Our merchants and business men generally, have been engaged the past week in taking inventories of stock on hand and making comparisons of the years' business with that of the preceding year, all of them seem well pleased with the result of the year's work and are looking forward with brighter anticipations for increased volume of business in this good year 1920 now opening up. Two new mercantile firms are now opening up, bran new stocks and will compete for a portion of the large and increasing trade that is rapidly entering here.

The Poinceter Brick Company's shareholders met Wednesday and completed the organization by electing Dr. J. W. Ring, President; R. L. Poindexter, Vice-President and General Manager; A. Chatham, Jr., Treasurer and J. P. Henderson Secretary. This corporation has purchased land for its plants and will be in a position to supply brick as soon as the weather will permit. This plant will help to solve the problem of brick for building material in the town and community. Mr. Poindexter, the manager, is an experienced and successful brick maker, and it goes without saying that Capt. "Bob" will deliver first-class brick to parties needing same. Monday afternoon and for the first time in history the people of Elkin were treated to a sight of an airplane, flying above the city. The plane was piloted by Lieut. Merrill, a former flier in the U. S. army, who is spending the winter in Winston-Salem. The airplane started from Winston-Salem with several hundred copies of the Journal which were delivered along the route at Rural Hill, Mt. Airy, Elkin, North Wilkesboro and Yadkinville. It took just twenty minutes to fly from Mt. Airy to Elkin, a distance of thirty-two miles. It is hoped that in the near future the Tribune may adopt this modern method of newspaper delivery. Mrs. Wesley Ballard, of Winston-Salem, died at her home last Thursday, after an illness of about two years, suffering from heart dropsy. The funeral service was conducted from the home and the body shipped to Elkin and carried from here to Fall Creek, Yadkin county, where interment was made in the cemetery of the church to which she had long been a member. Mr. Gray Miller will be associated with the Atkinson Company, which will be quite an impetus to the business of this popular and growing firm. There are or possibly will be other changes in the business affairs of the town that we have not yet heard of. MANY WOMEN USE GYNERINE MIXTURE Elkin women will be surprised at the INSTANT pleasant action of simple glycerine, buckthorn bark, etc., as mixed in Adler-Lin. One spoonful relieves ANY CASE gas on stomach or sour stomach. Because Adler-Lin acts on BOTH upper and lower bowel it often cures constipation and prevents appendicitis. THE TELEPHONE GIRL. "THE TELEPHONE GIRL" who is so busy and so busy in every way, she knows all the news, she knows all our sorrows, she knows all our joys, she knows every girl who is chasing the boys, she knows all our troubles, she knows all our strife, she knows every man who is mean to his wife, she knows every time we are out with the boys, she knows the excuses each fellow employs, she knows every woman who has a dark past, she knows every man who is inclined to be fast. In fact there's a secret 'neath each sunny curl, Of that quiet demure looking "Telephone Girl." If the Telephone Girl would tell all she knows It would turn half our friends into bitterest foes, She'd start a small wind that would soon be a gale, And engulf us in trouble and lead us in jail, She would let go a story (which gaining in force) Would cause half our wives to sue for divorce, She would get all the churches mixed up in a fight, And turn all our days into sorrowing nights, In fact she would keep all the world in a stew, If she told a tenth part of the things she knew, Now doesn't it set your head in a whirl, When you think what you see "The Telephone Girl." Catarhal Deafness Cannot Be Cured No local application of any remedy reach the sensitive portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an abnormal condition of the mucous lining of the Eustachian tube. When this tube is inflamed and has a coating of mucus on its inner surface, it prevents the free passage of air from the middle ear to the external ear. The mucus is removed by the use of the Eustachian tube dilator. This dilator is a small, delicate instrument which is inserted into the ear and the mucus is dissolved. Many cases of deafness are cured by this method. The Eustachian tube dilator is sold by the Elkin Hardware Company. It is the best and most reliable remedy for catarhal deafness.
