Leo, the seven year old son of Mr. and Mrs. J. H. Watlington, had the misfortune to break both bones of his left forearm Sunday afternoon. He was standing on the bank of a ditch about two feet deep, when the bank caved in, the little boy falling on his arm. He is doing fine at present, going about his usual play.

The lawn fete Friday night under auspices of the local Red Cross chapter was a success in every particular. A neat sum was realized from the affair. The Reidsville chapter is a live wire. Here and throughout the world its members are working for it to achieve its ends. The President of the United States is head of the Red Cross. Its growth, its whole future, presented a problem providing an administration of its affairs second to none in the world. To administer the affairs of the Red Cross efficiently, to co-ordinate the efforts of its millions of volunteer workers, to affiliate with it the work of other relief organizations and prevent duplication of effort, to spend wisely hundreds of millions of dollars, to see that hospitals and hospital staffs are taken all over the world, that whole populations are cared for, that whole sections of ravaged country are put on the road to restoration—that is the merest outline of a work the plan and scope of which demands administrative talent without superior. The kind of men who span continents with railroads, furrow the seven seas with giant steamships or handle the finances of nations—that is the kind of men needed for the work of the Red Cross.

We're All Actors.

Mme. Alexandra Viarda, the Polish tragedienne, once propounded the following: "It is a strange thing, but ask a man to mend a rip in his coat. "No; he is not a tailor. "Ask another to stop the faucet from leaking. "No; he's not a plumber. "Or another to do a bit of cabinet work. "No; he is not a carpenter. "But ask any one of the three or all of them to enact a little part in a play and each will smile in fatuous confidence and instantly acquiesce. "But watch him act!"
