

**SURRY TO RECEIVE
LARGE SCHOOL SUM**

**111 Additional Teachers Allotted
To Schools in 57 of the
93 Counties**

Raleigh, Oct. 14.—One hundred and eleven additional teachers were allotted to schools in 57 of the 93 counties participating in the State school equalizing fund, due to increased enrollment of pupils, by the State Board of Equalization at its recent meeting, out of more than 200 requests for additional teachers, LeRoy Martin, secretary, announces. The limit of about \$100,000 for this purpose, the State Board paying the full salaries of the additional teachers, held down the number, although a few others will probably be given schools just now starting.

One additional teacher was allotted to Surry county.

Figures just compiled show that Surry county will receive a total of \$93,857.18 from the State school fund this year, \$72,549.47 of which is for the constitutional six months term and \$21,307.71 for the extended term, in addition to any that may be paid to extra teachers allotted.

Of the total of \$6,500,000 appropriated for schools, \$6,273,586.06 has been allotted by the board, \$4,992,996.34 from the \$5,250,000.00 equalizing fund and \$1,280,595.72, plus a balance from last year, of the \$1,250,000 tax reduction fund.

Surry County had a total of 4,750 automobiles and 700 trucks on October 1, according to the registration cards in file with the Motor Vehicle Bureau, Sprague Silver, director, announces.

The entire State had a registration of 393,730 automobiles, including 3,550 owned by non-residents, leaving an average of 3,902 to each county; 58,010 trucks, including 920 of non-residents, an average of 571 to the county, and 1,290 motorcycles, an average of about 13 to the county.
