

The Reidsville Review

TUESDAY AND FRIDAY

THE REVIEW COMPANY (Incorporated.)

MANTON OLIVER President R. J. OLIVER Sec. & Treas \$1.50 PER YEAR

Entered at the post office at Reidsville, N. C., as second class mail matter.

RED CROSS CAMPAIGN BEGINS

President Wilson has issued a special proclamation in which he urges every one not already a member to join the Red Cross during the membership campaign beginning Sunday, December 16th and continuing for one week. He expresses his conviction that membership in the Red Cross organization is a universal patriotic duty at this time.

Reidsville must respond to call of the president in this matter, just as it did in the observance of Thanksgiving Day and as it has done in many other ways. Patriotism and humanity are tests of Christianity. We hope that Reidsville will lead in this campaign, as she has done in almost all that have been undertaken since the war began.

Membership in the Red Cross is going to cost something. So does everything worth having or doing. Men who become members are expected to pay a fee of one dollar as a minimum, and they may increase this as much as they feel able or disposed.

Mrs. James McKinnon, in charge of the home economics division of the State Department of Agriculture, finds that during the past season there were canned and dried in North Carolina not less than worth of fruits and vegetables that would otherwise have been lost. Her figures are that there were canned and dried \$2,192,597 of fruits and vegetables, at a cost of about \$587,147, giving an estimated net profit of \$1,646,450. There are the figures from 60 organized counties and it is reasonably certain that the other 40 counties also did a splendid part in this canning and drying conservation work.

Representative Miller, of Washington, one of the party of representatives who unofficially visited the European battle fronts, delivered an address in the House telling of his observations. In the course of his speech Mr. Miller said he had seen American soldiers blacking the shoes of officers. Representative Smith, of Idaho, asked if privates who did such work were not paid for it by the officers. Mr. Miller said that it was true, but the practice should not be permitted.

Last week The Review carried more than two thousand inches of paid advertising matter. This is a feat seldom, if ever, accomplished by a State weekly or semi-weekly newspaper. The business men know the value of The Review as an advertising medium.

The Madison Messenger issued a very creditable holiday edition last week.

ELEVEN MILLION GERMANS ARE NOW IN THE FIELD

Germany now has at least eleven million men in military service, former Ambassador to Germany James W. Gerard told the Union college alumni here tonight.

"At the beginning of the war," said Mr. Gerard, "Germany's population was 72,000,000. From my observation of the proportion of men called to the colors in a village near Berlin and other towns, I estimated that nearly one-sixth of that population is now under arms. Every year about 400,000 youths reach military age."

The military party of Germany was termed "that d-d Postdam gang" by Dr. Henry Van Dyke, former minister of the Netherlands.

He said in part: "Since the Franco-Prussian war the education of the people in Germany under the guid-

ance of the Kaiser, has been diabolical. Three main principles that are false underlie it, first that God has chosen Germany to dominate the world, second that God has chosen the house of Hohenzollern to rule the German people and third that the way to dominate the world is by force and the sword."—New York Special.

MRS. JAMES W. MILLNER DIED SUDDENLY FRIDAY NIGHT

Mrs. James W. Millner died at midnight Friday at her home on Lindsey street. Her illness was of short duration, she having become ill Friday afternoon at 3 o'clock.

Mrs. Millner was about 70 years of age. She was the widow of the late James W. Millner who died here seven years ago. She was a daughter of the late Mr. and Mrs. Alvis Daniel of Daniels Ferry, Va. Early in life she joined the Presbyterian church at Cascade, Va., but for the past 25 years was a faithful member of the Reidsville First Presbyterian church. She had reared a splendid family of four sons and five daughters, all of whom survive as follows: Alvis, James, W. B. and W. M. Millner, Mrs. B. S. Graves, Miss's Hattie, Jennie and Annie Millner, and Mrs. Wm. H. Plummer of High Point. She is also survived by three brothers, A. W. Daniel and J. D. Daniel of Stokesland, Va., Green Daniel of Madison and Misses Sallie and Belle Daniel of Stokesland.

The funeral service was conducted from the Millner home Sunday afternoon at 2:30 o'clock by Rev. Dr. D. I. Craig, pastor and co-pastor Rev. Carl B. Craig, of the First Presbyterian church. Interment was made at Greenwood Cemetery.

The pall bearers were R. P. Richardson, J. A. Fetzer, H. W. Hines, R. L. Watt, C. H. Fetzer and E. R. Larris.

