

Iron Is Greatest of All Strength Builders, Says Doctor

A Secret of the Great Endurance and Powers of Athletes

Ordinary Nuxated Iron Will Make Delicate, Nervous, Run-down People 100 Per Cent Stronger in Two Weeks' Time in Many Cases.

New York, N. Y.—Most people foolishly seem to think they are going to get the strength out of their food because they have enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other ailment caused by lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following tests: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times a day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while,

double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like Nuxated Iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prizefighter has won the day simply because they knew the secret of great strength and endurance and filled his blood with iron before he went into the affray, while many another has gone down to inglorious defeat simply for the lack of iron.

NOTE—Nuxated Iron, recommended above by Dr. E. Bauer, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the cheap imitations iron products it is easily assimilated, does not irritate the teeth, make them black, nor upset the stomach. On the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron, that they offer to forfeit \$100.00 to any charitable institution if they cannot take ten male or female adults who will increase their strength 100 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund four times the amount if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by all good druggists.

Cause of Despondency
Despondency is often caused by indigestion and constipation, and quickly disappears when Chamberlain's Tablets are taken. These tablets strengthen the digestion and move the bowels.

Corns Peel Right Off With "Gets-It"

2 Drops, and the Corn is a "Goner!"

When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one common-sense thing to do.

Use "Gets-It" Your Corns Won't Swell in Water. Besides, They'll Shrink, Loosen and Peel Off!

Put 2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from that instant, then it loosens and falls right off.

There's no other corn-remover in the world that acts like "Gets-It." No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of salves that irritate, bandages that make a bundle of your toe, plasters that half do the work, knives and scissors that draw blood. Use "Gets-It"—no more digging or cutting.

"Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Reidsville, and recommended as the world's best corn remedy by Gardner Drug Company.

NOTICE TO CUSTOMERS

Frequently we are asked concerning our storage rules. Since we do not cultivate to storing plan for grain and do so only as a matter of accommodation to customers having no place to take care of their grain, and making no charge for same we feel it to our interest to protect ourselves in the following manner:

1. We will not store grain for speculation under any circumstances. If you have grain for sale we will pay market prices day of delivery.
2. It is understood that when you store grain in our elevators that we are to grind same.
3. Flour due of wheat left in our mill will be delivered at mill only.
4. We are not responsible in case of fire or other unavoidable accident.
5. We reserve the right to refuse any grain which we deem unfit for milling or that will cause us any expense while in our hands.
6. Unless you agree to above rules we will thank you not to ask us to store your wheat.

W. B. & J. F. WRAY

Expenditure of more than \$3,000,000 is involved in a gigantic mill project announced by the Pittsburgh Steel Products Company. Hundreds of acres of land along the Monogahela river at Fayette City have been purchased and 200 workmen have started grading for a belt line railroad which is to encircle the new works. The plant will be the biggest of its kind in the world. It will have a river frontage of three miles.

PRESIDENT LEVIES DRAFT ON MILITIA FOR DUTY ABROAD

The last step necessary to make the entire national guard available for duty in France was taken today by President Wilson with the issue of a proclamation drafting the State troops into the army of the United States on August 5.

To make certain that the purpose of the national defense act is carried out the proclamation also specifically declares these men drafted are to be discharged from the old militia status on that date. In that way the constitutional restraint upon use of militia outside the country is avoided and the way paved for sending the regiments to the European front.

Prior to the application of the draft regiments in the northern and eastern sections of the country are called into the federal service as national guardsmen in two increments to be mobilized on July 15 and 25. Many units already are federalized and presumably they will be mobilized with the other troops from their States. The guard from the other States will be mobilized on the day of the draft. The arrangement was necessary to provide for movement of the regiments south to concentration without congestion and to the same end the division of States into these increments was revised from the original schedule.

The operative date of the draft was delayed until August 5 so that all regiments can be taken into the army simultaneously to avoid inequalities in the relative rank of officers.

Fourteen camp sites for the next sixteen tactical divisions into which the guard will be organized for war purposes, have been selected and the militia bureau is preparing the railway routing of the troops to the camps. Seven of the sites selected are in the southeastern department five in the southern and two in the western. The two others will be in the southeastern department and until they are approved assignments of regiments to camps and divisions cannot be fully worked out. The only two divisions positively assigned are the 10th, including the California guard, which will go to Linda Vista, Calif., and the 20th, including Oregon Washington and other States in the northwest which will go to Palo Alto, Calif.—Washington Special.

Of Interest to Women

Women gate tenders are employed by the Lehigh Valley railroad.

In Norway, Sweden and Finland, women are frequently shipped as sailors.

The first girls' high school in the United States was established in 1826.

Ten thousand women are employed in the printing and binding trades in England.

Martin Luther was one of the first to advocate the employment of women as teachers.

Among oriental nations generally little or no education is paid to the education of women.

Annette Kellerman, the famous aquatic actress, is said to receive a salary of \$2,500 a week.

The Minnesota Federation of Women's clubs will hold its annual convention at Mankato in September.

Women cannot vote for delegates to the Indiana constitutional convention next fall, according to a recent court decision.

Japanese women are now engaged in upwards of sixty occupations which not so long ago were considered as belonging exclusively to men.

