Dr. and Mrs. Parks Honored At Dinner by Dr. and Mrs. Harrell One of the loveliest courtesies extended Dr. and Mrs. Hugh Parks since their marriage was the bridgedinner given by Dr. and Mrs. R. B. Harrell at their home on West Main street Saturday evening. Upon the arrival of the guests at 7:30 a beautifully appointed three course dinner was served from small tables in the living room. The guests were in-vited into the dining room for the dessert course, which was served from a charmingly decorated table, covered with a handsome lace cloth and centered with a formal miniature wedding scene. A background of evergreen was used for the altar, before which stood the bride and bridegroom dressed in formal attire, surrounded by members of the wedding party dressed in pastel shades The ices were decorated with individual corsages and the beautifully decorated cakes were iced in bridal green and white. Soft candlelight added to the effectiveness of the scene

Following the dinner bridge was played at three tables. Mrs. John Reich received the ladies' high score award, a box of dusting powder, and the gentlemen's high score prize, a deck of cards, fell to Dick Chatham Mrs. Parks was presented with Maderia tea napkins as guest of honor Guests were: Dr. and Mrs. Parks Mr. and Mrs. Edwin Harris, Mr. and Mrs. Thomas Roth, Mrs. Sam Davis of High Point, guest of Mrs. Harrell, Mrs. John W. Reich, of Washington, D. C., Miss Sarah Click, Gavin Dortch, John Sagar and Dick Chatham.

WORLD RECORD BROKEN!

T IS almost inconceivable that human ingenuity could b aild three that would withstand the terrific punishment of the 500-mil/, grind at Indianapolis, May 30.

'Round and 'round the blistering track they streaked, hour after hour, under the blazing sun . . . the low moan of powerful motors rose to a terrific roar as they hit the straightaways at 150 miles or better grinding, pulling, pounding around treacherous tire-destroying curves ster than they ever dared before. Sliding into the turns at these terrific eeds, there was nothing to hold the car to the track except the tire.

Mile after mile, lap after lap, greater and greater heat and increased centrifugal force developed to separate the tread from the body of the tire. Every conceivable force known was working to tear the tires to pieces—yet Firestone High Speed Tires, with Gum-Dipped High Stretch Cords, withstood this most gruelling test.

Thirty-three demons of speed—thirty-three cars equipped with stone High Speed Tires—all protected by Gum-Dipped High Stretch is—entered the Annual Speed Classic. Every tire was bought by the driver or owner of the car.

In all the heat-in all the grinding-in all the straining and pulling—not one cotton strand loosened—not one life was endangered by the failure—not one car was forced out of the race by tire trouble. Six of the winners finished without a tire change.

What a tribute to the Extra Strength-Safety and Durability built Trestone High Speed Tires. into Firesto

WHAT THIS MEANS TO YOU

The amazing record of Firestone dependability at Indianapolis was made possible by the Firestone patented process of Gum-Dipping. Every fiber of every cord in every ply of the tire is saturated and coated with pare liquid rubber; there are eight *extra* pounds of rubber to every 100 pounds of cotton cords.

There is greater adhesion between the plies of the Gum-Dipped **Cord body and** between the body and the tread. As a result of this patented process of Gum-Dipping Firestone engineers have been able to build a wider tread of flatter contour, with more and tougher rubber and deeper non-skid, giving you more than 50% longer non-skid
