A Future Debutante makes a pointed observation

THE SIGN OF Happy Motoring!

Stop at any of the 50,000 Esso dealers and stations, displaying the familiar Esso sign, if you're in doubt about the roads. Ask for a copy of "Esso Tours and Detours"—Esso Marketers official monthly publication containing authentic maps of current road construction; vacation information; touring data; etc. Individual road maps are also yours for the asking.

Parents . . . nowadays . . . are a problem, aren't they? Just take this matter of running the car.

Parents are just at that impressionable age when all these filling stations . . . with their bright pumps and luring claims . . . offer a constant temptation.

So I took my stand early. I insisted that my parents patronize only Esso dealers and stations. For Esso station products . . . backed by the world's leading petroleum

organization . . . are the proven best you can buy.

So, believe me, you don't catch my parents driving in anywhere except at a familiar Esso sign!

And that takes a big load off my mind when I'm not along to look after things. For I'm sure that they're in good hands when they stop at an Esso sign and will get all those little courtesies and services that assure "Happy Motoring."
