

We Offer Our Continued Support
TO THE
**Hugh Chatham Memorial
Hospital**

AND EXTEND

CONGRATULATIONS

UPON THE DEDICATION OF THE

Modern New Addition!

The growth of the Hugh Chatham Memorial Hospital since its inauguration here over six years ago has given us genuine pleasure, and today, with the formal dedication of a modern new addition, we wish to extend hearty congratulations and voice an appreciation for the generous response on the part of our citizens as well as others throughout the state who have made possible this fine institution.

That the hospital is adequately filling a vital need goes without saying, and its enlargement will mean an added scope of service in its fight against sickness and disease.

Housed in a modern plant and competently staffed, Hugh Chatham Memorial Hospital is an institution of which we all may feel rightfully proud.

CHATHAM BLANKETS ARE USED THROUGHOUT THE ENTIRE HOSPITAL

We take genuine pride in the fact that Chatham blankets are used throughout the hospital. We're proud that they're used, not just because they are locally made, but because of the fact they meet every requirement to be expected in a fine blanket. Chatham blankets are known and used throughout the entire United States and the United States Government is itself a large user.
