Tally There Shows Small Democratic Lead for Majority of Candidates

F. D. R. LEADS TICKET

Surry county Democrats Tuesday registered a substantial majority of several thousand for all candidates in national, state and county balloting. President Roosevelt led the ticket by several hundred votes.

Although a number of Surry's 18 precincts returned Republican majorities, including Franklin, Long Hill and Westfield, Democratic candidates were swept into office with no trouble. Bryan township, considered to be a Republican stronghold, was on the Democratic side by a close margin, only one Republican candidate being given a majority. This candidate was Joe Dobson, candidate for register of deeds. His majority over Lawrence was one vote.

All available returns from Surry's election will be found in tabulated form located elsewhere in this issue. Complete figures are not available, nor are the returns shown official.

The county also favored Landon and Grissom, it was said, but figures to show how much have not been obtained.

In the county race the Republicans nominated a state senator, representative, sheriff, register of deeds, surveyor, coroner, and board of county commissioners by substantial majorities.

A tabulation of the Yadkin county vote by precincts appears elsewhere in this issue.
