# Nature's Own Refrigerant!

Manufactured From Pure Deep Well Water

## To The Public:

We solicit your patronage and co-operation in giving you better Ice service. In case you do not get efficient service and courteous treatment, kindly notify the management. For the convenience of our patrons, and for ourselves, we ask that you use our ice cards which we gladly furnish free of charge. To those who care to take advantage of our coupon books, which are now on sale, will be a considerable saving as well as convenience as on our coupon books you can save 5 per cent.

We invite you to visit our plant and see for yourself the pains we take to manufacture pure, clean deep well water ice. As we are one of you, and you one of us, patronize us and help keep Elkin money at home.

**USERS OF ICE**

## Know...

- 1 That ice is truly automatic, independent of all machinery and never gets out of order.
- 2 That ice contains no coils to be defrosted regularly and that ice does prevent, through its melting process, the contamination of odors and flavors of various foods in the refrigerator which pass out through the melting drain.
- 3 That ice refrigerators cost less than any other form—less for the refrigerator, less for daily operation, less for interest and depreciation and nothing for repairs.
- 4 That commercial ice, which takes from 48 to 60 hours to freeze, is clearer, harder and purer than home-made ice that is frozen in a few hours time.
- 5 That ice is absolutely silent, no hum of motor or rattle of moving parts.
- 6 That the Carolina Ice and Fuel Company will deliver every day in the year with pure ice that assures you always of full weight. Not melted down on long hauls.
