

TIMELY FARM SUGGESTIONS

By J. W. CRAWFORD
County Farm Agent

It is now time that all lespedeza seed were being sown. All seed should be sown by the first of April. No farmer can go wrong in sowing this legume as it has no equal considering its uses and cost to produce it. It makes a good pasture crop for summer and fall grazing. It is an excellent legume for hay and also for soil improvement. So far there has been money in producing it for seed. Lespedeza is now a million dollar crop in North Carolina and has reached this rank in a short period of three years. In 1929 the value of seed and hay produced from lespedeza was only \$376,000 and in 1931 it was \$1,652,000.

Feed the Bees

Many colonies of bees are in need of food. As a result of the unusually mild winter weather, the bees have been active both within and without the hive during most of the winter. This has caused them to consume more of their honey than usual. Therefore, in many cases, colonies that last fall had an abundant supply of food to last until spring are in the "bread line."

The bees should be watched closely and fed, if necessary. This will aid greatly in having strong colonies and plenty of honey next summer and save many of the bees from dying.

Honey free of foulbrood may be used for feeding the bees or sugar syrup given. In making the syrup use 2 parts of granulated sugar and one part of water. If practicable, put the syrup in a friction top pail feeder and place it just above the winter cluster. Observe the usual precautions against robbing.

The Garden

It is generally considered that a garden, one half an acre in size, when properly managed, produces products worth \$225. But few acres on the farm will yield this well. For this reason, the garden deserves more attention than is commonly given it.

The raising of vegetables require much handwork. This makes rich land especially desirable. Handwork is expensive and large yields are necessary if returns are to be profitable.

If manure is available, apply 20 loads per acre. It will lighten the soil and improve its producing power. In addition to manure, apply 800 pounds per acre of superphosphate. Broadcast half of it on the ground and harrow it in. Use the other half to side-dress the plants.

If manure is not used apply 1,200 pounds per acre of a complete

fertilizer, such as one containing 4 per cent ammonia, 12 per cent phosphoric acid and 4 per cent potash. Apply one half broadcast before the vegetables are planted and side-dress with the remainder.

If the spring garden has not been started, plant the seed at once. Vegetables that should be planted now are peas, spinach, carrots, lettuce, radish, onion sets, onion seed, beets, salsify, and cabbage.

The seed of tomato, cabbage, egg plant, peppers, etc., should be planted at once in order to obtain plants for transplanting. It is often inconvenient to produce such plants at home. It is possible to purchase them at reasonable prices from many sources.

Bermuda onions have become very popular in our section during recent years. The practice usually followed in raising them is to purchase the slips and set them out 6 inches apart in rows 18 inches wide, about two weeks before the usual date of the last killing frost in the spring.

It is possible to have cucumbers, muskmelons, etc., 10 days to two weeks earlier than they are ordinarily had by starting them indoors and transplanting them outdoors af-

ter the danger of frost is over. This may be done by planting the seed in inverted blocks of sod and keeping the sod in a warm sunny place until time to transfer them to the open.

Halt Huge Dividend Payment

Federal Judge Francis C. Caffey, on Friday in New York, enjoined the American Tobacco company from payment of bonuses based on the 1931 net earnings of \$46,189,741. The injunction was secured by Richard R. Rogers, minority stockholder, pending litigation to test the right of President George W. Hill and vice-presidents to draw heavy bonuses. Hill's 1930 profit-sharing pay being \$2,383,000.

Arrest New Jersey Kidnap

George Nalden, New York, was arrested Saturday night and identified as the man who raised a ladder to the nursery in the home of J. S. Johnson at Highland Park, and tried to kidnap his baby daughter. He was also identified as a bandit who had made several hold-ups. He is said to have no connection with the Lindbergh kidnaping.

HOME DEMONSTRATION NOTES

By HAZEL BROWNE

Eggs are a good food bargain now!

Not for twenty years have eggs been so cheap at Easter time. Spring is the season for quality—more good eggs come on the market in the spring than at any other time of the year. Eggs are body building foods. Egg yolk is fed to the baby to supplement his milk and an egg each day is a good food rule for everyone. Like milk and meat eggs are rich in protein. They contain iron in a form easily utilized in the body. Because of this iron, eggs are good blood builders. Every cook wants eggs to cook with. They add richness, flavor, delicacy, and improve the texture of almost any kind of dish. The secret of cooking egg dishes is to cook slowly at a moderate even heat. A hot heat toughens the white of eggs.

Eggs can form the main dish of

any meal. For variety they can be used in sauces, poached on toast with tomato sauce or baked with cheese. An economical dish is cheese fondue with a large proportion of eggs and enough cheese to flavor.

