

Thru Capital Keyholes

By Bess Hinton Silver

NEW THREAT—Information emanating from Washington, D. C. indicates the certain candidacy of Congressman Lindsay C. Warren, of Washington, N. C., in opposition to Senator Josiah W. Bailey in 1936. While Senator Bailey has gone to the aid of President Roosevelt in recent weeks in a spectacular manner it is pointed out by Warren supporters that the primary of next spring "is just around the corner". Senator Bailey was said to have lost ground in his opposition to enactment of the Agricultural Adjustment Act, the Bankhead cotton control bill, the seed loan act, the St. Lawrence waterway act, the soldiers' bonus proposal, all except the last sponsored by President Roosevelt.

RECORD—Friends of Congressman Warren are pointing to his record on the foregoing legislation and say that his action meets with approval of all parties concerned. Unless something unforeseen happens it can now be safely said that Senator Bailey will face potent opposition next year and its better than an even bet that Congressman Warren will provide a substantial part of that opposition. Warren is known as a liberal and enjoys the reputation of being close to President Roosevelt and vice president John N. Garner.

CHANGED MINDS—Raleigh politicians are changing their minds about the intention of R. T. Fountain, former Lieutenant Governor, to run for the United States Senate in opposition to Senator J. W. Bailey and all comers next year. Fountain is a frequent visitor to legislative halls and can be seen often talking seriously with men who supported

him against Governor Ehringhaus in the primaries of three years ago. The opinion is that his earnestness bears out his statement that he will run next spring, no matter which way the wind blows.

PAROLES—A small war, conducted mostly under cover, is being waged at the office of State Parole Commissioner. Some of the wise boys have been taking notes and avow that many attorneys who have been disappointed in pleas for executive clemency are in the ranks of the campaigners against Edwin M. Gill, Parole Commissioner. Establishment of a parole board of several members would only affect recommendations, since the Governor is the only man who can sign releases from prison in this State.

TAXES—Don't get too excited about the proposal to levy a three per cent income tax on dividends from stocks in domestic corporations. It may not be done. Many of the legislators who voted for the proposal in committee did it simply to get the revenue bill out on the floor of the House. Privately they have announced intention of fighting, this tax on the floor of House and Senate. They call it double taxation but its proponents say it gets the folks who are really able to pay.

YOUR MONEY—It now appears reasonably certain the General Assembly is going to take \$1,650,000 of your gasoline money and spend it here, there and everywhere. It will be done by levying the three per cent sales tax on the money collected from auto license tags and gasoline taxes. The people paid it for roads but that doesn't appear to cut much ice with the boys who like the diversion idea. Now the counties are trying to get the State to return to them at once, money loaned for construction of roads faster than the highway program called for. The raid on the highway fund isn't over in this General Assembly by any means.

INVESTIGATION—The legislative probe into conditions which caused the loss of both feet to two Negro convicts in a camp near Charlotte revealed, among other things, that the legislature of 1933 appropriated an amount to the prison system that requires the employment of prison physicians, at less than \$50 per month, the doctor who has charge of the two camps involved in the probe testified that he received \$75 per month before he was suspended. Some folks say you can still expect to get the kind of penal system you are willing to pay for.

HOEY—Raleigh friends of Clyde R. Hoey, Shelby's potential Candidate for Governor next year, must know something. They say with confidence and without qualification that Mr. Hoey will announce his candidacy within a week or two. Nobody here doubts that Lieutenant Governor A. H. Graham has made up his mind to take on all comers in the primary. Reports about intentions of Congressman R. L. Doughton, reported to have the gubernatorial bee buzzing in his bonnet, are less definite but his friends are leveling off the ground in the event he decides to chase the elusive votes.

EHRINGHAUS—Friends of Governor Ehringhaus who want him to run for the Senate are not feeling so well after recent conferences. They say the Governor is lending only half an ear to their pleas that

he make the race. The General Assembly is occupying the executive's time and his Senatorial supporters fear that they may lose interest in the pictures they are painting for him. Ehringhaus has told them that he is more interested in making a record as Governor than in future political plans.

SALES TAX—Even opponents of the sales tax privately say they hold no hopes of repealing it at this session of the Legislature. But they are digging away, hoping to lay a foundation for its abolition at the next session, two years hence. Proposed taxes on dividends, soft drinks and higher levies on corporations are hailed by opponents of the sales tax a turn in the tide away from the retail levy.

DON'T LIKE IT—Folks who own a share or two of stock in power companies around Raleigh are beginning to take interest in the Rayburn bill in Congress which would give the federal power commission full authority in fixing electric light and power rates. The depression has caused a shrinkage in the value of stocks but owners express the opinion that federal regulation would be even worse. They remember that North Carolina has not benefited by federal regulation of railroad rates. Congressmen and Senators are receiving considerable mail on the subject these days.

LIQUOR—By the time you read this the State Senate may have voted on the Hill liquor bill but no matter what its fate in the Upper Branch is, it has little chance of passage through the House. However, persons in favor of legal liquor express the opinion that North Carolina will get around to modified control by the time the General Assembly meets again in 1937. The next two years is going to see some intensive work on the part of the wets and dries. The prohibition question has never been settled and there be some folks who say it never will.

LONG SLOWS UP BILL

While Donald Richberg was engaged in sounding a warning to the senate finance committee that delays and uncertainty over NRA legislation were slowing up trade and industry, the progress of the President's \$4,880,000,000 work relief bill was halted in the senate Friday by what was finally recognized as a filibuster, a one-man affair for which Senator Huey Long assumed responsibility.

Royster

FIELD TESTED TOBACCO FERTILIZERS

If a tobacco farmer expects to make money under the allotment plan, he must make quality tobacco. You can sell only so many pounds of tobacco, and that is why it must have the color, texture and weight that brings top prices on the warehouse floor.

Royster's Tobacco Fertilizer will give you the quality you want. Here is the proof:

On four acres where J. S. Lanier, of Rocky Mount, N. C., used Royster Tobacco Fertilizer the past season, he made and sold 1,068 pounds to the acre, for an average price of \$446.50 net per acre. Isn't this the kind of fertilizer you want under your tobacco?

For fifty years Royster has made a specialty of tobacco plant food, and more Royster Tobacco Fertilizer is used every year than any other brand. See your Royster agent and let him know how many tons you will need.
