GREAT

With most exhibitors all motion pictures are great, but to call them all great would destroy the meaning when there was really a great picture coming. Therefore we have been very careful to use the word "GREAT" only when there was really a great offering to be presented.

TOMORROW we have one of those master and incomparable features that we are justified in calling emphatically great. It is

"Judge Not"

"The Woman of Mona Diggins"

A six reel Universal Broadway feature, with Julia Dean, that wonderful gifted Broadway star.

A photoplay treat you can't afford to miss. The cast includes Harry D. Carey, Harry Carter and Mars Robbins.

SCHOOL NEWS

THE BLACKWELL LITERARY SOCIETY.

GREAT

By Winfrey Bramham, fourth year.) Last Friday evening Mr. Cunningnam, of the science department, gave very interesting lecture before the boys of the Blackwell Literary society, his subject being: "The Making of a World." The lecture was all the more enjoyed because of the large GREAT number of illustrative slides shown by the projection lantern which was bought at the beginning of the year.

Mr. Cunningham began his lecture by explaining the scientific theory of the formation of stars and planets. According to scientific theories these bodies are the result of the gradual solidification of dust-like gases or nebulae which are in motion in space. Scientists believe that the entire solar system of which the earth is a material whirling rapidly through place in the athletic life of the school. GREAT GREAT space. Mr. Pusey stated that a new heat ing system was being tried in one of the rooms of the school, and that it might, if proven superior to the one few years made it a custom to ar. the building. He called attention to Some of the best Apples and The high school has for the last now in use, be installed throughout range a basketball tournament in the crowded condition of the playwhich teams representing the four ground during recess times, and said classes contest for the championship that in case of ne improvement this of the school. In these games all would be worse next year because of varsity players are barred so that all the expected entrance of many new the classes will be on an equal foot- pupils. He remarked that it was hoped a gymnasium, equipped with This year the tournament games shower baths, might be set up in the took place on Monday, Wednesday basement of the building for the use and Friday afternoons of last week of the pupils. He also mentioned the in the gymnasium of the Y. M. C. A., interest shown by the high school the use of which Secretary Wilcox pupils in the manual training and dokindly allowed the school. The games mestic science departments, and that shown by the Edgemont school girls well matched, and there were many in the domestic science department lately installed in their school. He advocated the idea of putting in a workshop for the boys and developing this department, and that of the girls' domestic science. He stated, as one reason for his stand, that many of the pupils do not get to the high school, and, without these two cours-Club Members es in the elementary school, would be deprived of the benefits to be derived therefrom.

Mr. Pusey expressed a hope that these improvements might soon be secured for the school, but his hope was mingled with doubt, for the satisfying of these urgent needs demands the carrying of the school bond issue, as the funds now available for such purposes are decidedly insufficient. Mr. Pusey brought out the advantages of the bond issue in the great good to be accomplished by it, if carried, explaining that it would benefit the whole school system.

Two or three citizens of the community spoke during the evening and each one either expressed or im-plied a hope that the bond issue would be carried.

CLIFFORD DODSON DEAD.

Young Boy Died at Watts Hospital Friday Night.

Little Clifford Dodson, the Touryear-old son of Mr. and Mrs. J. H. Dodson, of Orange county, near Hillsfor first place, and the third and first boro, died Friday night at 9:45 at year teams for second. The tie will Watts hospital. Blood poison was the cause of his death, and five operations were performed on him since Sunday, without success. Friday morning the little fellow's condition had so much improved that his father returned home in the afternoon only, however, to receive a few hours later the sad news of the death of his son.

The remains were sent to Hillsboro Saturday afternoon for burial.

No Society at School.

The effort to form a literary society tion of school pride and loyalty on at the West Durham graded school the part of the pupils of the entire failed on account of the lack of inat the West Durham graded school terest among the boys. The society was organized, but the attendance was so small that it was decided to discontinue meeting.

Ready for Christmas.

The children were delighted yeserday to see a big Santa Clause rigged up in the window of the dry goods store of Mrs. Mamie Osborne. The West Durham merchants are getting ready for the holiday rush, and an effort will be made to get the people to trade here as much as possible instead of up-town.

Spending Day in Henderson. Mr. and Mrs. J. I. Irving and daughters, Misses Blanche and Beunia, are spending today visiting friends and relatives in Henderson. They went over and returned through the country in a machine.
