## NEW BANK RULING POSTPONED TO MAY

### Would Prevent Banks From Absorbing Cost of Exchange on Checks

### PRESSURE IS BROUGHT

The Federal Reserve Board, of Washington, D. C., has postponed until May 1 the effective date of section 1 of regulation Q governing charges on out-of-town checks which heretofore have been absorbed by banks, but which under the regulation were to be passed on to the bank customer. This section was to have become effective February 1.

Chairman Stegall, of the House Banking and Currency Committee and Chairman Wagner, of the Senate Banking and Currency Committee, appealed to the Board to order the postponement in the interests of the banks, many State Commissioners having asked for relief from what several of them declared would be "intolerable conditions."

The Board states that, "after careful consideration, it had reached the conclusion that the law and the existence of certain banking practices required the adoption of this definition. But the Board feels that the request these two chairmen have now made should be granted in view of the fact that the Board has been informed that a number of members of Congress are giving consideration to the question of the advisability of amending the law under which the Board's regulation was issued, and desire additional time for that purpose."

## BREED IMPORTANT IN BABY CHICKS

### North Carolina Farmers Expected to Start 20,000,000 Chicks This Year

### ROCKS BEST FOR MEAT

North Carolina poultrymen are expected to start approximately 20,000,000 baby chicks this year, according to T. T. Brown, extension poultryman at State College.

Selecting the breed and variety is one of the important decisions which the grower must make. If he wishes to keep poultry for egg production, the grower will choose one of the lighter breeds such as Leghorns.

However, if he wishes to market his birds as meat, he will raise one of the heavier breeds, such as Barred Rocks. Then he can use utility birds, such as Rhode Island Reds, which are good for both egg production and meat.

In a broadcast on the Carolina Farm Features program Friday, January 29, Mr. Brown will give advice on the selection of breeds and varieties. Through this broadcast, he hopes to help growers determine the exact type of poultry which they would like to raise during 1937 if they are not satisfied with their present breed.

The schedule in full for the week of January 25-30 follows: Monday, L. I. Case, "Selling Market Lambs;" Tuesday, L. P. Watson, "Let's Grow Our Own Plants;" Wednesday, Robin M. Williams, "The Future of Farm Tenancy in North Carolina;" Thursday, Home Demonstration Department; Friday, T. T. Brown, "Selecting the Proper Breed and Variety of Poultry;" and Saturday, Forestry Department.

## The FAMILY DOCTOR

(By John Joseph Gaines, M. D.)

A neglected church, one that is occupied by worshippers only two or three times a week and remains closed the rest of the time, may become distinctly unsanitary, if its sexton is not alert for the welfare of his congregation.

I am not warning my readers to stay away from church — no, not that. An amusement resort may be ten times as malignant, where all sorts of respiratory diseases are present in all stages. But, the theater operator is, as a rule, pretty careful to keep his place in a sanitary condition. In constant operation the place is generally swept clean, and the air changed over and over again. I am sorry to say that rural houses of worship are seldom cared for as they should be.

The church where I attend regularly may be cited here, since I am fond of "honest confessions." Our sexton—a young man—makes his living from more remunerative work. The church gets him as cheap as possible, hardly more than five dollars a week. Our indoor nooks are always dusty, and the plunger in choir-rooms is laden with dust. The mop isn't known here; the moist cloth, if ever used, has not been discovered. Our sexton is the lowest paid official in the church service.

It ought to be otherwise. He should be qualified to do expert sanitary work, and should be paid for the work required of him. We pay an elder about \$80 a trip, to come around every three months and check us up morally and financially—about \$320 for the four annual visits. Our spare-time sexton would drop dead if he were to get one dollar for a harder hour's work!

Sometimes a cheap janitor or sexton costs more in health than the high-priced spiritual supervisor. Think it over.

Barbarians are care free. You see there are no Joneses to keep up with or any social snobs.

## SOCIETY

Only the immediate families of the contracting parties witnessed the ceremony.

Mr. and Mrs. Cooke will reside at the home of the bridegroom, at Swan Creek.
