Yadkin Child Is Struck By Truck

A. C. Dinkins, 10-year-old son of Mr. and Mrs. Bill Dinkins of the Forbush section of Yadkin county, and grandson of A. Dinkins, was seriously injured Tuesday afternoon about 3:30 o'clock in front of his home when he was struck by a small truck as he alighted from a school bus.

The little boy was taken to the Baptist Hospital at Winston-Salem. The attending physician said Tuesday night that he suffered a fractured left hip, broken right arm, broken right collar bone, and three fractured ribs. Although his injuries are considered serious, the attending physician reported the condition of the injured youth was "satisfactory" late last night.

According to reports, the Dinkins boy had just gotten off the bus when he was struck by a light truck said to have been operated by a Mr. Gregory of the Pea Ridge section of Wilkes county.

DUKE POWER CO. ANNOUNCES RATE CUT MARCH 1ST

Savings Will Be Divided Between Two Carolinas

\$529,000 ANNUALLY

The Duke Power Company Thursday announced rate adjustments effective March 1 which it said would save its customers in North Carolina and South Carolina \$529,000 a year.

In its announcement, company headquarters said the reduction had been approved by the rate control bodies of both states.

Of the total, \$479,000 is represented by cuts in electric power charges and the remaining \$50,000 is lowered gas tariffs.

Electric savings, it was stated, will

be divided as follows: Residential service, \$203,000, commercial lighting \$173,000 and retail power \$103,000.

Residential gas users are calculated to profit by \$22,000 annually and commercial gas consumers by \$28,000.

The residential rate will begin at 8 cents for the first 10 kilowatt hours, and will range down to 2 1-2 cents for each kwh over 100. For commercial users the base rate will be the same, but will range downward to 1.9 cents for all over 2,000 kwh consumed.

For retail electric power service the schedule calls for 4 cents per kwh for the first 50 kilowatt hours, and ranges downward to 1.2 for all over 350,000 kwh used.

For gas, the charge was announced as \$1.35 for the first 200 cubic feet or less, scaling down to six cents for 100 cubic feet for all above 500,000 cubic feet.

John Paul Lucas, a vice president of the Duke Power Company, said the readjustment would affect users of electricity and gas in all the territory served by the retail division of the company, which was formerly operated by its subsidiary, the

Southern Public Utilities Company, recently merged with the parent concern.

He explained that while the company did not refer to the changed schedules as a "reduction" but a readjustment of the rate structure, none of its customers would pay more than current rates.

The last previous downward adjustment of rates was put into effect late in 1934.

The reduction ranged from 5.4 to 20 per cent. it was said, depending upon the volume of electricity used.

The old commercial rate was: first ten kilowatt hours, 8 cents each; next 20, 6 1-2 cents each; next 100, five cents each; next 870, 4.5 cents each; all over 1,000, 1.9 cents.

The new commercial rate is: first ten kilowatt hours, 8 cents each; next 90, five cents each; next 300, 4.5 cents each; next 600, 3.5 cents each; next 1,000, 2.5 cents each, and all over 2,000, 1.9 cents each.

The old residential rate was: first ten kilowatt hours, 8 cents each; next 20, 6.5 cents; next 100, 5 cents; all over 130, 2.5 cents.

The new residential rate is: first ten kilowatt hours, 8 cents each; next 20, 5 cents; next 20, 4 cents;

next 50, 3 cents; all over 100, 2.5 cents.

Principal North Carolina towns affected by the readjustments are: Charlotte, Winston-Salem, Greensboro, Salisbury, Burlington, Hickory, Hendersonville, Reidsville, Thomasville, Mount Airy, Marion, Lenoir, Elkin, North Wilkesboro, Leaksville, Draper, Spray, Mooresville, Taylorsville, Madison, Bessemer City, Stoneville, Valdese, Mount Ulla, Troutman, Mocksville, Denton, Spencer, Belmont, Marshville, Wingate, Ellenboro, Graham.

Don't Guess But Know

Whether the "Pain" Remedy You Use is SAFE?

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about Genuine BAYER ASPIRIN.

He will tell you that before the discovery of Bayer Aspirin most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate Bayer Aspirin among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

You can get Genuine Bayer Aspirin at any drug store—simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this—and see that you get what you want.
