

Coughs Worse at Night

The simplest and quickest way to get rid of a wearing, racking night cough, tickling throat, hoarse, wheezy breathing is to take

Foley's Honey and Tar.
In it, you get the curative influence of the pine tar and other healing ingredients, together with the mollifying and laxative action of honey.

Editor C. T. Miller, Cannelton, Ind. (Enquirer) writes: "I was troubled with bronchial affection and coughed constantly day and night. I took Foley's Honey and Tar and got relief. It is great for bronchial colds and coughs. La grippe and bronchial coughs, croup, hoarseness, tickling throat, are all quickly relieved."

WHAT WILL HAPPEN UNDER DRAFT LAW

Each Man Must Register at His Voting Precinct.

GOVERNORS TO DIRECT WORK

Registration Day Will Probably Be Ten or Fifteen Days After President Signs Measure—Volunteer Registrars Wanted—How Those Absent From Home and the Sick Must Proceed.

In a concise statement recently issued by the war department the procedure following the signing of the conscription bill is outlined simply and to the point. The statement follows: "There was a time in the country's history when military enumerators, backed by bayonets, went out among the people to take a compulsory service census. Today under the principle of universal liability to service the execution of the law is put into the hands of the people.

"The approval of the new national army bill and the president's proclamation thereunder will be coincident. All persons within the age limits prescribed will be required to present themselves for registration at the customary voting places in the voting precincts in which they have their permanent homes on a day which the president will announce. The probability is that from ten to fifteen days will elapse between approval of the bill and registration day.

"The governor of each state will be the chief of registration therein. The machinery of registration in each county is to be in charge of the sheriff, the county clerk and the county physician, acting ex officio, unless a different board shall be announced by the governor. In cities containing populations of more than 30,000 the registration will be under the control of the mayor and selected boards of registration. In order that the designated county and city officials and the people generally can get a clear understanding of the census methods the following brief outline is given:

"The sheriffs or other designated officials, immediately upon receiving notice from the governor, shall appoint registrars for each voting precinct.

The Apportionment of Registrars.
"The proportion of registrars shall be one for each 170 persons to be registered. Each age to be registered will comprise about 1 per cent of the population.

"If, for instance, all men between nineteen and twenty-five years of age, inclusive, are to be registered the registrar would have to enroll about 7 per cent of the precinct population.

"It is desirable to accept the services of competent volunteer registrars to serve without compensation. All registrars must be sworn.

"The voting place in each precinct must be prepared for registration. Full printed instructions, covering every detail of registration, will be in the hands of sheriffs and mayors on the fifth day after the president's proclamation.

In Cities of Over 30,000 Population.
"The mayor of a city containing more than 30,000 inhabitants or the officials designated by the governor therein shall, with approval of the governor, appoint for each ward or convenient minor subdivision containing about 30,000 people one registration board and shall designate one officer of each board to perform duties similar to those imposed on the sheriff, as heretofore outlined.

"On the fifth day after the president has issued his proclamation clerks of counties and cities of over 30,000 must secure a supply of blank and copies of the registrations from the sheriff or from the mayor. Absentees and the sick will apply to such clerks to have their registration cards filled out. In no case shall such persons be given registration certificates.

Absentees and the Sick.
"Persons absent from their home counties may be registered by mail. If so absent, a man should go to the clerk of the county where he may be staying on the sixth day after the date of the president's proclamation. If he is in a city of over 30,000 population the city clerk is the official to whom to apply. The absentee will be told how to register, but he must mail his card in time to reach his precinct by registration day.

"Persons too sick to present themselves for registration must send a competent person to the county or city clerk on the sixth day after the issuing of the proclamation. The clerk will give instructions for registration.

"Officials of educational, charitable and other institutions should apply for instructions to the county or city clerk on the sixth day after the date of the proclamation for instructions as to a convenient method of registration.

"The wardens of jails, penitentiaries and reformatories should apply to the county or city clerk for instructions on the sixth day.

"Five days after the date of the president's proclamation complete regulations will be in the hands of all sheriffs and of the officials of cities.

"The president is authorized to call upon all public officers to assist in the execution of the law. The plan is, however, to rely on the people for the proper execution of the law. It is expected that patriotic citizens will offer their services free as registrars."

