PEOPLES' COLUMN

The Tribune does not necessarily endorse any article under this heading but welcomes at all times communications of interest to its readers and the general public.

HIGHWAY NO. 268

Editor Tribune:
In answer to Mr. Walter Morrison, of Roaring River, N. C., relative to the location of Highway No. 268 from Elkin to North Wilkesboro:

Mr. Morrison stated that he was somewhat surprised at seeing Laster's article published in the Wilkes Journal-Patriot of Thursday, last week. There probably may be more surprises in store for Mr. Morrison when the people are led into the true light of this controversy relative to the location of this road.

I do not know who wrote this article signed by Mr. M. C. Laster, however I do know it was chock full of facts from beginning to end, and then all the facts were not made public. To locate this road via Ronda and Roaring River would mean that there is only two places between Elkin and North Wilkesboro from which this road is accessible from the south, that being Ronda and Roaring River, causing all the people north of the river to pull all the mud from their home to the river just to please a few dozen citizens in the two little towns. Mr. Morrison, we can produce five tax payers to one, yes I believe that we can produce ten to one who will tell

Mr. Jeffress and Mr. Browning that they do not favor the road going up the river. Why not give one taxpayer equal advantage with another? If you will leave off certain men in North Wilkesboro and Elkin, who are influenced by certain political ambitions and who are exerting their influence for political purposes, then we have no fear as to the location of this road.

As to the cost of construction of the two surveys, we, favoring the northern route will be perfectly willing for each project to be submitted for bids, the Highway Commission letting same to the cheapest route. Are you favorable? Mr. Morrison, when Mr. Jeffress and Mr. Browning had you in consultation helping to study the cost of each route, are you sure you were not dreaming or was you under the influence rabbinic incubus (night mare). How many roads have you built? How many estimates have you completed and where did you get your engineering degree? Ronda and Roaring River have been towns for the past 50 years, and as Mr. Laster truthfully stated, the county highway system was centralized in the two towns respective to their communities, and neither town has grown any great amount since I can remember, with all these advantages. The road up the river can be of no material advantage to the schools of the towns as you cannot run school children out of the Yadin river banks. The route out from the river traverses about eight school districts, and with very little work will make the two schools accessible to hundreds more of pupils. Education is what is needed in this fast age, why not give us all an equal advantage of the schools?

I have seen and know about both surveys, and as stated by Mr. Laster the survey some few miles north of the river is a straight survey as compared with the river route. I am no engineer, neither have I been consulted by Mr. Jeffress or Mr. Browning relative to the cost of this road, but common sense teaches me that the straight route can be constructed for thousands of dollars less. There is not near so many bridges to build, they will be shorter, the grading will be at least 50 per cent less, then we have plenty of building sites, which will increase the taxables of Wilkes, as

soon as can be developed, lessening the taxes of the tax payers in general.

I am hiding behind no one and do not fear to sign my name to this article.

Respectfully,
J. A. THARPE.

SAFETY FIRST

THE PUBLIC should be prudent in seeking relief from pain. Take nothing which does not have the approval of the medical profession.

BAYER ASPIRIN will never do you any harm, and almost always brings the desired relief. But remember that the high medical endorsement given Bayer Aspirin does not apply to all tablets for relief of pain.

THE DOCTOR is careful to specify Bayer Aspirin for these important reasons:
It has no injurious ingredients. No coarse particles to irritate throat or stomach. Nothing to upset the system. Not even any disagreeable taste. The Bayer process insures a pure, uniform product.

INSIST on the tablet you know to be safe. And the one that has speed. Bayer tablets dissolve so quickly, you get immediate relief from your headache, neuralgia, or other pain.
