Two residents of Leaksville, whose names are given as Messrs. How the occupants escaped with mere scratches was regarded as a miracle by those who went out to bring the damaged machine in. It is stated that the steering gear caused the accident. FORD

THE UNIVERSAL CAR

Because of the millions of Ford cars in daily operation, the Ford Motor Company will extend the giving of service to owners of Ford cars by selling the genuine Ford parts to all reliable garages throughout the country, when such Garages pledge the prompt and efficient giving of service—the standard Ford service—to owners of Ford cars.

The Reason Why

Up to this time, the Ford Motor Company has confined the sale of genuine Ford Parts exclusively to the authorized Ford Dealers. Therefore, many Garages throughout the country, while giving service to Ford cars, use duplicate or imitation Parts, not made by the Ford Motor Company, although charging the Ford owner the same price as if the genuine Ford Parts had been used.

Now, the authorized Ford Dealer will sell to any responsible Garage genuine Ford parts, and will supply them with an authorized Ford sign. The millions of Ford owners will thus find the genuine Ford Parts, and receive genuine Ford service anywhere and everywhere throughout the United States. Ford owners will no doubt show their appreciation of this by patronizing those Garages where the certainty of the genuine Ford Parts with the genuine Ford service is assured.

We supply genuine FORD Parts to the following Garages:

BENTON MOTOR COMPANY, Ruffin, N. C.
MARTIN'S GARAGE, Reidsville.
SMITH MOTOR COMPANY, Reidsville.