Member of Vigilantes Prescribes For Men She Has Met Since Outbreak of War.

By **ABBIE FARWELL BROWN** of the Vigilantes.

I love peace, but this is a good war! Like all women, I hate war. But now I will talk enlistment, urge service, shout war for the sake of peace!

I wish I could fight for the honor and safety of my country, to help bring back peace and justice to the world and confound brutal wickedness!

I have talked with five strong young men who have been bawling eagerly for war ever since the sinking of the Lusitania.

(With a pacifist I will not talk. He is a man of straw, a scarecrow.)

The first young man is a six foot minister, and he said: "Well, I would have hustled to serve, if only they had made war sooner upon a larger issue. I must wait now till I see my duty clearer. After all, I'm not quite sure."

That young man needs imagination. The second man is a round shouldered artist, and he said: "But look, I can serve my country best with my brain. Let the brawny common claps get busy and defend us. Perhaps after that we shan't need!"

That young man needs exercise. The third is a new-rich man growing stout. And he said: "Too bad! I've had no training, you know, or I'd make a good officer. But, of course, I can't grub in the ranks with those fellows. However, I'll pay for"—

That young man needs discipline. The fourth is a poor man of foreign extraction. And he said: "You see, I can't afford to risk my job. There must be plenty other fellows who like fighting and haven't any other jobs. Sure they can get along without me. But, of course, if I have to go!"

That young man needs the American spirit.

The fifth man is a hearty, virile fellow whose ancestors fought to build up the state. And he said: "Oh, yes! I'm off! It's up to me to do my bit right now for my country, and the women and children, and you. I'm sick of those brute Prussians! They're a murdering, treacherous bunch. And suppose they get over here! O Lord! Hand me a gun, quick!"

That young man needs applause! Yes, I could love that last young man.

It will be dull here till he comes back.

AN OPERATION AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more

medicine I took. Every month since I was a young girl I had suffered with cramps in my sides and periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. MCGONIGAL, 3432 Hartville Street, Phila., Pa.

DAYLIGHT SAVING URGED AS GREAT AID TO FARMERS

The passage of the national daylight saving bill now before congress would be of great advantage to the thousands of amateur gardeners who are seeking to "do their bit" by helping Uncle Sam to increase his food resources. Marcus M. Marks, president of the borough of Manhattan, New York, head of the National Daylight Saving association, said that congress should not overlook the bearing of the daylight saving measure on the food situation.

"The extra hour or two which it would enable amateur gardeners to spend each day in cultivating their tracts might mean the difference between success and failure to many," he explained. "Then, too, hundreds of additional persons would raise gardens if they had an extra hour of spare time a day."

The cities of Binghamton, Elmira, Cortland and Norwich, N. Y., have begun an organized movement to supply the farmers of Broome, Chemung, Cortland and Chenango counties with ample labor for the planting and harvesting of increased crops. Employers in those cities are giving their men with farming experience vacations of from one to three weeks and guaranteeing them the difference between their regular pay and what they receive for working on farms. These men enroll with the farm bureau manager of the country. A census is being taken of the needs of the farmers. As a result of this plan it is believed the farmers of the counties concerned will have no trouble with the labor problem this year.

The Delaware, Lackawanna and Western railroad has agreed to furnish the farmers 25 per cent of its section hands for two weeks in the planting season and also at harvesting time. This road will also transport free of charge the city workers to and from the farms.

Fifteen acres of potatoes, five acres of corn and four acres of other vegetables have been planted by the Home Defense League of Hartsdale, N. Y. Its gardening work has been financed entirely by a single member. Sixty-nine others have promised from an hour to a day and a half of labor each week.

When the crops are harvested the league will open a community store in Hartsdale for their sale at cost to the volunteer workers.

The Long Island food reserve battalion asserted that its efforts had increased by 50 per cent the acreage planted in potatoes on the island. The total acreage this year will be about 30,000, with an average estimate yield of 5,000,000 bushels. More than 2,400 acres have been offered the battalion and arrangements have been made for the cultivation of nearly all of it.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, O., is a constitutional remedy and is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Hall's Family Pills for constipation.