A recipe of a fluffy omelet that is sure to please: 4 eggs, two table spoons of butter, two tablespoons of flour, 1/2 teaspoon salt, pepper, one cup of milk. Make white sauce of butter, flour, seasoning, and milk. Cook in double boiler until moderately thick. Add two well beaten egg yolks, then two stiffly beaten egg whites. Pour into a deep baking dish and cook in moderate oven for fifteen minutes. Variations include a sprinkling of cheese over top of omelet, or a spoon of grape jelly in the center. This omelet may be baked in ramekins for individual servings. The beauty of this omelet is that it is easily prepared, can be served to small children, invalids and elderly persons. It may be used for any of the three meals as the main dish.

Schedule for the week: Monday, Little Richmond; Tuesday, Jenkins town and Miller's Creek; Wednesday, North Elkin and Ferguson;

Thursday, Wilkesboro and Mountain View; Friday, North Elkin; Saturday, Wilkesboro.

Miss Browne will keep an office in the Wilkesboro high school on the second and fourth Saturday of each calendar month. Next Saturday the people of Wilkes county will be given a chance to exchange plant and seeds in the office and millinery demonstrations will be given to the ladies and girls visiting the office.

Radio waves travel at the approximate rate of 186,300 miles a second.

ADMINISTRATOR'S NOTICE

The undersigned having qualified as administrator of the estate of W. G. Dodson, deceased, this is to notify all persons having claims against this estate to present same to the undersigned within twelve months from date hereof or this notice will be pleaded in bar of their recovery.

All persons indebted to this estate will please make prompt payment to the undersigned.

This the 22nd day of March, 1932.
L. P. DODSON,
Administrator.

The Triumph of Beverage Perfection

The New NuGrape

Reg. U. S. Pat. Off.

MADE WITH WELCH'S GRAPE JUICE

From Maine to California millions are enjoying today the supreme achievement of the makers of NuGrape. Truly this is a gala day in the history of beverage making. It marks the final victory of science over the ancient King of all Fruit Juices—King Grape Juice!

After years of expensive research our labors are rewarded. Our laboratory working in conjunction with the Welch Grape Juice Company, has produced a New NuGrape . . . A delicious, carbonated beverage deriving its entire flavor and color from Welch's Grape Juice.

Never before has there been a drink like this introduced to the American public. The New NuGrape has a smooth, fresh piquancy of flavor—a delightful, bracing tartness about

it that only the flavor of grape juice can give.

Try your first bottle today and if you don't think it's better than any artificial grape drink you ever tasted—write us, enclosing crown and we'll gladly refund you the small purchase price. Make sure though you get the genuine. The New NuGrape is now on sale everywhere for 5¢.

NOTICE OF TRUSTEE'S SALE

Default having been made in payment of the indebtedness secured by that certain deed of trust to me as trustee for Jefferson Standard Life Insurance Company by E. C. James, on November 19, 1925, and recorded in the office of the Register of Deeds of Surry County in Book 99 at Page 151, I will, under and by virtue of the power of sale contained in said deed of trust, and at the request of the cestui que trust, and for the purpose of discharging the debt secured by said deed of trust, proceed to sell to the highest bidder, for cash, at the courthouse door in Dobson, Surry County, N. C., at 12 o'clock M., on Thursday, April 21, 1932, the following described land, to-wit:

Two certain lots situated in Elkin, Surry County, North Carolina:

FIRST TRACT: Beginning on a stone the northwest corner of Main street and Alley No. 3 and running south 73 degrees west along Main street 85 feet to a stone; thence south 17 degrees east 106 feet to a stone; thence north 73 degrees east 85 feet to a stone in line of Alley No. 3; thence north 17 degrees west with said Alley to Main street, the place of beginning. Further known as the east half of Lots Nos. 11 and 12 as shown on H. G. Chatham addition map of Elkin and recorded in Register's office at Dobson, N. C.

SECOND TRACT: Adjoining the lands of H. G. Chatham and R. M. Chatham, Ed McDaniel and others, and bounded as follows: Beginning on a stake, the southeast corner of Lot No. 12 on an alley, and running south 17 degrees east with line of said Alley 82.5 feet more or less to a corner of lot No. 14, Ed McDaniel's corner; thence with said McDaniel's line south 75 degrees west 85 feet more or less to the stone, the center of Lot No. 13; thence south 17 degrees west 82.5 feet more or less to the line of Lot No. 12, J. W. Ring's southwest corner; thence north 75 degrees east with the line of Lot No. 12, 85 feet to place of beginning, containing one-sixth of an acre more or less, and being further shown and designated as the east half of Lot No. 13 on Map known as H. G. Chatham's addition to Elkin.

This, the 10th day of March, 1932.
