields of production and sent to the fields of battle," said Secretary McAdoo. "The world's supply of foodstuffs has diminished in the face of an increasing demand.

**Relief Is Imperative.**

"With our own country at war, the calls upon the usual tillers of the soil, which have been great in the past, will be enormous in the future, and it is most desirable that every possible step be taken to relieve, even in the slightest degree, the tremendous pressure upon the world markets at this time."

Secretary of the Interior Lane in a letter to Chairman Taylor of the house irrigation committee outlined a plan for the creating of a traveling corps of farm laborers to work on the irrigated lands of the country. Secretary Lane pointed out there were considerable areas of idle arable land in the

United States. He proposes that mobile companies of farm experts should visit all such idle arable land and that they should call to their aid in tilling it the farmers near such tracts.

Chairman Adamson of the house committee on interstate and foreign commerce has introduced his bill to allow the president to prohibit exports from American ports when he deemed it advisable. The only change was in the title, which makes it plain that the bill is not intended as an embargo measure.

## Not Embargo Measure.

Mr. Adamson said the bill is primarily for the purpose of allowing a proper distribution of the supplies of the country. The title of the bill as reintroduced was, "To authorize the president in time of war to give direction to exports from the United States so as to insure their wise, economical and profitable distribution to other countries and for other purposes."

Representative Bathrick of Ohio introduced a bill to provide an agricultural army under military control to supply deficiencies in farm labor and to obtain food for the people. It is provided that the president may enlist and equip an army of not to exceed 300,000 men and women.

An appeal to the farmers to increase the production of corn in the United States to the fullest extent this year in order to meet the increased demand resulting from the war emergency was made in a statement issued by Secretary Houston of the department of agriculture.

# WEST POINT GRADUATES GET MONTH'S FURLOUGH

Class of 1917, Consisting of 139 Men, Fourth to Finish Ahead of Time.

When the class of 1917 of the West Point Military academy graduated the other day the 139 members departed for their homes on a month's furlough with every prospect of seeing active service inside of a year. This is the seventh time since the civil war began in 1861 that a class at West Point has been graduated prematurely.

The social features of the annual June commencement were omitted and a brief program commensurate with the gravity of the situation substituted. One concession which is approved by the superintendent is the graduation ball, which was held in the gymnasium.

The first emergency graduation was in May, 1861, when forty-five members of the first class were commissioned as officers. H. A. Du Pont of Delaware headed the class. In June of the same year the second class was graduated for field service. Among its members was George A. Custer, who was killed at Little Big Horn.

It was not until 1898 that another emergency caused the premature graduation of a class. On April 26 of that year fifty-nine members who were to have graduated in June were commissioned for service in the Spanish war. E. N. Benchley and Clark Churchman of this class died at San Juan Hill, Cuba.

The following year the seriousness of the Filipino insurrection led to the graduation of the first class on Feb. 15. On Feb. 1, 1901, seventy-four cadets were graduated to fill vacancies in the ranks of commissioned officers, and a similar situation in 1908 led to the graduation of 108 cadets on Feb. 14.

When the class of '17 entered West Point it consisted of 200 men. Its number has been cut down by failures in scholarship, resignations and other causes. The honor man is Harry Jones of Clayville, Oneida county, N. Y., who stands far ahead of his class. Among the graduates was Luis y Savosa Rada, a Filipino, the fourth of his race to graduate from the academy.

- WAR'S HARD BLOW AT AFTERNOON TEA
- Lord Devonport, the British food controller, has issued an order prohibiting the sale of light pastries, muffins, crumpets or tea cakes.
- Cakes, buns, scones and biscuits can only be sold if they conform to the drastic restrictions respecting the amount of wheat flour and sugar used.
- Tea shops, which are so popular in England, will suffer severely by the new order.
- The war office has ordered a return made of all horses, mules, cattle, sheep, pigs and agricultural implements in Great Britain.

# BONE DRY UNITED STATES PLAN OF PROHIBITIONISTS

Members of Defense Council Want All Liquor Barred During the War.

