

Keeping Our Soldiers Strong

Early in the world war experience proved the extraordinary value of cod liver oil for strengthening soldiers against colds, pneumonia and lung troubles.

SCOTT'S EMULSION

Because it Guarantees the Purest Norwegian Cod Liver Oil high in food value and rich in blood-making properties.

Scott's will strengthen you against winter sickness. Beware of Alcoholic Substitutes.

The imported Norwegian cod liver oil used in Scott's Emulsion is now refined in our own American laboratories which guarantees it free from impurities.

Schoolroom Air and Adenoids

It is a constant source of anxiety to parents nowadays that children of school age seem so susceptible to coryza (so-called "head colds"), sore throat, tonsillitis, enlarged tonsils and adenoids.

One definite cause for this tendency of children to develop chronic disease of the nose and throat or unduly frequent acute nose and throat troubles, is unquestionably the foul air in the school room.

A great deal of study and observation in recent years has produced at least one very positive conclusion, namely, that excessive warmth is the principal feature which distinguishes foul or "vitiated" air in a room from fresh or pure air.

WANTED—MORE FRESH AIR.

Keep the Temperature Below 70 Degrees and Keep Plenty of Fresh Air Circulating.

In the room. These symptoms are familiar to every one who has to sit through a performance in the average city theater or hall: Drowsiness, dullness of intellect, yawning or desire to yawn, dull headache, fatigue, sometime nausea or fainting.

GREEN'S AUGUST FLOWER

Has been used for all ailments that are caused by a disordered stomach and inactive liver, such as sick headache, constipation, sour stomach, nervous indigestion, fermentation of food, palpitation of the heart caused by gases in the stomach.

Land Posted

We, the undersigned, hereby forbid the public from hunting, fishing, or trapping on our lands. Those disregarding this notice will be prosecuted according to law.

The familiar effects of foul air on the teacher, as noted in a great many instances, are nervousness, worn out feeling, anemia, poor appetite and unrefreshing sleep.

Open air schoolrooms are not for the rabble, but only for the more intelligent communities. It is going to take years of effort yet to impress upon school boards in the remote and unenlightened sections the value of open air instruction, both physically and mentally, and especially for delicate children.

A schoolroom may be fitted with cloth screens at a cost of about \$1.50 per window, and the fresh air itself keeps the circulation active and keeps the children and teacher comfortable with considerably less cold.

NOTICE.

AN ORDINANCE to authorize the issuance of improvement bonds and to provide for the payment of the principal and interest thereof.

WHEREAS, under the provisions of Chapter 56 of the Public Laws of 1915, the Board of Commissioners of the Town of Reidsville have duly authorized the construction or reconstruction of the surface of certain streets and highways therein, including the grading of a portion thereof and including the contemporaneous construction or reconstruction of curbs, gutters and drains in or along the line of said street and highway improvements, such construction or reconstruction of streets and highways to be sheet asphalt upon a solid foundation or of concrete not less than six inches thick; and

WHEREAS, in connection with the ordering of said improvements, the Board of Commissioners did also order the several property owners to construct sewer and water service connections from the service mains in the portions of streets to be improved to the curb or property line, and by reason of the default of all of the property owners to comply with such order, it was necessary to have said construction of service mains made by the Town of Reidsville, and

WHEREAS, practically all of the above mentioned improvements have been completed and the remainder are now under way, and the cost thereof, as estimated by the Town Engineer, such estimates being based upon the contract price, where contracts have been made, is \$185,478.52 for such improvements, including gutters, curbing, grading and drains, and \$5,000 for sewer and water service connections; and

WHEREAS, special assessments against abutting property in the sum of \$85,592.86 have been made for a portion of the cost of said street improvements, and assessments upon abutting property owners for at least one-fourth of the \$5,000 cost of such connection will be made by the Board, and

WHEREAS, prior to March 7th, 1917, the Town of Reidsville, being indebted to contractors for the payment of a portion of the cost of such street improvements, did borrow the sum of \$75,000.00 and issue in evidence of such loan its promissory notes of like amount, pursuant to the provisions of Chapter 56, Public Laws of 1915, and did apply the proceeds of such notes to the payment of a portion of the costs of said street improvements, leaving \$115,000 of the cost of said improvements unpaid, and pledging no part of any special assessments to the payment of such notes or interest, and

WHEREAS, there are no funds in the treasury of the Town of Reidsville with which to pay any part of such unpaid balance of costs and it is deemed to the advantage of the Town that a bond issue of \$115,000 be authorized for such payment; and

WHEREAS, the financial officer of the Town of Reidsville has duly filed with the Town Clerk the statement of the financial condition required by section 19 of the Municipal Finance Act, 1917, from which it appears that the said \$115,000 bonds may be issued without exceeding the limit upon town debt imposed by said Municipal Finance Act:

Section 2: That the probable pe-

riod of usefulness of said street improvements is 20 years and of said water and sewer connections 10 years, and the average of such periods, taking into consideration the amount of bonds applicable to each purpose, is 19.55 years.

Section 3: That in each year while any of said bonds shall be outstanding a tax shall be levied and collected in accordance with law sufficient to pay the principal and interest of such bonds as the same fall due.