Best Remedy for Whooping Cough
"Last winter when my little boy had whooping cough I gave him Chamberlain's Cough Remedy," writes Mrs. J. E. Roberts, East St. Louis, Ill. It kept his cough loose and relieved him of those dreadful coughing spells. It is the only cough medicine I keep in the house because I have the most confidence in it." This remedy is also good for colds and croup.

The Dictates of Patriotism: Small Profits, Efficient Service, Trade at S. Hetner & Co., The New Store, adjoining W. P. Ware's Grocery on West Market Street.

Summer Colds Weaken

They are even more dangerous than winter colds, for they hang on so long that they become chronic catarrh. Heat and dust aggravate them, cause the infected surface to spread, and fill the body with systemic catarrh. Neglect costs health and energy.

PERUNA EXPELS CATARRH

It does more—it builds up the weakened system, regulates the digestion, removes the inflammation, overcomes the poisons of catarrh, and invigorates all over. Forty-four years of success proves its great value, of which thousands gladly testify.

Accept the verdict of two generations yourself. Don't be swayed by prejudice, when your health is at stake. Take Peruna and get well. Liquid or tablet form, whichever is the more convenient.

The Peruna Company, Columbus, Ohio

How All May Help

Secretary Baker is receiving on an average fifty or more inquiries daily from persons who wish to know what they might do now to be of service to the country in the present crisis. The secretary said it was a difficult matter to frame general suggestions in reply, but that there were a number of ways in which the individual might be useful.

"The inquiries," he said, "show a desire to be of service to the country. To some of them it may be said that the recruiting in the regular army and national guard afford a constant inlet.

"Of course the reserve corps is an other inlet into the service of the country for those who are able to take up military pursuits. The quartermaster's corps is admirably adapted to the abilities of the business man, the engineering and ordnance departments to those of scientific attainments, and so on."

In addition to this, the secretary added, the mobilization of national resources being conducted by the Council of National Defense furnished every man engaged in business, or trade with a way to place his services at the nation's disposal. The plan being worked out, he added, was the co-ordination of every industry so that the government, through a small committee of organization, could put its hands upon any part of the widespread activities. He urged that men get into touch with their associates in trade so that the committee groups would be able to speak for all elements of any trade or industry when the time came for government service.

For women, many of whom have been included in his correspondents, the secretary suggested that they affiliate with the local agencies organized to enroll the woman power of the nation. The National Security league, the National Woman Suffrage association, and the National Association of Women's clubs, he said, were all engaged in this work and the defence council, to which their services have been offered, has arranged that each shall cover a separate field.

As to the place skilled labor may find in the great national movement to meet the emergency, Mr. Baker said the department of labor and the civil service commission were co-operating in getting such men for the government's arsenals and navy yards. Any mechanic seeking a place in the preparedness program, he added, could readily find his opportunity through either of these agencies.

BY OUR BLOOD WE LIVE

If you tire easily, are subject to cold hands or feet—if you catch colds readily or have rheumatic pains—your blood or circulation is probably at fault and you need

SCOTT'S EMULSION OF NORWEGIAN COD LIVER OIL

which is nature's easily-assimilated food, to increase your red corpuscles and charge the blood with life-sustaining richness. Scott's creates warmth to throw off colds and gives resistance to prevent sickness.

No Alcohol in SCOTT'S. Every Druggist has it. SCOTT & BOWNE, Bloomfield, N. J. 16-13

Plain Horse Sense

Gentlemen, we want you to understand the value of buying from B. S. Motley & Co. in Danville. For that purpose we're going to tell you something about this big concern every week in The Review for some time to come. We've recently bought the entire stock of Hodnett, Adkins & Mobley Co., and that, added to our already immense stock of hardware, gives us approximately a \$115,000 set of merchandise for you to make your selections from.

We want you to know that it's just "plain, common, horse sense" for you to do your buying at the store with the largest stock. We sell Vulcan Chilled Plows—can't beat 'em, can you? We sell corn planters, mowers, farm tools of all kinds, paints, varnishes, fencing, roofing, Cream Separators, Gas engines and practically everything that any GOOD hardware store carries—and some things none of them sell. In some lines of the New Stock we've got a little more than we want to carry and we're making good-sized reductions. Better ask us about it when here

B. S. MOTLEY & COMPANY, Danville, Va.
