

NEWS FROM THE COUNTY CAPITAL

Dobson, April 26. — Court will convene again this morning with Judge Erwin presiding. It is said it will take the entire week to complete the state docket. There will be no capital cases tried, but some cases of importance will consume perhaps a day or two.

Mr. and Mrs. J. W. Comer, Miss Emma Comer, and Mr. and Mrs. J. H. Gentry returned Saturday from Durham, where they were in attendance upon the State teacher's meeting. Mr. and Mrs. Comer also visited friends in Raleigh.

Mrs. F. F. Riggs spent the week-end in Pilot Mountain with relatives.

A Bishop Crusade meeting was held in the Methodist church Friday evening commemorating the 89th anniversary of the first missionaries to China from the M. E. Church, South, 89 years ago.

The County Home Demonstration Club held a meeting in the school auditorium Wednesday afternoon, under the supervision of Miss Stanton, county agent. Miss Ruth Currant of Raleigh spoke to the Club. Miss Currant is state chairman and she brought a most helpful message to the organization.

The "Briar Hopper Boys" of Charlotte radio fame, played on last Monday evening to the largest crowd ever assembled in the school auditorium. The proceeds amounted to \$167.15. A large number were unable to get in because of lack of space. The program was enjoyed to the fullest extent.

Attorneys Buton and Tilley of Stewart, Va., attended court at Dobson last week.

The FAMILY DOCTOR

(By John Joseph Gaines, M. D.)

NEEDLESS TRAGEDY

About three years ago a housewife began to feel unable to perform her usual duties; she consulted a physician, who found a small tumor of the uterus. She was about 46. The doctor kept her under observation, saying "I can remove the thing any time, but will cure without operation, if possible."

He observed that the tumor grew rapidly, in spite of his palliative measures. The patient grew dissatisfied, and changed doctors. The new one paid no attention to the tumor, and said she had diabetes, placing her on a strict diet at once.

Not feeling any better as time went on, the patient had the "staff chemist" of a quack institution make a urinalysis; this self-styled "expert" discovered that the patient had Bright's disease! . . . Time went on—dragged on. Haemorrhages set in, which with the diet, greatly weakened the poor woman. A third doctor said it was "the change" and that "all women were troubled that way."

On advice from her second physician, she went to a hospital in the nearby city. Here she was subjected to a clinical diagnosis, and was told that it was not advisable to do anything radical at that time. She returned home and kept on dieting—and losing. She applied to me about one week ago at this writing. I found absolutely no diabetes or Bright's disease. A search for the source of the bleeding revealed cancer, involving nearly every organ within the pelvis, and long past the stage when operation could do more than hasten the end! She has no prospect of living over six months, if that long. . . .

Had this growth been removed PROMPTLY by the first physician—and he was capable—she might be well today; but the vitally precious interval has passed, and by neglect and utter ignorance of conditions.

Unless one knows that it is NOT a malignancy, it is better to operate than to take chances. Remember that.
