prate \$300 For
Health Work

PUT OFF TAX SALE

At the meeting of the town board of commissioners held Monday night, a milk ordinance was passed which requires that only Grade A milk may be sold in Elkin.

It was pointed out that each of the dairies now serving the town produce grade A milk and that the town stands high in state rating in this respect, holding its own with cities such as Charlotte, Greensboro, Durham, etc.

The local tax sale, supposed to be staged on June 1, was ordered postponed until July 1, at which time it will in all probability be again postponed, it was learned.

Dr. Britt, county health officer, appeared before the board and asked that the town appropriate the sum of \$300 for health work in the county, stating that unless this is done county health work may be discontinued. Action on this matter was deferred until next month's meeting.

Registration day is Saturday, June 10, from nine to one o'clock. Dr. Hadley will be present to confer with students about their courses.

In regard to the expenses of the summer school, Dr. Hadley issues the following statement:

"The tentative tuition fee will be \$20.00 a term as is charged at Catawba College Summer School. But in view of the prevailing financial conditions, if the enrollment is more than enough to meet all expenses of the summer school division at Elkin, Catawba College will endeavor to refund a portion of the registration fee to all students who complete the term's work." The summer school division here must be self-supporting, it has been pointed out.

The college will send Miss Meta Liles, who has had wide experience in public school work and who has been connected with Catawba College Summer School on numerous occasions, to assist Superintendent Schaff in the instruction. More instructors will depend wholly upon the number of students.

PETITION ASKING MESSENGER ROUTE BEING CIRCULATED

Present Mail Service Is Entirely Inadequate

1 MAIL EAST DAILY

Attempts to secure an additional mail service here were begun Tuesday with the circulation of a petition requesting postoffice authorities to make arrangements for an early outgoing mail to Winston-Salem via milk route.

Since the Southern Railway took off one of its trains a number of weeks ago Elkin has had only two incoming and outgoing mails each day. Under the new and inadequate schedule, this has meant that the local postoffice has had only one important outbound mail inasmuch as the other outgoing mail goes only to North Wilkesboro and towns en route.

As the matters now stand a letter mailed after four o'clock in the afternoon does not leave the postoffice until the following day at that time. It is then a matter of chance whether it reaches Winston-Salem in time to make mail connections due to the fact that the local train, of mixed variety, must need stop at each station enroute for the purpose of shifting freight.

Under the plan as outlined in the petition, which has been signed by a majority of the business firms here, all first class matter mailed up until 10 p. m. the previous night would leave Elkin the next morning at 5 o'clock, reaching Winston-Salem by 7 or 7:30 a. m., in ample time to connect with outgoing mails and would give Elkin a morning as well as afternoon mail service.

The mail would be carried on the Klondike Farm milk truck, the management of the farm having expressed willingness to co-operate in every way possible.
