

RENEW HOME WORK IN SURRY COUNTY

Women's Clubs Formed By Home Demonstration Agent

Home demonstration work in Surry county is being carried on with renewed interest, after a lapse of a few years, according to reports from Miss Verna Stanton, home demonstration agent for this county and Stokes.

Women's clubs have been organized in the following communities, meeting at the stated times:

Stewart's Creek, first Tuesday in the month; Bryan, first Wednesday; Marsh, second Tuesday; Copeland, third Tuesday; White Plains, third Wednesday; Siloam, fourth Tuesday, and Salem Fork, fourth Wednesday.

These meetings have been well attended and officials hope that many more women will take advantage of this opportunity in their own community. Other groups may be organized if there is sufficient interest to demand them.

The subject for study for the next eight months is the "Planning and Preparation of Well-Balanced Meals from the Farm Food Supply." A different phase of the work is taken up each month, as follows:

November—School Lunch. Its planning and packing is as important a problem for the mother as the planning and preparation of the meals that are served at home.

Do You Ever Wonder

Whether the "Pain" Remedy You Use is SAFE?

Ask Your Doctor and Find Out

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about Genuine BAYER ASPIRIN.

He will tell you that before the discovery of Bayer Aspirin most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate Bayer Aspirin among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

You can get Genuine Bayer Aspirin at any drug store—simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this—and see that you get what you want.

Several 4-H clubs are being organized in the high schools throughout the county where there are no home economics departments. Interest is being aroused in learning to make clothes, as the major project for the year is clothing. Some of the minor projects will deal with work in foods and home improvement.

GLADE VALLEY TO OBSERVE BIRTHDAY

Will Be 25th Anniversary; Thanksgiving Home-Coming Day

Glade Valley school, Presbyterian institution near Sparta, is observing its twenty-fifth anniversary this year, and Thanksgiving Day, November 28, has been designated as Home Coming Day.

A program is being arranged in honor of the graduates and for their enjoyment. At 11 a. m. there will be a special Thanksgiving service, with the alumni in charge. At 2 p. m. there will be an assembly for the purpose of organizing the alumni after a program of speeches and music an election will be held and plans made for a permanent organization. The junior class of the school will present the traditional Thanksgiving play "Love's Magic" in the school auditorium at 8 o'clock. The play, a comedy-drama, by Lillian Mortimer, promises much entertainment.

Glade Valley was founded by A. T. Walker, of Greensboro, Rev. S. M. Rankin, also of Greensboro, was chairman of the committee appointed to select a site for the school and establish it. In the fall of 1910 it was incorporated under the laws of North Carolina and the following January it was formally opened. At that time there were only a very few high schools in this territory principally served by this Christian institution. During the past twenty-five years many other high schools have opened, but Glade Valley maintains her place in the list of the best.

The history of the school is like a story book. It was built by free offerings of Christian people, individually and collectively, many who could not give money, gave labor. The timber cut from the site selected was used for building and the cleared land as a farm for the school. Material and supplies had to be hauled from Elkin in wagons across the Blue Ridge, over the old mountain trail. Freezing weather, limited funds and hardships could not daunt the courage of these far-seeing and courageous builders who had caught a vision of the great need for the school and who, even then, could see the part it was later to play in the training of lives and moulding character. The investment is still paying rich dividends and the school is gloriously fulfilling the purpose for which it was built.

Coughs Go---

Often Overnight When You Take the Right Thing

But adults can't expect real results from the same sweet syrupy concoctions that you'd give to a child.

As a matter of fact, that powerful yet smooth, creamy creosote emulsion known to druggists as Bronchu-line Emulsion is not loved by children; it's a medicine for grown-ups, but it sure gives results and speedily, too. Get a bottle at Abernethy's Pharmacy tonight and put it to work at once—it strikes right at the source of the trouble—satisfaction guaranteed.