The flowerbearers were: Messrs. E. F. Hall, A. L. Haskins, Manton Oliver, W. R. Dalton, Scott Fillman, W. F. Burton, Dr. S. G. Jett, J. W. Dameron, P. F. Galliher, C. T. Somers, Wm. Giles, A. Wilkinson, E. D. Watt, E. R. Walters, S. C. Dean, R. H. Tucker and Francis Womack.

The following out of town people attended Mrs. Millner's funeral here Sunday: A. B. and T. S. Starling of Danville; J. D. Daniel, Misses Dora and Sallie Daniel of Stokesland; Mr. and Mrs. A. E. Millner of Leaksville and Mr. T. L. Millner of Leaksville.

MISS ADELINE NEAL MARRIED TO MR. WATSON SCOTT

A quiet wedding was solemnized at 2 o'clock on Saturday at the country home of Mr. and Mrs. S. T. Neal when their daughter, Adeline, was united in marriage to Mr. Watson Scott of Leaksville. The ceremony which was performed by Rev. Carl B. Craig of the First Presbyterian church was witnessed only by the two families. The bride wore a traveling suit of brown cloth and carried orchids and lilies-of-the-valley. Immediately after the ceremony a luncheon was served, after which Mr. and Mrs. Scott left for a visit to New York. Upon their return they will make their home in Leaksville, Spray where Mr. Scott is associated with the Marshall Field Company.

Mrs. Scott is the attractive daughter of Mr. and Mrs. S. T. Neal of this city. She has fast friends here and is equally well known and liked in Leaksville. She is a brunette of charm and distinction and has a remarkably sweet and cultured voice. The relatives who attended the wedding were: Mr. and Mrs. Frank King, Jr. of Leaksville; Mr. Robt. Neal of Roanoke, Va.; Mr. and Mrs. John T. Price of Leaksville; Mrs. Laura Scott of Leaksville.

Flowers. Flowers are perhaps the most effective of the many little "finishing touches" necessary to an attractive home. There are thousands of persons with beautiful houses, costly furnishings, perhaps, artistically and skillfully arranged by the hands of a clever decorator, but it takes the little finishing touches, the seemingly unimportant tiny things, done by the woman who loves and exists for her home and expresses her soul in her surroundings to make the house lovable.—Exchange.

No Time for Debate.

"Jibbes is the kind of fellow who never makes a move without first asking himself whether or not it will be good for his health." "I saw him jump six feet in the air yesterday to dodge an automobile. Instinct probably told him what was good for his health, without his stopping to debate the matter."

THE NEWS IN BRIEF SINCE OUR LAST ISSUE

A negro, charged with molesting women residents, was taken from the city jail at Rock Springs, Wyo., by a mob, and hanged.

The plan to man all American merchant vessels engaged in the trans-Atlantic trade with naval reserves has been abandoned.

A resolution declaring that a state of war exists between Austria-Hungary and Cuba has been passed by the Cuban house of representatives.

A bill providing for an additional Federal Judge in the western district of North Carolina, was introduced in the Senate by Senator Overman.

Inquiry by a Senate committee into the causes of the shortage of sugar and coal with a view to recommending legislation to improve the situation, has been ordered.

Mrs. Geo. Lindsay of Baltimore, Md., left her three young sons in the kitchen while she went for a plumber to fix frozen pipes. When she returned all three were dead as a result of burns.

An embargo on all export freight except for the United States government, on all railroads reaching North Atlantic seaboard ports, is ordered by the general operating committee of the eastern railroads.

Cotton production this year is estimated at 10,949,000 equivalent 500-pound bales, the average weight per running bale being estimated at 501.5 pounds gross. The number of bales estimated for North Carolina was 57,000.

Two million dollars will be advanced by the war and navy departments to the Bethlehem Steel Company, on munitions contracts, because of the company's difficulties in obtaining funds from private sources to expedite deliveries.

At the request of Food Administrator Hoover, President Wilson will issue within the next few days a proclamation reducing the alcoholic content of beer to 2 1/2 per cent. The use of grain for brewing thus will be cut about 30 per cent.

The Webb export bill, to legalize combination of American exporters to promote foreign commerce, has passed the Senate. The bill passed the House last June and its passage was urged by President Wilson in his recent address to Congress.

Construction of a concrete vessel largely as an experiment, will be begun soon by the shipping board and the United States bureau of standards. The vessel will be built after designs by experts of the bureau and if it proves successful many more may be turned out.

Miss Katherine Stinson, Texas aviator, made a non-stop flight from San Diego, Cal. to San Francisco. He was the first person to pilot an airplane over the Tohachapi mountains on a non-stop flight. The distance between San Diego and San Francisco on an air line is 461 miles.

