

# Spring Millinery

Coat Suits, Dresses, Coats,  
Shirt Waists, Satin and Silk  
Dress Goods, Etc.  
Now Ready For Your Inspection

We take pleasure in announcing that our spring stock is now ready for inspection and we cordially invite our friends and customers to call and see our display.

We purposely deferred our spring purchases in order to secure the very latest styles in all goods. Our patrons are thus assured the very latest fashions.

Every line is complete and we are justly proud of our splendid stock now opened up. Please give us an early call.

# MATRESSES

THE finest bed in the world can be spoiled by a poor mattress and improved by a good one. Those who have used the modern, built up mattress know its comfort and solid restfulness. Our mattresses make a firm, soft and yielding bed that rests every part of the body. They never lose their shape. We have just unloaded a full car.

Come in and see how these mattresses are constructed. We have them for all sized beds, in several designs of ticking and at various prices, but all very reasonable.

## What Shall the Answer Be?

America is made up of 100,000,000 units of individual men and women. It has been well said that God does not know America as America, except as he knows you and me and every individual who in the aggregate comprise America.

You are America as to the extent of your individuality. Your responsibility in the world crisis is exactly the same as that of America as a whole.

America must put forth every ounce of its strength to save itself, but America will fail to do this to the extent that any single individual fails to do his or her full duty.

Viewed from this angle, are you truly an American or are you merely a hanger-on, shouting perhaps with the crowd, but doing no real effective service in this, the greatest crisis since man's creation?

Go deep down into your soul before you make answer to yourself, to your country and to your God to these questions:

What am I personally doing to uphold the Government, to equip and sustain our soldiers and to lighten their burdens?

What sacrifice am I making to match the sacrifice of the soldiers who give up home and endure untold hardships and offer their lives to protect me?

What am I doing to increase the output of the things needed for war or to sustain the nation in its stupendous task?

Am I seeking personal gain of higher wages, or shorter hours, or larger profits merely for my own individual selfish interests?

Am I consecrating every ounce of my strength, every power of my being toward arousing the nation, toward quickening latent patriotism into flame, toward increasing food production, or lessening food consumption and waste, or toward the building of ships, the increased output of steel and iron and coal and chemicals and machinery, the expansion and at the same time the conservation of transportation facilities by rail, water and highway?

Am I adjusting my family expenses by cutting out every unnecessary thing that the money thus saved may be dedicated to the nation's use through Liberty Bonds, Red Cross or Y. M. C. A. work, or religious activities?

Am I merely a casual looker-on, an unthinkable beast, with no realization of my individual responsibility to God and man, or am I consecrating all that is in me, all my powers of mind and body, to this great task, the most momentous to which mankind has ever been called?

Am I a shirker, a slacker, a physical, mental or financial coward, or am I a man or a woman into whom God has really breathed the breath of life in its largest and divinest sense?—Manufacturers Record.

State of Ohio, City of Toledo, Lucas county, ss.

Frank J. Cheney make oath that he is senior partner of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE.

Cincinnati Authority Tells How To Dry Up Any Corn Or Callus So It Lifts Right Off

You corn pestered men and women need suffer no longer. Wear shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezeone applied directly on a tender corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without a bit of pain.

A quarter of an ounce of freezeone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

Our line of engraved and embossed stationery is complete.—The W. M. O'Neil Printing Co., city.

## PURE as Southern Sunshine

LIKE the soft, beaming sunlight of Dixie-land, Luzianne brings cheer to meal-time—breakfast, dinner and supper. Folks who try it once have a genuine affection for it ever after. Luzianne comes to you in clean, sanitary, air-tight tins. The flavor stays in—impurities stay out. Buy a can of Luzianne. Use the whole can. If you don't honestly believe it is better than any other coffee you ever tasted, tell the grocer to refund your money. But, try it.

