

Kiwanians and County To Finance Work Of Home Demonstration

(Continued from Page One)

wanis club, therefore, will have to receive the verdict of the commissioners before making plans to finance the work inasmuch as until at such time the commissioners pass upon the matter the club will not know what amount it would have to furnish. A total of \$27.75 per month for a period of four months is needed.

A committee headed by Albert Bryan as chairman and including Alex Chatham, Avery Neaves and H. T. Brown, was appointed by H. P. Graham, president of the club, to work on the plans of financing. Mr. Brown and Mr. Neaves pledged \$15 each from their respective companies, to go towards paying the expenses for April.

Miss Brown, in a short talk, pointed out the nature of the work that is being done and asked that the Kiwanis club co-operate with her in keeping this really worthwhile project going. The Kiwanis club of North Wilkesboro and the county are taking equal part in financing Wilkes county's end of the work.

Prominent Mt. Airy Man States That Sacrifice In Time And Money Is More Than He Wishes to Make

Attorney S. Gilmer Sparger, of Danbury, Stokes county, has announced himself as candidate for the Democratic nomination to represent the 26th district in the state senate following the decision of Senator John H. Folger, of Mount Airy, not to be a candidate for the senate from the Surry-Stokes district this year.

Mr. Folger, an ardent opponent of the sales tax, won for himself a state-wide reputation in his victory over the proponents of the measure in the last session of the general assembly. In announcing that he would not be a candidate this year, he did not elaborate upon his statement other than to say that the sacrifice in time and money was more than he wished to make.

CHATHAM TO PLAY 1ST GAME MONDAY

Will Play With the Chatham Team Of Winston-Salem; Expect A Close Battle

The baseball team of the Chatham Manufacturing Company has been organized within the last two weeks and the opening game is scheduled for Easter Monday, March 28th. On this date the local team will play the team from the Winston-Salem mill of the same company, and as keen rivalry has always existed between these two clubs, a thrilling game is expected.

The local boys promise to put a crack team on the field this year, having several of the best players from last year's team who will play again this year. Daily work-outs have been taken for the past two weeks, and the team as a whole will be in excellent condition for Monday's game. The game will be called at 2:30 P. M. sharp, and a good attendance is expected, due to the fact that this is the annual opening game and that the rivalry of the two teams has become traditional. Henry Dobson is in charge of the team again this year, and has assembled what is believed to be a group of players well qualified to represent the company on the diamond.

NOW IS TIME TO HAVE WELL BORED

About twenty years ago R. E. Faw, of North Wilkesboro, was engaged to drill two wells for the Elkin Ice Plant, then being constructed by Messrs. R. L. Poindexter, W. S. Gough and S. M. Arnold. These wells are still supplying their bounty of pure sparkling water from which Elkin's hard crystal ice has been produced for the past twenty years. Since that time many wells have been drilled by this firm for the leading industrial plants as well as citizens of the town and community, the deepest well being at Cope-land school, in Surry county, which was drilled in the fall of 1931, to a depth of 358 feet. Other jobs recently completed was a well of 202 feet for the Blue Ridge Academy, The Hollow, Virginia, the Surry County prison camp, near Dobson at a depth of 249 feet and W. J. Harmon, near the city limits of Elkin 112 feet deep.

Those who have old wells that are unsatisfactory are invited to inspect these jobs. Wells now being drilled in this county are: L. M. York, near Mt. Airy; Aaron Collins, near Elkin. Wells have been drilled by this company in fifteen different counties in the state, the deepest being in Burke county, one 907 feet and one 704 feet. They are prepared to drill wells from two to eight inches in diameter, ranging in price from 75c per foot, up.

The company is now operating under the firm name of Faw and Caudle, R. E. Faw, Jr., North Wilkesboro, general manager. Telephone 185-J.

Anyone having need of this kind of work is invited to get in touch with Mr. Faw while the machinery is in this locality.—Advertisement