A dispatch from Italian headquarters says that the first American shot against Austria was fired by Representative Tinkham of Boston, on the lower Platte, when Mr. Tinnham pulled a string firing a large 149 millimetre gun, sending a shell hurtling across the Platte to the Austrian positions.

Navy Department bills to increase the number of midshipmen at the Annapolis naval academy to a maximum of 3,128, and to allow naval and marine officers and enlisted men serving in the Dominican republic to receive compensation from that government in addition to their regular United States pay, have been favorably reported to the House of Congress.

Representative Shirley of Kentucky will be chairman of the appropriations committee of the House of Congress succeeding Mr. Fitzgerald who retires from Congress. The Republicans wanted Miss Rankin made chairman of the new committee on woman suffrage, but the Democrats assigned Mr. Baker of California to that position. Miss Rankin is the ranking Republican member.

First steps to place soldiers of German or Austro-Hungarian birth or extraction at duty apart from actual fighting forces appears in army orders. Orders show the transfer of nearly a hundred enlisted men of the regular or national army to duty to the disciplinary barracks located at Fort Leavenworth, Kan. The list contains hardly a name that does not appear to be of German, Austrian or Hungarian origin. There are several non-commissioned officers, including Sergeant Martin A. Stoltz, of the quartermaster corps at Fort Nebraskas. All will be privates in the barracks guard. Most of the transfers are from national army units at Camp Dix, Wrightstown, N. J. Some come from Fort Sam Houston, from El Paso, from Fort Benjamin Harrison, from Camp Meade and from Camp Taylor.

Hundreds of Precious Lives Might Have Been Saved But- For Ignorance and Distrust

Wonderful New Herbal Medicine Wins Reputation To Be Able to Rescue and Save, Though Disease and Suffering May Be Dragging Some Loved One Down to the Grave.

"All Doubt Dispelled!" "Seems Like a Miracle!"

"All My Troubles Have Been Relieved," Says Capt. S. Patterson, Prominent Salvation Army Worker. "Consider It Miraculous," Declares Virginian Merchant, J. F. Fisher; Rev. George H. West, Methodist Minister Says, "The Sluggish Tired Feeling Has Disappeared."

Think of the food, the water and the air required for two million people if crowded in one room. It is estimated that your brain has two million of tiny cells, each one alive leading a separate existence, yet bound together in one small room.

Each one of your million brain cells must be fed, watered, ventilated. If you miss one it dies, and has to be carried away to the graveyard.

If you conduct a bad hotel (that is, your stomach, kidneys, lungs, etc., don't work right) your brain cells become puny and weakened and they can't do their work right. Then you get some chronic disease and wonder how you caught it. Put some vinegar on your face and go among flies and you have no trouble; change the vinegar to molasses and try it—yet it's the same face. Weakened brain cells mean bad nerve force; degenerated nerve force means weak stomach, weak kidneys, weak liver, weak lungs, etc.

Deadly microbes like weak stomachs, kidneys, lungs, etc. They are attracted by them just like the molasses draws flies. They regard strong stomachs, kidneys, etc., as

tough old dishes not fit for their delicate stomachs—in fact, they had rather die than live on such food; but just give them a banquet of weak stomachs and they are in their glory; then watch them multiply and grow—maybe a million in a night.

Do you wish to serve yourself up as a delicate dish for these gluttonous little vampires? If so just let your system run down, your nerve force get low, and they may soon taste your vitals and invite their neighbors to a grand old feast. They will commence on your stomach, kidneys, liver, whichever seems the most tempting (the weakest). Do you see now how you may have contracted deadly disease and why you possibly have the particular disorder that you have?

How Diseases Start

Most diseases start in the stomach. From there they are apt to find their way to the kidneys, liver, bladder and other organs.

Disease of the stomach may come so gradually that the patient is hardly aware of their approach. But in most forms of stomach troubles the nerve force in the great sympathetic nerve leading to the stomach is im-

paired. This impairs the nerve force in other nerves of the stomach and generally results in a poor circulation of the blood. The stomach loses its vitality and gastric juices are not properly secreted. It therefore will be seen that an absolutely sure combatant for stomach troubles must depend on some remedy that will revitalize the nerve force. Hence Dr. Geo. the wonderful new herbal medicine, gets its reputation for striking at the very fundamental basis of this disease. It is useless to give remedies that merely assist in the digestion of the food. If you will revitalize the cells and tissues of the stomach, causing a proper secretion of the gastric juices, and the disease will quickly disappear.

