Thousand Dollars Must Be Raised To Complete Local FERA Project

NEARLY 40 MEN ARE NOW EMPLOYED HERE ON ATHLETIC FIELD

\$5,000 Advanced By Government Must Go Solely For Labor

MATERIALS NEEDED

With a total of \$5,000 in FERA funds available here as salaries for the men working upon the Elkin school athletic field and community playground, and 34 men now having steady employment on the project, approximately \$1,000 is needed with which to purchase material for a grandstand and truck hire, it was learned Monday night following a meeting of citizens interested in the project.

The \$5,000 allocated for the project must be spent entirely for labor alone, and for that reason none of the money can go for the purchase of needed material. As a result the final success of the project depends entirely upon the generosity of public spirited citizens of the town.

The project, located on school property bordering the west side of Big Elkin creek, is one of the finest projects ever to be attempted here. It embraces a football and baseball field, a community playground, and a small public park complete with trees, grass and babbling brook. Upon completion it will be one of the biggest assets the community boasts.

But to complete the picture funds must be raised for materials.

The accident was said to have been unavoidable on the part of Mr. Brooks, the child having run into the highway directly in front of his machine. When hit, the little boy was said to have been drawn under the car and dragged approximately twenty steps.

The accident occurred on the Boonville-Yadkinville highway.

LATE NEWS from the State and Nation

MAYBE EMPTY STOMACHS CAN'T WAIT

Washington, Oct. 30.—A roar of protest rose from the Republican high command today as the Democratic administration, with the election a week off, poured \$135,000,000 of relief money into every state except Maine, which voted in September.

The Republican senatorial-congressional campaign committee, in a statement, asserted that "again the new deal administration convicts itself of the charge of using federal relief funds for political purposes and as a substitute for a campaign fund."

Washington, Oct. 30.—A high-voltage voter interest in next Tuesday's first nation-wide test of the new deal with 47,949,928 men and women qualifying themselves to vote, was shown today by an Associated Press compilation.

This figure, unusually high for an "off-year" battle, was indicated in a gathering of registrations and official and unofficial estimates of voting strength in all the states which ballot November 6.

RIOT IN DENVER

Denver, Oct. 30.—Fist-swinging men and women who shouted protests against curtailment of federal relief work rioted amidst bloodshed in Denver's streets today.

Dispersed once after a wild battle with police, the 300 agitators gathered again within the shadow of the Colorado capitol and scattered before swinging police sticks only after being exhorted to change from fists to bullets tomorrow.

RETAIL TRADE SHOWS BIG GAIN
