HEALTH NOTES

SURRY COUNTY HEALTH DEPARTMENT

RALPH J. SYKES, M. D., Health Officer

"CRIPPLE CLINICS"

The cripple clinic was established in Mount Airy in October, 1930 through the cooperation of the Kiwanis Club with the State Board of Health and the local Health Department. Dr. R. A. Moore, Orthopedic Surgeon, in Winston-Salem services were secured to hold this clinic. When the clinic was first established it was thought every other month would be sufficient to care for the needs of this section of the state. At that time the fourth Friday in the odd number months was chosen as the date. In May 1936, the Division for Crippled Children of the State Board of Health gave us permission to have a monthly clinic if Doctor Moore would consent to hold this clinic. He kindly consented to do this.

Since this clinic has been a monthly event with the local Health Department Dr. Moore has averaged 25 patients at each clinic. Eleven of these have been new patients and 14 have been old patients returning for check up.

Through this clinic there have been 24 or more children or young adults hospitalized in the last 14 months. We have received authorization to hospitalize 10 to 15 more than this number but the parents of the children would not consent to have their child operated on.

In the opinion of the local Health Department the Kiwanis Club could not finance or sponsor a more worth while work than this. Through their cooperation we have had many underprivileged children to go to the hospital, receive operations that were paid for by Social Security funds and return home to live a normal life.

There is still need of a hell while one human being must say to another: "Please don't hurt me."

AN IMPORTANT MESSAGE TO NORTH CAROLINIANS—No. 2

North Carolina is on PARADE

WITHOUT the blare of trumpets... minus gaudy trappings... yet with appealing interest, the Old North State is passing in review before the eyes of the Nation. Through carefully planned, intelligent advertising, its tourist attractions—industrial advantages and its agricultural appeal are being brought to the attention of millions of readers of magazines and newspapers—and tens of thousands will be attracted to North Carolina.

Let's be sure that when they do come, they will be favorably impressed. In the same degree that we display courtesy, friendliness and hospitality to guests within our own homes, let us greet and entertain visitors to our State from outside its borders. Let our Law Enforcement Officers go a step beyond mere duty in their treatment of the "stranger within our gates"... let our various communities conduct a permanent clean-up campaign, to the end that we may always be ready and proud to receive company. These things are but part of what every North Carolinian should gladly accept as OUR NEW RESPONSIBILITY.

Friendliness

A good bank has a lot of things for sale: convenience, and safety, and service, in many different ways. But it has some things that are not for sale. Friendliness is one of them. And by friendliness we mean courtesy, consideration and helpfulness in every transaction we make, big or little.