"When It Pours, It Reigns"

### CLOCKS TO BE RUN UP HOUR FOR SEVEN MONTHS MARCH 31

At 2 o'clock in the morning of Sunday, March 31, a time when most well-regulated people will be fast asleep, a piece of federal legislation will go into effect which will change the habits and daily routine of every man, woman and child in the United States. The change will be sudden but once it has been made not one person in 10,000 will feel it after the first twenty-four hours have passed.

At that hour on that day a mandate of the federal government will require the advancing of every clock in the country just one hour. Of course, most folks will do this advancing before they go to bed at night. They are not called upon to stay awake until 2 o'clock or get up at that hour in order to comply with the letter of the law. But some time between the end of the day of March 30 and the beginning of the day of March 31 the time must be advanced.

Nothing could be more simple than the carrying out of this rather novel idea, although it was shown by the debate in the House and Senate that much misunderstanding existed as to what the government expects. Here is the way it works. When bedtime comes on the night of March 30 every person in the country who owns a clock or watch simply moves the hands of it forward one hour. If this operation takes place at 11 in the evening the clock should be set at 12. And, of course, this means that the whole family must arise in the morning by the new time, losing thereby one hour's sleep, unless this is made up by retiring an hour ahead of the usual bedtime.

All business of whatever character on the morning of March 31 will begin on the new time basis. It will begin at the same hour as before, so far as the reading of the clock is concerned, but actually it begins 1 hour earlier so far as the sunrise and so far as daylight are concerned. And that is the whole purpose of the legislation. It is designed to wake the country up an hour earlier each day in order to give the American people an opportunity to live a little longer in the daylight. The sign in this direction of course is at the end of the day, not at the beginning.

Assuming that the average closing of the country's business, at present is 5:30 o'clock in the afternoon and that the average sunset during the spring and summer is 6 o'clock, the new scheme of things will give everybody an additional hour of sunshine each day. Business will close actually at 4:30 in the afternoon so far as the sunset is concerned and instead of half an hour margin of sunshine the American people will be able to enjoy an average margin of an hour and a half, after leaving their stores.

### Croup Relieved in Fifteen Minutes

No need to dose delicate little stomachs with nauseous drugs or alcoholic syrups. Simply rub a little Vick's "Vap-O-Rub" Salve over the throat and chest. The vapors inhaled loosen the tough, choking phlegm and ease the difficult breathing. One application at bedtime insures a sound night's sleep. 25c, 50c, or \$1.00.

### VICK'S VAPORUB SALVE

shops and offices.

For the time being the daylight-saving scheme is to remain in effect for only seven months each year. At 2 o'clock in the morning of the last Sunday in October comes, the hands of the clock are to be moved back one hour. But before October comes, the chances are that the country will be so delighted with the change that Congress will decide to extend the daylight-saving law to the whole year.

There is only one sound objection to the extending this to the winter season. This objection lies in the fact that it would compel a great many working people to get up before daylight in the morning. Many trades, for example, begin their day at 7 o'clock. At present it is broad daylight almost everywhere in the country at that hour, but it is not daylight everywhere during the winter at 6 o'clock, and many industries contend that it would be impossible to begin work in the dark. It may be, however, that such trades can adjust their hours so that the year-around daylight-saving plan can be put into operation without inconveniences or loss of efficiency.

Unless there is a complete understanding of the new law there is apt to be some confusion for the first twenty-four hours after March 31. This is particularly true of the railroads and such other businesses as work on fixed schedules. The authors of the law have anticipated this and have sought to avoid such confusion by placing the details of the change in the hands of the Interstate Commerce Commission, that agency most intimately in touch with the transportation interests.

For the purpose of establishing the standard time under the new enactment it is provided that continental United States be divided into five zones. The time in the first zone will be based on the main astronomical time for the seventy-fifth degree of longitude, west from Greenwich that of the second zone, on the 105th degree; that of the fourth zone on the 120th degree and that of the fifth zone shall include only Alaska which is on the 150th degree.
