The meeting was opened with the club song "With Joy We Meet", with Mrs. Cooper at the piano, followed by the club litany respectively. The roll was called by Miss Emma Comer in the absence of the secretary. Each member responded with mention of their favorite book. Minutes of the February meeting were read and approved. Reports were heard from the various departments and committees. Plans were discussed for a dinner to be given at the Club House on next Friday evening. Everybody is invited to come. Proceeds will be used by the club for various civic improvements. ## WHEN YOU TAKE A LAXATIVE

... use a spoon

It isn't what brand of laxative you take that's so important—it's the form. A liquid laxative can be taken in any required amount. If only a little is needed, you need never take a bit too much.

Doctors favor the easily measured liquid laxatives. Instead of any form that does not encourage variation from the fixed dose. A fixed dose may be an overdose for you—or your child.

Always remember this one thing about constipation: the secret of any real relief is reduced dosage.

Give the bowels only as much help as may be needed, and less help as the need grows less. You will find Dr. Caldwell's Syrup Pepsin an excellent aid in regulating the bowels. It contains senna and cascara (natural laxatives) and it will clear-up any bilious, sluggish condition without upset. Delightful taste, and pleasant action. Your druggist has it.
