CALL REICHSTAG TO HEAR HITLER EXPLAIN EVENTS

German Chancellor Orders Groups To Assemble Friday

PRESS IS SCORED

Berlin, July 10.—The 100 per cent nazi reichstag, inactive survivor of the republican days, was ordered today to assemble Friday evening for what is expected to provide a dramatic carry-over from the tension and confusion of the "second revolution."

From the lips of Adolf Hitler himself the reichstag, the German people and the world are likely to hear an explanation of the summary executions and other bloody events of June 30 and the days immediately following.

As if in preparation for this "authentic" explanation from the highest source in Germany, Propaganda Minister Joseph Goebbels in a speech this afternoon lambasted the foreign press for its reports of Hitler's "purge."

While Goebbels lashed out vigorously against numerous European newspapers, he made no charge of faking against any American paper or agency.

A large part of the foreign press, he said, "embarked upon a campaign of lies which in its maliciousness can be compared only with the campaign of atrocity tales that were set in the scene against Germany during the war."

The French, British and Russian newspapers especially received a bitter tongue lashing from the oratorical spokesman for nazism, who declared the German press sets an example of fair reporting, not only of events at home but of those abroad.

POOL ROOM CLOSED AND THEN OPENED

Three Commissioners Say They'll Vote To Kill Ordinance

Although closed by an ordinance of the town board of commissioners, which became effective last Tuesday morning, the Elkin pool room was re-opened late last Thursday when three members of the board signed a statement to the effect that they would vote to abolish the ordinance at the next meeting of the board.

The ordinance against the pool room was passed at the June 4th meeting of the board, but due to the fact that Andrew Greenwood, owner of the establishment, wished to present his side of the picture to the commissioners, the ordinance was held in abeyance until the last meeting of the commissioners on July 2. At that time a motion was made to rescind the ordinance, but it failed to get a second and the law stood.

The pool room closed the following morning, but re-opened the next day.

By actual measurement, the egg measures eight inches around the long way and seven inches around the small way. On top of that, it weighs one-fourth pound.

It is not known whether the hen plans to over produce in this manner throughout the summer, or is perhaps planning a vacation by getting all the egg out of her system in one supreme effort.

In case you'd like to see this egg, it's on display at The Tribune office. It's a good egg, too.
