

# OPPOSITION IS EXPECTED

### Republicans Say They Will Put Out a Ticket

## WILL MAKE A FIGHT

### Some of Them Declare That They Will Have a Good Chance

That the democratic ticket which was nominated today week will have opposition is the statement made by some of those who are not members of the democratic household of the county. The progressives and Mull Moosers and the out and out republicans, have never seen fit to change their faith, the men who voted for Roosevelt and the men who voted for Tatt in the election sometime ago now appear of one accord.

They have one opinion, and that is that the recent primary in Durham has stirred up some interest in democratic history, which if used in the campaign—as they say they will use it—will put an end to the democratic administration in Durham county.

The opposition to the present administration of county affairs declare that they did not have the opportunity to find out the official short-comings of the democrats till they got in to a scrap among themselves. Then, for the sake of getting votes, the democratic friends of one candidate told tales out of school on the other candidates. Just how much the republicans or progressives know, and just what they know is a matter they have not yet seen fit to divulge, but intimate that in the "fullness of time" whenever that is, they will tell the people of the political short-comings of the ticket that has been named to run on the democratic platform in the November elections.

At the present time the republicans have issued no call for the county convention, or taken any steps towards putting out a ticket or starting a campaign. They believe that it will be best to make a whirlwind campaign of it in September or a little earlier possibly rather than nominate their ticket now and do a lot of talking before the actual fight comes off.

The republicans declare that not enough of their number took part in the democratic primary to effect the party strength, and that some of those who by this act joined the democratic party are a happy riddance to their side. The republicans say that there is a rather general demand for a change in the officials at the court house, and that since this change was not provided for by the democrats it will be up to the republicans to put new life into the political body of the county by getting an official in the court house.

Already it is known some of the leaders of the party have been thinking about candidates, but when an inquisitive reporter asked about the probable personnel of the ticket, or some of the more important places of the ticket, the gentlemen asked, "Did that was another thing which would come out in due time."
