Last Monday Charlie Young bought a lot in West Elkin, at the junction of Main and Elk Spur streets from R. C. Ray for which he paid \$500.00. The buying of a lot by one person from another is nothing unusual, but the point we wish to make is, how many fifteen-year old boys are there in Elkin who own any real estate in their own name, or how many are saving the money they make with a view to future investments? To have what they call a good time seems to be the ambition of the boys of the present age.

Forty convicts, twenty-five mules, with carts and motor trucks are now at work on the hard surface road from State Road, by Mountain Park to Kappa Mills. This road will be completed by November and will open up to the people of that country a way to get in touch with the outside world and make a market for their timber, fruit, etc., of which they have as fine as can be found in the State. Good roads are the life of a community and we hope soon to see a hard surface road connecting every community with the main highway.

**OUR RALEIGH LETTER**  
 (Special Correspondence.)  
 Raleigh, N. C., Sept. 20—Well, we had an old acquaintance, Marion Butler, of Sampson and Washington, with us in Raleigh again the last few days, and if current report is correct we will have some more of him here during the next legislature. It was at first mooted that the fusionist of negro domination days had called to hold a conference with his newspaper friends here, the editor of the Raleigh Times and the Raleigh correspondent of the Greensboro News. No "official" announcement of the nature of this joint talkfest has been formally made but there may be some outcroppings of it in the editorial columns of the Raleigh afternoon paper and the Raleigh correspondent of the Greensboro News in the near future.

Mr. Butler was also here to attend the hearing of the Republican application for a restraining order against the State Board of Elections, wherein Candidate Jenkins (the party to the complaint) sought to stop the functioning of that law this year. Judge Dimmocks Rule Against Board of Elections. Judge Kerr, after hearing argument, dismissed the rule against the State Board of Elections which he issued ten days ago, and the operation of the absentee voters law is now as effective as ever. Counsel for the plaintiff appealed it is true, but as Judge Kerr dismissed the case "because of lack of cause of action in the complaint," it is a safe prediction to make that the higher court will sustain Judge Kerr's decision by adding the final knockout blow to this partisan attempt by the Republican campaign management to kill a good law. The absentee voters law not only protects the vote of bona fide citizens to participate in elections when they are unavoidably absent from their home precincts, but it protects the sick also. Following is the provision in the law that does this:

"It shall be the duty of the County Board of Elections to mail or send to any voter absent from the county, or who is physically unable to attend in person, on application for same by such voter or by any person for him, a form of ballot, etc.

**Negros in Politics This Year**  
 Evidence of the purpose to figure the negro vote in the election in North Carolina this year is multiplying. Ever since the Republican candidate for President received the large delegation of negroes, led by the negro Republican national committeeman from Georgia, at his home in Ohio a short time ago, when he was promised a large negro vote in the south, as well as of negro men, there has been activity in many eastern counties of negro campaigners for both Harding and the Republican State ticket.

One only has to revert to Butler's performance of 1894-96 to see how all this fits in with his purpose to come to the legislature again from the Republican county of Sampson.  
**Republican Slush Money**  
 In North Carolina. Another proof of the use of much of the big campaign slush fund by the national Republican manager in North Carolina is being furnished by the numerous

1000 campaign newspapers (and allied) that are starting up. They run up advertising and their columns are filled with reprint Republican propaganda, almost exclusively. The bills are taken care of by the Finance Committee of the Republican national committee. After election day these campaign sheets will yield up the ghost and disappear.

But the point is this: Democrats should at once come to an appreciation of the fact that the enemy is more active in North Carolina this year than in any election in many years, and take steps accordingly. North Carolina is normally a Democratic State, and never more so than at the present time. But in order to perpetuate our political ascendancy General Activity must keep a sharp eye on his enemy, General Apathy, and muster the Democratic forces to their full strength.

**Women Must Register.**  
 The difficult task just experienced in Raleigh of getting most of the white women to register their names last Saturday, the last day of registration, so they could vote on the subject of the school tax in this city, reveals a condition that should arouse active women and Democratic men to tackle the obvious job before them. Women with a distaste for participating in elections so strong that they refuse or consent only after urgent appeals from others, when an election is at hand that affects the education of their children, need to be looked after more particularly than was supposed would be the case, if they are to figure to any considerable extent in the general election in November. It is up to Democratic men to urge and bring their moral and family influence to bear on the female members of their families by impressing upon them their DUTY to get their names on the rosters of infant and adult life, registration books when they are opened the last day of September. The ruling of the Attorney General that women must register in person, should not deter them for a moment, and the men of the family should be prompt to offer to accompany them to the registration place. Most of them perhaps will go alone or with some other women, once their minds are "made up," and the other kind should not be allowed to be left behind because of timidity. Go to it, gentlemen. Some of them apparently are going to need a lot of eloquent "persuasion" of one sort or another.

I would jog you with one reminder, however, be careful with your "cave stuff" in this day and generation of the Nineteenth Amendment.

**Typhoid Germs Come from Persons.**  
 From the bodies of persons sick with typhoid fever myriads of living typhoid germs are discharged in the stools and urine, and (rarely) some in the sputum. Every typhoid fever patient, therefore, should be regarded as a reservoir of infection and the excreta dealt with as a very dangerous poison. If only the excreta from persons sick with the disease contained typhoid germs, the prevention of typhoid would be much simpler than it is. It has been found, however, that some persons in apparently good health harbor in their bodies and discharge in their excreta typhoid germs just as do persons who suffer from typhoid fever. Any person who has ever been exposed to typhoid infection may be one of these so-called "carriers."

Neighbor Outlook for Cotton and Tobacco.  
 Despite the alleged purpose of Republican "high finance" to create as much political capital as possible out of the cotton and tobacco markets between now and Nov. 2, election day, the cotton and tobacco growers are going to come out better than the manipulators of the market planned. The Lord helps those who help themselves, you bet, and the meetings of the growers last week and this week will eventuate in the perfection of ways and means for adequate relief.