All the claims for what Dr. Geo. has done and will do, are based on the very best evidence—the signed statement of scores of men and women who tell how they have been restored to health and joy of living by its power. Sufferers not only from stomach trouble, but also those who have experienced the miseries of asthma, catarrh, rheumatism, kidney disorders, constipation and blood ailments have come forward to tell of their experiences and deliverance.

Here Are a Few Statements Selected at Random Out of the Hundreds. Read Them Carefully and Then Act Accordingly.

Capt. S. Patterson Brings a Message

There are few people interested in community work who do not know Captain S. Patterson of 33 Burke St. Winston-Salem, and the excellent work he is doing in the cause of Humanity. Captain Patterson received his office from the Salvation Army as a recognition of the results of his efforts in the fight against evil and he is recognized as one of the leaders in the great organization of the Salvation Army.

Not long ago many friends of Captain Patterson remarked that he certainly needed a rest as the strenuous work of his unceasing campaigns seemed to be telling strongly on his health. In fact he became so bad that he was forced to take to his bed. Almost immediately after that he again appeared and started to work with his old time snap and energy, much to the surprise of his many friends who could not understand the change in his appearance. It is for the benefit of his many friends and all mankind who may be suffering that Captain Patterson has consented to make a public statement telling what caused the wonderful change in his health. This is what he says:

"I suffered from kidney troubles pains in the back, nervousness and dizzy spells. My appetite was poor and I could not sleep. I had been feeling very badly for some time when some friend told me about Dr. Geo. and the good it was doing in just such cases as mine. The day I procured my first bottle of Dr. Geo. I was forced to go home and go to bed. I was suffering intensely that day with pains in my back and couldn't

keep going. But now I am glad to give the message of Dr. Geo. to sufferers for it has put me in good shape and I now go about my work with new energy and vim. All my troubles have been relieved."

Dr. Geo., the wonderful herbal medicine referred to by Captain Patterson may be procured in Reidsville at Gardner Drug Co.

Wouldn't Take \$1,000 For What Dr. Geo. Has Done

J. F. Fisher is proprietor of the Fisher Welding Plant of 211 Rossvor street, Staunton, Va. For some time he has been a victim of a particularly virulent form of stomach disorder, indigestion, constipation and catarrh of the head. He took three bottles of Dr. Geo., the natural herbal medicine and here is the signed statement as to the results:

"I wouldn't take \$1,000 for what Dr. Geo. has done for me. I consider it miraculous! I never had such an appetite in my life. I am telling my friends to take Dr. Geo. and if it don't cure them I will pay for it."

"The first dose helped me and three bottles cured me. I believe it will cure anybody that will take three bottles. I gained seven pounds in weight."

It cannot be repeated too often that the stomach is the fountain which supplies every part of the body. If the stomach is sick, the brain, heart, liver, bowels and kidneys are all sick. The trouble may all be felt in one-spot; it may be in the stomach itself, or it may be in the liver, or in the kidneys. It will be felt in the weakest place.

The mission of Dr. Geo. is to correct

all such disordered conditions of the stomach and to restore a healthy, hearty tone that will enable it to meet every demand made upon it by hard-worked brain and nerves.

Dr. Geo. is recommended and dispensed in Reidsville by Gardner Drug Co.

Ministers Often Work to Excess Zealous work, with no thought of their health or nerves causes the retirement of a large number of clergymen every year.

It is possible, however, to work hard and yet keep well, if one will but pay the proper attention to the benefits to be derived from roots and herbs.

The Rev. George H. West, Pastor of the Ebenezer Methodist church of Hagerstown, Md., says:

"I have been taking Dr. Geo. as a tonic to build up my system after 15 years of incessant labor and responsibility and am glad to testify that I am very much helped. The sluggish, tired feeling has disappeared and my nerves quieted wonderfully. I wish Dr. Geo. every success."

The lesson to be learned is plain. Attend to your health and that of your family. Take no chances with sickness, no matter how slight it may appear.

Dr. Geo., the purely herbal medicine is within the reach of every family where there is an afflicted member. It is recommended strongly not only as a general system reconstructor, but in cases of stomach disorder, kidney and liver complaints, rheumatism, catarrh, constipation and similar ills.

Dr. Geo. is harmless, inexpensive, easy to take and dispensed in Reidsville by Gardner Drug Co.

Always Have PERUNA For Coughs and Colds in the Home. Recommend It to Our Neighbors. Mrs. L. A. Patterson, 1399 Kentucky St., Memphis, Tennessee, writes: "I have been a friend of Peruna for many years. I have used it off and on for catarrhal complaints and found it a very excellent remedy. I have a small family of children. Times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us."
