In America we have the opportunity to enlist in the volunteer army of production and saving. In Germany it is a matter of compulsion. The iron hand of the German autocracy forces it harshly upon the German people, depriving them not merely of luxuries but of the bare necessities of life. Here we are asked to voluntarily postpone buying things that we do not particularly need and can do without, that our soldiers and sailors may not lack necessary equipment. It is unthinkable that there is a man, woman or child in America who will refuse to do this.

**WHERE DO YOU STAND?**

Some have given an ear, some a hand, arm, foot or leg. Many have given an eye, thousands—both eyes. And the list of American boys who give everything, who die for you is rapidly increasing.

Think, citizens, think!

You are not asked to give anything, but to loan your money to the Government, to our boys. Are you doing this? If not, God pity you. Buy all the War Savings Stamps you possibly can and thus help your boy, my boy and everybody's boy that is in the army.

**YOUR BADGE OF DISHONOR**

If you are making money out of the war, your wealth is a badge of dishonor. President Wilson has said: "No man should make a fortune out of the war; such a fortune would be a badge of dishonor, and would constitute a badge of dishonor to whoever such a fortune was transmitted."

Now, while our country is calling for money and men and life itself, that liberty may live, those who would profiteer by ravishing the hives of honest industry are but drones, who should be stung to death or expelled from the colony. Those who would profit at the price of the nation's peril and the people's sacrifices are void of patriotism and honor. Those who in their selfish lust for gain see in our country's crisis nothing but opportunity for exploitation of the people are void of common decency. That which has been won with dishonor cannot be kept with honor. Any war wealth must constitute a badge of dishonor.

**RESISTING THE DRAFT LAW**

It is reported that about forty men in Ashe county are banded together in the mountain fastnesses and resisting the draft law. A party of officers and citizens last Saturday in attempting to capture some of the slackers were fired on and one citizen killed. A call was sent to North Wilkesboro for help and also to Winston-Salem for the Home Guard Company, but after consultation with the authorities it was decided that conditions did not yet justify such drastic measures.

It is thought that by using gentler means these men will be induced to come in and go to camp and fill their places with honor to themselves and their country.

While this occurrence makes it look bad for Ashe county, people who know the situation of the county and the conditions there will not enter condemnation against it. There are as fine a lot of people in Ashe county as can be found anywhere in the State, and they are as true and loyal to their country and its laws as any people under the sun, but in the section where this trouble has occurred it is a small portion of the county where the three States, Virginia, North

Carolina and Tennessee come together, in the rough hills and mountain cooves, and is peopled by a class of the rougher element of humanity. The lack of education and associations with the better element of the citizens of the country is largely the cause of this trouble. It is hoped there will be no further troubles of a serious nature there.

**THE WAR CONDITIONS.**

The war conditions along the fighting line in France and Italy are much better this week than they were last. The allied troops are holding their own and in places are making gains over the Germans all along the lines in northern France, while the Italians have gained a great victory over the Austrians and driven them back beyond the eastern bank of the river Piave.

The Italian troops not only drove the invaders back across the river, but have crossed themselves and are now holding many important points on the eastern side. Many thousands of the Austrians were killed while attempting to gain the eastern bank of the river in their retreat, and about forty thousand prisoners were captured by the Italians. The casualties of the Austrians in killed, wounded and prisoners is estimated at two hundred thousand. Reports gathered from different sources say that conditions in Austria are growing worse each day. The people are on the verge of starvation and the government is unable to furnish them any relief.

The German army seems to be broken in spirit, and have lost that dash and courage with which they were imbued on their first entrance into the war, while the German people at home are becoming restless and impatient, and in many sections a revolt is threatened and momentarily expected.

With the large numbers of fresh troops that are now being massed in the fighting zones of France and Italy by the allied nations, we look with confidence to the success of the allied forces and believe that the tide of the battle has now turned in their favor. There is yet to be some hard fighting done, and many lives will be lost, but the slogan now should be "On to Berlin and Death to the Kaiser!"

**PURE PATRIOTISM.**

Oliver Moore, colored, of Jonesville, has two sons in the American army now in France. He showed us a letter today from one of the boys, Russell, written the 23rd of May, in which he enclosed three money orders amounting to \$230.00, with instructions for him to invest it in some safe manner. He at once put \$200.00 of it into War Savings Stamps, thus placing it where it will help the government and help the boy, too.

Oliver is doing a good work among the colored people of his community in selling War Savings Stamps, and set a good example himself by investing \$30.00 in Stamps.

The colored people of this section are true and loyal to their country and are anxious and willing to do their part in the great struggle in which our country is engaged. It is seldom you ever hear of a slacker among the colored drafted men. When they are called to go they are on the spot.

**EVER SALIVATED BY CALOMEL? HORRIBLE!**

Calomel is quicksilver and acts like dynamite on your liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.
