

MAN SERIOUSLY SHOT BY A NEGRO

Mr. O. C. Bright Wounded by Thief in Office of Wood Yard

RECOVERY IS CERTAIN

O. C. Bright, a carpenter living on Alston avenue, was shot by a negro named Joe McAllister and seriously wounded in the neck yesterday morning, when the former man and R. S. McGhee attempted to hold the gunman until an officer could reach the scene. The scene of the shooting was the office of Council and McGhee on the corner of East Pettigrew and Fayetteville streets. The negro is now in safe keeping at the county jail awaiting the results of the injuries inflicted upon Mr. Bright.

When Mr. McGhee opened the office of the wood yard yesterday morning, he noticed the negro attempting to hide in a corner of the room. Mr. McGhee did not enter the office at that time but quickly summoned Mr. Bright to his aid. Together the two entered the office and attempted to collar the negro thief until an officer could be summoned. The negro, however, put up a stubborn and unexpected resistance. Drawing a revolver, the black fired one shot into the neck of Mr. Bright, and then in the confusion which followed he was able to make good his escape temporarily.

The injured man immediately was taken to the Watts hospital, where medical attention was rendered, and where it was announced last night that recovery would follow. Although the bullet made an ugly wound, it was found that it did not strike a vital spot in the man's neck.

Rushing quickly to the scene of the shooting shortly thereafter, the local officers began a search. The negro was captured within a very short time by officers Perry, Goley, Mims, and Holmes on Peabody street.

On searching the clothing of the negro after he was brought to the police station, the officers found a book of postage stamps and a revolver. The stamps are supposed to have been stolen from the office of the wood yard. The revolver is the one with which he attempted the life of Mr. Bright.

McAllister is appearing on three charges: Felony, carrying a concealed weapon, and an attempt to kill the case appears plain against the negro; and it is expected that it will go hard with him. The decisions in the first two cases have been withheld by the recorder after the trial in the civic court yesterday morning until Saturday, when the negro is to be given a trial on the charge of an assault with a deadly weapon with intent to kill.

DURHAM SCHOOL OF MUSIC

The school is composed of a faculty of experienced teachers. Mrs. Albert Wynn and Miss Daisy Robbins have not only studied with teachers of New York, who have graduated from the Leipzig Conservatory, Berlin, Germany, and pupils of Carrievio and Leschetizky, but have also spent many years studying with the late Rafael Joseffy.

Joseffy, who was one of the world's greatest teachers and pianists, was called by many the greatest of all teachers. Joseffy and DePachmann are said to have played Chopin's music more beautifully than any pianists who have ever lived. DePachmann says that he spends four hours daily practicing Joseffy's studies.

Mrs. Wynn and Miss Robbins not only have the honor of having been Joseffy's pupils, but hold his testimonial, which few have, stating that they were serious, talented musicians and pianists, had done excellent work with him and fully capable to teach his method.

Miss Margaret Bathgate director of the voice department, was a pupil of Mrs. Adele Laeis Baldwin, of New York. Miss Bathgate later assisted Mrs. Baldwin at Damrosch's Institute of Musical Art. Some teachers consider it an honor to have studied at the Institute of Musical Art, but Miss Bathgate has taught there. She has also taught voice at the Benjamin and Finch schools, of New York.

Miss Bathgate teaches songs of German, French and Italian, as well as in English. In this way, the pupils are able to sing songs of foreign composers, which cannot be easily translated into the English language.

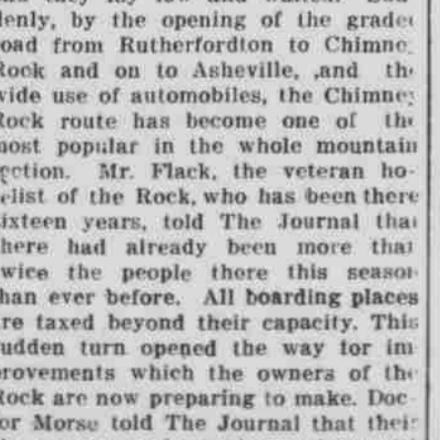

The school opens Monday, September 6th. Telephone 575-L.

TO THE BASE OF THE CHIMNEY

A Possibility of Next Summer for Tourists to Chimney Rock.

The Journal is in possession of a bit of mountain news which Colonel Harris, of the Charlotte Observer, who is a specialist on this line, has not heard so far as we know. This item is that there is a probability, which amounts almost to a certainty, that by next season folks who go to Chimney Rock will be able to drive their cars up to the base of the chimney rock itself, including the sixty acres of land, belongs to Doctor Morse, of Hendersonville, and his two brothers, one of whom lives in Kansas City. Doctor Morse has this week been looking after rights of way for building a road up the mountain to the rock. These gentlemen bought the property several years ago. Since that time they have vainly endeavored to promote both railroad and trolley lines as a means of getting the way opened up to the outside world. Nothing could be done and they lay low and waited. Suddenly, by the opening of the grades road from Rutherfordton to Chimney Rock and on to Asheville, and the wide use of automobiles, the Chimney Rock route has become one of the most popular in the whole mountain section. Mr. Flack, the veteran host of the Rock, who has been there sixteen years, told The Journal that there had already been more than twice the people there this season than ever before. All boarding places are taxed beyond their capacity. This sudden turn opened the way for improvements which the owners of the Rock are now preparing to make. Doctor Morse told The Journal that their plans were to have the road opened by next season. It will be four miles long. He also expects to so improve the Wonderful Trail around the mountain so that it will be safe for donkey navigation a mile around the head of the falls. With the top of the road from Rutherfordton to the Buncombe macadam highway through Hickory Nut Gap will be perfect and will become one of the most traveled roads in all the country.—Monroe Journal.

ATTENTION MUSIC STUDENTS

The Southern Conservatory of Music would call attention to the ability qualifications, and experience of its assistant teachers.

Miss Alice Hundley, who is at the head of the theory and organ departments, and also assistant teacher of piano and voice, has taken the degree of Master of Music, and has also had the advantage of studying piano with Wm. H. Sherwood and spent a year at Damrosch's American Institute of Musical Art in New York. She has proved herself a most thorough and successful teacher. Her composition have been highly complimented by America's greatest critic Dr. Goetschius.

Miss Felicia Kueffner took the degree of Bachelor of Music and studied with Frau Anna Herzog-Langenhahn Munich, Germany, who was a pupil of the world famous teacher, Leschetizky. As a teacher Miss Kueffner is unusually successful and popular, and has the happy faculty of interesting her pupils and enthusing them.

Miss Viola Ownbey holds a certificate from the Conservatory and has taught in the institution for a year and her work demonstrates that she is thorough, competent and painstaking, her pupils showing excellent results.

Miss Mildred Godwin, is a graduate of the Kroeger Music School of St. Louis, Mo., and is a pupil of Mr. E. R. Kroeger, who as a composer, pianist, and teacher stands among the foremost in America today. The fact that Miss Godwin is recommended by him as a pianist and teacher, coupled with her successful experience as a teacher will be sufficient guarantee of her ability. Miss Godwin will be heard in concerts here in the early fall.

More about the advantages offered by the Conservatory will follow in a day or two.

CLOTHES Tailor-Made Clothes
