

YADKINVILLE MAN HELD FOR KILLING

Was Driver of Truck on Wild Ride Through Winston

HITS CARS AND HOUSE

Lester Shipp, 41-year old Yadkinville negro, was held in jail at Winston-Salem Monday in default of a bond of \$5,000 after he was given a hearing in city court on a charge of manslaughter and driving intoxicated. The truck involved in the crash belonged to the Yadkin Lumber Co. and he had carried a load of lumber to market Saturday afternoon.

The following account of the wreck and killing of another negro was taken from the Winston-Salem Journal Sunday morning:

A large truck, driven, police said, at high speed, crashed into two parked automobiles at the Trade street-Northwest Boulevard intersection here last night and careened around a corner to strike and kill a Negro pedestrian.

The victim, Lee Jackson, about 45 years of age, was thrown 30 feet by the truck's impact, his body rolling beneath a Negro dwelling and down the embankment of a creek.

He was badly mutilated and was reported to have been instantly killed. An ambulance rushed the man to a hospital but physicians there declared he was already dead.

Lester Shipp, 41-year-old Negro of Yadkinville, who came here with a load of lumber, was arrested at the scene of the accident, occurring at 9:30 p. m., and last night was being held without bond on charges of manslaughter and driving drunk.

Officers said Shipp was driving the truck at high speed south on Trade street when it struck a parked car 65 feet from the intersection, careened out and in again to tear the front wheel from an automobile parked, 35 feet from the boulevard, on the opposite side of the street.

Shipp attempted to turn west into Northwest Boulevard and his truck struck Jackson. He remained at the scene until officers arrived to place him under arrest.

Police said he was intoxicated. The truck, owned by W. G. Wooten, of Yadkinville, and the two automobiles were not badly damaged. Officers said they were unable to obtain the name of the owner of the first vehicle struck but said the second car was owned by Sam Dismukes, a Negro.

WOULD MANUFACTURE OWN STEEL

Washington, Feb. 21.—Senator Nye, Republican, North Dakota, proposed today that the navy manufacture its own armorplate and munitions as a means of meeting the refusal of steel companies to bid on material for the nation's shipbuilding program.

The navy construction plan is seriously jeopardized, he declared, because the steel-makers do not want to comply with the Walsh-Healey act.

This law requires all bidders on large government contracts to meet certain wage and labor standards, including the 40-hour week.

A casual observation convinces us that entirely too many are seeking unemployment.

BOONVILLE MAN IS VICTIM OF ROBBER

Attacked As He Leaves Home of Friend At Winston By Negro

WANTED ONLY MONEY

Roy W. Reece, young Boonville man, was the victim of a highway robber about midnight Sunday night, as he was leaving the home of Mr. and Mrs. H. R. Spencer, just north of Winston-Salem, where he had been visiting.

Shortly before midnight a Negro accosted Mr. Reece as he was leaving the Spencer home, ordered him to turn his back and give up his money. Having gotten the pocketbook in his possession, the Negro walked across the highway and down Polo road, and, it is believed, disappeared into the woods.

The Negro was hidden in the shrubbery by the Spencer home when Mr. Reece came outside to get into his automobile. The Negro followed his victim to the car where Mr. Reece turned on the lights as a precaution. However, this did not deter the intruder. He explained that he did not intend to hurt anyone, that he simply wanted money.

Mr. Reece put up his hands and the Negro went through his pockets, taking his bill folder which contained a small amount of money and an automobile driver's license.

The robber was masked with a banana handkerchief from the nose downward, Mr. Reece stated.

Sheriff Ernie G. Shore and deputies were called to the scene as quickly as possible but some little delay was occasioned because of the fact that the officers were concentrating on a burglary about a mile away.

The FAMILY DOCTOR

(By John Joseph Gaines, M. D.)

SPEAKING OF TEETH

I doubt if anyone ever fully appreciates his or her teeth quite so much as when they have just been all extracted by the dentist. When the victim struggles through the agonizing days, trying to "break in" a set of artificial teeth, he remembers what a treasure he has lost in his natural teeth; if it were to do over again, he'd treat those native molars and incisors with a great deal more of respect than he did when he had them.

The modern advice as to care of the teeth is plenty voluminous; the ether-wave sizzles with the bray of the charlatan. The hawk-er merciless besets you with his sugar-coated nostrum, and wise columnists hand you theories, sophistries and "isms." Those and many more. Why should I add my bit? Well, common sense at this time may not be amiss.

There is no law on God's green earth that requires the obedience as to how often you should see your dentist, or how often a man or child should apply a nostrum to any part of the mouth, gums, teeth or throat. Just the simple, well-known admonition: Be clean, alert against any harmful practice—and consult your dentist at the first symptom of rebellion in the dental region. There is no minimum or maximum on your visits to the tooth doctor; go when you need his services, be it one, none, or twenty times a year.

Continual and senseless scrubbing of the teeth is highly capable of doing grave harm; many a case of pyorrhea has been set up by the use of septic tooth brushes; the enamel of your teeth was not put there as a field for exploitation by the swarm of nostrum-vendors that infest the land. Nature gave us about all we need in food-elements for keeping the teeth clean. Look for them and use them—and don't believe everything you hear.