Certain members of the Council of National Defense are considering seriously the advisability of urging President Wilson to take drastic action immediately to stop completely the manufacture and sale of liquor throughout the United States.

Reports based on figures for the fiscal year of 1916 show that action by the government to bring "war prohibition" would mean the closing of 1,332 breweries and 605 distilleries. The National Defense Council says it believes more and more strongly that the nation's imperative need of the 6,000,000,000 pounds of foodstuffs that go into the manufacture of liquor is sufficient reason for the government to take the step that some European belligerents have been forced to take in order that their armies and people may have sufficient food.

A decision as to the president's power to stop liquor manufacture is understood to be in the hands of Attorney General Gregory. If necessary it appears probable that legislation authorizing the president to act will be introduced in congress. In this event the president would then be empowered to take the drastic action whenever he saw fit.

Whether he would take it immediately or later probably would depend on the report made by Chairman Hoover of the National Economy Board, who will make a thorough study of food conditions in the country and recommend conservation measures.

# BRITAIN TO TEST DIPLOMATS.

Highest Honor In Service to Be Open to Competition.

A sensation has been caused by the announcement at the London foreign office that regulations will be drawn up soon opening the highest honors in the diplomatic service to merit and competition. Heretofore for many generations these places have been reserved for members of the "first" families. Social importance counted for much, and except in the rarest instances it was useless for outsiders to apply.

# PEPSIN NUX IRON and Sarsaparilla—Fine Course of Medicine.

Physicians and pharmacists have long known the desirability and difficulty of combining iron—a superlative tonic—in a blood-purifying, appetite-giving medicine.

The combination of the iron with Hood's Sarsaparilla has now been secured through the happy thought of prescribing Pepton Pills in connection with the Sarsaparilla—the latter to be taken before eating, Pepton Pills after.

In this way the two medicines work harmoniously, giving four-fold results in blood-cleansing and up-building, in very many cases.

Pepton Pills include pepsin and iron,—note the name, Pepton Pills,—nutrives, manganese, other tonics, digestives and laxatives.

What better course of medicine can you imagine for this season? You get blood-purifying, appetite-giving, liver-stimulating qualities in Hood's Sarsaparilla and great strength-makers in Pepton Pills. Buy these medicines today.

# THE KAISER'S NEW PLAN TO CRUSH AMERICA

We give herewith an excerpt from a speech made by the Kaiser, which was sent to this country by W. Hamilton Rhodes, a London correspondent and published March 14, 1915:

"It is too early yet to fix the exact date when the blow shall be struck but I will say this; that we shall strike as soon as I have a sufficiently large fleet of Zeppelins at my disposal.

"You desire to know how the outbreak of hostilities will be brought about. I can assure you on this point. Certainly we shall have to go far to find a just cause for war. My armies of spies scattered over Great Britain and France, as they are over North and South America, as well as all other parts of the world where German interests may come in clash with a foreign power, will take good care of that. I have already issued some time since secret orders that will at the proper moment accomplish what we desire.

"Even now I rule supreme in the United States, where almost one half the population is either German or of German descent, dental elections. No American could remain in power against the will of the German voters, who control the destinies of the vast republic beyond the seas.

"After the war it will be time to set things right in America, and to teach my friends over there that I have not forgotten the object lesson which Admiral Dewey saw fit to give me some years since when we had that little altercation with Castro.

"If God will help me, as I am convinced He will, I trust that at the end of the coming year the Imperial treasury will be filled to overflowing with the gold of the British and French war indemnities.

"Then—but not before—the moment will come to talk of disarmament and arbitration. With Great Britain and France in the dust; with Russia and the United States at my mercy, I shall set a new course to the destinies of the world—a course that shall ensure to Germany for all time to come a leading part among the nations of the globe."—Macon, (Ga.) News.

Whatever else may be said of the Kaiser, he is a puffed-up gemman what knows what he wants, and when he wants it. We know some gemmen ourselves, too, who would like to see him, and have to tea when he comes over here to run things. But we still have some gemmen in this town who would like to entertain him in specially prepared quarters at Wentworth—the county seat is the place for so distinguished a guest.
