BOMBS AND SHELLS ARE THROWN INTO MADRID BY REBELS

Heaviest Bombing Yet Shakes Streets of Capitol

ONE PLANE SHOT DOWN

Government Troops Claim to Have Pushed Back Insurgents Two Miles

PART OF CITY ON FIRE

Madrid, Nov. 10. — Fascist airplanes dumped 40 explosive and incendiary bombs on the defenders of Madrid today, rocking wide sections of the capital in the heaviest aerial bombardment the inhabitants have experienced.

Dozens of shells raked the capital.

Blasted from their narrow trenches time after time from big guns and airplanes, the ragged workers' armies clung to the capital's edges—even pushed back the besiegers from the gates and bridges.

Three giant bombers speeding low protected by 15 swift pursuit planes, roared over the city before dusk, then dived on government forces near the Toledo bridgehead.

Huge clouds of smoke and debris rose skyward as the successive detonations shook Madrid.

Again the planes dived, their machine-guns pouring lead on the shallow government trenches fringing the city.

One of the attacking planes was shot down, the government reported. A German pilot of another fascist bomber, officials said landed at Alcalá de Henares and surrendered to the government.

The trenches west of the city's gates were evacuated repeatedly during today's bombardment, but the militiamen swarmed back into them as soon as the planes sped away.

Government infantry, swept to within 500 yards of the Toledo gate and Angel bridge last night, said they had pushed back their attackers on the south a distance of two miles from the bridge.

LATENEWS from the State and Nation

RED CROSS ROLL CALL TO BEGIN

To Be Under Direction of Legion Auxiliary; Mrs. Bivins Chairman

DRIVE TO END NOV. 26

The annual Red Cross Roll Call will be held here, beginning Friday and continuing to Thanksgiving. The Roll Call this year, as well as last year will be under the direction of the Woman's Auxiliary of the George Gray Post of the American Legion, with Mrs. Joe Bivins acting as chairman. A concentrated drive will be made Friday of the business and residential sections of the town and a generous response is anticipated. In event that the solicitors do not contact all those desiring to make contributions, all donations may be sent to Mrs. Bivins.

During last year heavy demands were made on the Red Cross and the local chapter made a splendid showing in donations, giving a total of \$270.47 to flood relief in stricken areas. In addition to this, generous contributions were made to deserving local people, both in 1935 and 1936, fuel, clothing and medicines being the chief items for expenditures. Two classes in Home Expenditures were taught during the year, with Mrs. Harold Lewis, Red Cross Nurse, in charge of the classes. Certificates were awarded 12 members of the class and other awards are to be made.

The work of the Red Cross is far-reaching and worthy and all persons who can, are invited to participate in this humanitarian work. All donations are kept in the local chapter for work among the unfortunate in this community. A balance of \$111.27 was reported in the local treasury on July 1, 1936. With the coming winter season many calls will be made on the local chapter and it is hoped that the response to the Roll Call will be generous enough to enable the Red Cross to meet all worthy requests.

FIREMEN ARE NOT TO ANSWER CALLS BEYOND BOUNDARY

Instructed Not to Go Outside Corporate Limits

TO PROTECT JONESVILLE

Yadkin Town Agrees to Pay Elkin \$250.00 Annually For Fire Protection

ARE TO SUE FOR TAXES

The Elkin fire department will not be allowed to answer calls outside the corporate limits of Elkin and Jonesville, effective immediately, it was decided Monday night at a meeting of the Elkin board of commissioners.

The commissioners also reached an agreement with the Town of Jonesville whereby Jonesville will pay a yearly sum of \$250 for fire protection, this agreement to become effective January 1, 1937. Until that date, Elkin's fire department will continue to answer alarms in Jonesville without charge, as has been the custom during the past.

In confining the activity of the local firemen to Elkin and Jonesville alone, it was pointed out that it is not fair to Elkin taxpayers to use the expensive new equipment on calls from outside the town limits. It was stated that untold damage could occur should a fire break out locally while the truck was out on a call to some point outside the town limits. The cost of upkeep of the new truck, new hose and pay to firemen is paid by Elkin taxpayers alone, it was said, and those who live without the town limits should not expect free service by the department.

It was also pointed out that Jonesville, in agreeing to pay \$250 yearly for use of the Elkin fire department, is getting off light for protection. In addition to Elkin having to foot the bills for the new equipment, personnel etc., the water used in fighting Jonesville fires is also the property of Elkin, the hydrants there not being equipped with water meters.

At Monday night's meeting, the commissioners also instructed Dixie Graham, town tax collector, to turn over delinquent 1933-34 taxes to W. M. Allen, town attorney for collection. Mr. Allen has been instructed to sue for all tax on real estate, while Mr. Graham has instructions to garnishee wages for delinquent poll and personal property tax for the two years.