Ella May Macne, a seventeen-year-old miss of Altoona, Pa., has ended her school career with a record of eleven years without missing a single session.

The first women elected to the Berlin magistracy have received their appointments and have been assigned to take charge of public social welfare work.

Representative Jeanette Rankin, of Montana, has been making a personal investigation of the working conditions of women employed in the federal departments at Washington.

Mrs. Julius S. Walsh, Jr., widely known society and horsewoman of St. Louis, has offered her services to the war department as judge and buyer of horses for the federal service.

The beautiful new Ranees of Sarawak, Lady Brooke, whose husband is to govern the destinies of that romantic state in northern Borneo, was, before her marriage, the Hon. Sylvia Brett, the only daughter of Viscount Esher.

The present-day activities of American women in organizing war relief have served to recall the fact that the first women's organization in this country, other than those of a purely religious nature, were the sanitary commission, the Woman's Loyal League and similar bodies which originated during the war between the States.

Miss Lolita Armour, only child of Mr. and Mrs. J. Ogden Armour, of Chicago, has been elected a trustee of Armour Institute, founded by her grandfather in 1893. With the exception of her mother, who has been a trustee of the school since its foundation, Miss Armour, not yet twenty years old, is said to be the only woman in the United States who holds a college trusteeship.

HUGE FOOD CROPS IS THE FARMER'S ANSWER

A billion bushels over last year's production in the principal food crops is the response American farmers have made to President Wilson's mid-April appeal saying that upon them "rests the fate of the war and the fate of the nations."

The extent of the farmers' response was disclosed this week when a production of 6,933,000,000 bushels of principal food crops was forecast in the Department of Agriculture's July crop report. It shows this year's corn crop will be largest in history except one, four, possibly five, other crops will make new high records.

The corn crop which with favorable weather from now on may equal 1912 yield, with increase of 541,000,000 bushels over last year with a total of 3,124,000,000 bushels. The acreage is 14 per cent larger than last year.

The combined winter and spring crop will be 38,000,000,000 bushels more than last year's with a total of 678,000,000 bushels.

Barley with prospects of the third largest crop ever grown will exceed last year's production by 33,000,000 bushels with an output of 214,000,000 bushels.

Oats promise to exceed last year's crop by 210,000,000 bushels, the total production being forecast at 1,453,000,000 bushels. That is slightly under the record. Improvement between now and harvest however, may result in a record crop.

White potato production on a 23 1/2 per cent increase in acreage will be a record crop with 452,000,000 bushels or 167,000,000 bushels more than last year, not taking into account the home garden production which this year is estimated to be much larger than ever before.

Rye, another record crop this year, will amount to 56,500,000 bushels, or 8,700,000 bushels more than last year.

Sweet potatoes will register a new high total with \$2,200,000 bushels, or 11,000,000 bushels more than last year.

Rice production will be 34,400,000 bushels, the second largest crop production.

Production of tobacco will break another record with a crop of 1,215,000,000 pounds, which is 64,000,000 pounds more than was grown last year.

STONEVILLE

Miss Nellie Taylor is spending the week-end with her cousin, Mr. Walber Smith.

Mr. Howie's meeting closed at the Methodist church Sunday night.

Several of our citizens attended the auction sale of Mr. J. V. Price's farm.

Mr. and Mrs. T. L. Smith and little girl visited Mrs. Edna Smith in Madison last week.

Mrs. Probst and little son, Pete, of Ridgeway spent Sunday with Mr. Probst.

Miss Emma Price is visiting her sister, Mrs. Mary Claybrook, this week.

Mrs. Tom Glenn and daughters, Misses Mabel and Helen, are at Moore's Spring.

Mr. Caleb King, Mr. and Mrs. Frank King and children left for Moore's Springs Monday. Mr. Caleb King will remain there some time for his health. Mr. and Mrs. Frank King visited Dr. Lem Taylor on their way home at Sileam.

Mrs. Sue Stone came up from Leaksville Thursday and will spend several weeks here with relatives and friends. She will go from here to Ridgeway, Va.

We are sorry to learn of the continued illness of Mrs. Sue Spraggins.

Mrs. Troy Joyce of Greensboro is visiting Mr. and Mrs. R. L. Stone.

Mr. R. B. Stone returned from Petersburg a few days ago after visiting his cousin Mr. Clyde Pratt.

Miss Lucy Guerrant of Los Angeles California, is spending some time with her cousin, Mrs. R. T. Stone.

Miss Annie Smith and Miss Lucy Stephens spent Tuesday night in Madison with Mrs. Tom Pratt.

Don't Neglect the Summer Cold
We "catch cold" in warm weather because colds are germ diseases and our vitality is too low to resist them. To kill those cold germs, this antiseptic pine-tar of Dr. Bell's Pine-Tar-Honey is famously effective, besides helping to relieve the tight chest and invigorates the tissues. The honey and expectorant ingredients heal the throat and soothe the cough. Always have a bottle of Dr. Bell's Pine-Tar-Honey in your home, 25c. at your druggist.

Appalachian Training School
The Second Summer term of the Appalachian Training School will begin July 10 and continue six weeks. Instruction will be given in all the public school studies. Art, Home Economics, Vocal and Instrumental Music.
A pleasant outing in the mountains is for you.
