

A vast amount of work can be done which the...
WALKER D. HINE,
General Counsel of Railroads.

Work more—
Produce more—
Save more—

But we can't continue increasing our production unless we continue increasing our railroad facilities.

The farms, mines and factories cannot increase their output beyond the capacity of the railroads to haul their products.

Railroads are now near the peak of their carrying capacity.

Without railroad expansion—more engines, more cars, more tracks, more terminals—there can be little increase in production.

But this country of ours is going to keep right on growing—and the railroads must grow with it.

To command in the investment markets the flow of new capital to expand railroad facilities—and so increase production—there must be public confidence in the future earning power of railroads.

The nation's business can grow only as fast as the railroads grow.

This advertisement is published by the Association of Railway Executives.

Those seeking information concerning the railroad situation may obtain literature by writing to the Association of Railway Executives, 81 Broadway, New York.

These biscuits are always delicious

Occo-nee-chee Self-Rising Flour makes uniformly good biscuits, hot-cakes and waffles because it contains baking-powder, soda and salt in proportions for perfect baking.

It is economical because you pay less for the extra ingredients by buying them already mixed.

It's so easy to use Occo-nee-nee—just mix with water or milk and bake—that's all. A few seconds for each and no worry because these biscuits are always delicious.

OCCO-NEE-CHEE
Self-Rising Flour

Takes the Guess out of Baking and Saves you Money

There's an Indian Head on every bag of Occo-nee-nee Self-Rising Flour. Look for it today.

Buy Occo-nee-nee Flour if you want the best flour flour.

Don't "follow the leader"

The "leader" is an ancient artifice employed by the so-called "economy stores" to create the impression that their prices are low.

They sell an article of standard brand several cents cheaper than it can be bought elsewhere—sometimes cheaper than the dealer himself can buy it.

Now, if these stores carried out this policy on all their goods they would be doing business at an actual loss. Why, then, do they make this sacrifice on some standard article? Because they expect to get it back with good interest on other and unidentified goods which the uninitiated think they are getting cheap because the "leader" was cheap!

Real economy is in dealing where you have absolute confidence in the grocer.

We are in a position to serve you intelligently. We make it our business to test everything we recommend.

When RYZON was introduced we knew that it was the product of the General Chemical Company, a great Chemical Organization, and must be worth trying. We did, and now we know why they call it "The Perfect Baking Powder."

We consider the RYZON Baking Book of untold value. It was the first baking powder manual to introduce level measurements. That's one reason why we never have any complaints from RYZON—women can't help but use it accurately and they have uniformly better baking. Ask about these 200 recipes when you come in the store—you can get them for 30c.
