There are Thousands of Men

Whose minds are weak and impaired, and whose bodies are unsound and diseased. They are nervous, tired, dizzy, languid, despondent and absent-minded; have a weak aching back, palpitation of the heart, capricious appetite, frightful dreams, a constant fear of impending danger which unfits them for work, study, business or marriage. Others are suffering from privy diseases.

MANY MEN no doubt hesitate about coming to us on account of having been deceived by dishonest unskilled specialists, and perhaps have become skeptical as to think there is no cure for them but we want an opportunity to treat just such men, and it makes no difference whether you have a dollar or not. We want to examine you free and explain to your own satisfaction how we can cure you.

CONSULTATION FREE, CONFIDENTIAL AND INVITED—A personal thorough and searching examination is desired, though, if inconvenient to call, write us.

WE TREAT PILES, FISTULA, RUPTURE, SKIN DISEASES, AND DISEASES OF THE KIDNEYS, BLADDER AND PROSTATE, STOMACH AND LIVER DISEASE.

"Men incidentally in the city are invited to call and see us." Hours: 9 A. M., to 8 P. M. Sunday 9 A. M. to 4 P. M. German-American Medical Institute 14 1/2 E. Morgan St. Phone 503 Raleigh, N. C.

INJURED MAN IS RETICENT

Possibly Knows Who Shot Him But Refuses to Talk About Affair

STRUCK IN THE HEAD

His Wound Is Not Serious and He Will Soon Be Out of the Hospital

Greensboro, Oct. 24.—The five days campaign for new members of the Y. M. C. A. closed this evening at 6:30 o'clock with a supper in the building. This was attended by nearly all of the workers on the several teams. Despite rainy weather the last two days the men have worked hard, and the result is that more than the 300 members expected to be obtained in the campaign were secured. There was considerable excitement tonight to ascertain which teams would get the pennants. The division under Mr. W. E. Blair, obtained the greatest number of members of any division.

Roy F. Cheek, a young white man of the city, is in St. Leo's hospital, suffering from a pistol shot wound which was given him by an unidentified man at the house of Blanche Alexander in the suburbs last night. If the woman and Cheek know the man who did the shooting they will not let this fact be known to the officers. The bullet entered his head above the right eye. It is believed that he will soon be able to leave the hospital.

Hon. A. L. Brooks went to High Point tonight to speak on the proposed amendments to the constitution. Mr. Brooks said it was his purpose to discuss nothing but the amendments, for the reason that many speakers had been criticized for not discussing the amendments more.

Me. C. C. Taylor, secretary of the Jefferson Standard Life Insurance Company of this city, has been notified by Supreme Counselor Claude Duval, of the United States Commercial Tribunal, that he has been appointed as a representative of the order of the National Rivers and Harbors Congress at Washington, D. C. in December. He is the only member of the committee from the eastern part of the United States.

The county democratic candidates have nearly completed their itineraries of the county. They have spoken to good audiences in nearly every township. A majority of 1,500 for the democratic party in the county is predicted.

MENTAL ACTIVITY AND AGE.

Attitude of Mind Has Much to Do With Length of Life.

A few years ago a young man "died of old age" in a New York hospital. After an autopsy the surgeons said that while the youth was in reality only twenty-three years old, he was internally eighty.

It is the aged mind that frequently makes the body old. "Keep growing or die," is nature's motto, a motto written all over everything in the universe. There must be a constant activity in the mind that would not age; and the body is but the expression of the mind.

There is no doubt that, as a race, we shorten our lives very materially through our false thinking, our bad living, and our old-age convictions. Doctor Metchnikoff of the Pasteur institute in Paris, says that men should live at least 120 years. Yet it is only in rare instances today that a man reaches even the century mark.

Making a business of prolonging life and still retaining as much as possible of its vigor, freshness and buoyancy ought to be a prime object, especially after one has passed fifty. While proper care of the body is absolutely essential for the attainment of this object, the mental influence far transcends all others. The attitude of the mind has everything to do with hastening or retarding the degenerative process incident to one's declining years. It is an established fact that the body follows the thought, is shaped by the mental convictions, emotions, moods.—Orison Swett Marden in Nauticus.

Sunday school at 9:20 a m Preaching morning and evening by the pastor The public is cordially invited to attend these services

MADE SPRINTING RECORD

Soldier Did Only Thing He Could and Extended Himself

The old veteran had paused in his reminiscences, and was mopping his brow while his audience waited patiently, thinking he had left off.

"I recollect," he continued dreamily, "that at the battle of the Alma I had a very exciting time. Bullets were pelting upon us like rain. Men fell right and left, cannon roared like thunder itself, and worst of all, the enemy had managed to get within a hundred yards of our position."

"I was mad with excitement and wasn't thinking of nothing except fighting for all I was worth. All of a sudden I turned and found that my regiment had changed its position and I was cut off—left to the mercy of the enemy, sir."

The veteran paused.

"Well, what did you do?" asked an impatient listener.

"Do?" said the old fellow sleepily. "Well, I reckon I did a mile in three seconds."

DENTIST WASTED TIME

Was No Use Waiting For Patient to Close Eye

He was a nervous man, says the Philadelphia Record. Most men are when they find themselves in a dentist's chair, but he was exceptionally so. The tooth that had to come out was quite a small affair—from the dentist's point of view. From the patient's I felt about the same size as a house.

He decided to have gas. The dentist who was in a hurry to go to a baseball game, tried to persuade him to do without, but he was determined.

The dentist, in a fever of impatience, waited for the victim to lose consciousness, but the nervous man insisted on keeping an eye open, though he had enough gas to float an airship.

Unable to control himself any longer the irate tooth-puller exclaimed: "Let go yourself, man! Shut that eye, you idiot!"

Somewhere from the back-block of dreamland the patient murmured sleepily: "Can't; it's glass!"

Miss Myra Vickers left yesterday afternoon for Bahama to spend the week-end with friends and relatives.

WANT ADS WANTED.
