According to L. R. Hunter, representing the American Steam Pump Co. who closed the deal here Monday, the complete job will take about 45 days after delivery of the truck

Plans for the proposed and long sought gymnasium here appear to be exceptionally bright at the present time, it was learned Wednesday when the statement was made that the project stands as No. 1 on the WPA program for this section. Jim Rivers, director of the 13th

WPA district, whose office is located in Winston-Salem, has stated that plans for the gym are now in Washington, and he assured those here who are working in the interest of the building that it would be okeyed. Under the plan, the building will cost approximately \$6,000, 30 per cent of this money to be put up by the citizens of the town and the remainder to be furnished by the government. SOIL CONSERVING \$7.10 IN COUNTY

Acre Under 1936 Farm Program

YADKIN RATE \$7.30

The average rate of the soil-con serving payment in Surry county under the 1936 farm program has been fixed at \$7.10 per acre, according to Dean I. O. Schaub, of State College, Raleigh.

This rate applies to general soildepleting crops other than cotton, tobacco, and peanuts, the dean said, and will vary with individual farms.

The general rate for each county has been determined according to the average productivity of general soil-depleting crops on the farm is above or below the county average.

The general productivity of each farm will be based upon the average past yields of soil-depleting crops other than cotton, tobacco, and pea-

For tobacco and cotton the rate of payment has been fixed at five cents pound on the average tobacco and cotton yields of the farm. The rate for peanuts is 1 1-4 cents a pound.

The soil-conserving payment will be made for shifting land from soildepleting into soil-conserving crops this year.

A farmer who takes high productive land out of cash crops and puts it into soil-conserving crops is making a bigger sacrifice than the farmer whose land is low in productivi-

State and Nation McDONALD PROPOSES **ONE STATE PRIMARY**

Wants High Man To Win In Saturday's **Balloting**

Raleigh, May 31.—Dr. Ralph W. McDonald, one of the four Democratic candidates for governor, proposed today that the leader in the first primary June 6 be declared the nominee without a second primary July 4.

An immediate answer came from A. D. Folger, manager of the cam-paign of Sandy Graham, saying "the proposal is very interesting, particularly in its implications. It is evident that Dr. McDonald realizes that he faces certain defeat by Sandy Graham, and he desperately grasps at this last straw in the vain hope that he may be high man.

· The attitude of the other two candidates, Clyde R. Hoey and John A. McRae, was not given out mediately. As a matter of fact, Folger's reply to McDonald was given newspapers for immediate publication more than 24 hours before the original proposal was to be published. The McDonald proposal McRae's candidacy and called on the managers for Hoey and Graham "to make public their response to this proposal" which would "spare the voters the rigors of a second primary campaign and mean a considerable saving to the taxpayers." It added that Hoey and Graham forces were predicting their candidates would ead in the first primary and acceptance of the proposition would prove their confidence" in their po-

SURRY COURT TO CONVENE JULY 13

Jury List For Two Week's Term Drawn By Board

The July term of civil court will convene on Monday, July 13 at Dobson for the hearing of civil cases only, and will continue for weeks. John M. Oglesby will be the presiding judge, and a heavy docket is scheduled for trial.

Clerk of court, F. T. Lewellyn, stated recently that there are approximately 500 cases on the civil court calendar, some of which have been up for trial for 20 years or more. They await an action to throw them out of court. However, many other cases will come up for trial at the July term of civil court.
