Chicago has a heart and when a city like that softens up even a little, it's high time the rest of the world cut its grasping claws. Mr. Hoover says that he can remedy the trouble, even to saving the people nearly half the cost price. Here's hoping that he will show us we are not from Missouri, but—it behooves us to urge him for restoring the great American dollar to a full seventy-five cent value once again. Instead of the generous bunch of former days, the farmer, is now doing in his spring onions in cute little buttonnieres, but, of course, he is getting the big bouquet price. There was never a time in the memory of this generation when the people of Rockingham county were buying and laying by such stores of fruit jars as at present. For once in the history of the country the farmers have fully made up their minds to reserve all their surplus fruits and veg. tables. Every farm home in this section should be converted into a sort of fruit and vegetable cannery this summer and fall, and nothing that is worth preserving should be permitted to go to waste Families

who do not need all they preserve for their own use will be able to dispose of it in the market at handsome profits. Leon Rice, the great American Dramatic tenor, sang his way straight to the hearts of a large audience Saturday night at the Graded School. One seldom hears a voice of such power, range and beauty. Mr. T. L. Lambeth, an influential farmer of near McIver, was in town Tuesday and gave us a pleasant call. He says crop prospects are good in his section and farmers are working harder than ever before in their lives. The government is in need of hundreds of stenographers and typewriters. The entrance salary is \$900 to \$1200 a year. The postoffice can give all necessary information. Both men and women are wanted. One must have reached the eighteenth birthday. Mr. and Mrs. A. H. Motley, Jr., of London, England, formerly of Reidsville have arrived for an extended visit to relatives here. At the earnest solicitation of his many friends here Mr. Motley has agreed to make a talk at the C. & A. hall some time in the near future on war conditions as he saw them in Europe. Coming home he was en route fourteen days. He was in sight of U-boats a number of times and the passengers as precautionary measure slept in their clothes, he said.
