JAPS INVADE SOUTH CHINA

Shanghai, May 11—(Wednesday) — Japanese naval forces have invaded South China for the first time in the 10-month-old war in an attack on Amoy, rich Fukien province port 150 miles west of the Japanese-occupied island of Formosa.

The new attack started early yesterday with airplane and warship bombardment and apparently was designed to draw a portion of Chinese central armies away from the stalemated central front.

Chinese announced today their forces had countered the southern invasion by repulsing Japanese on all other fronts of the widespread war zone.

GWYN IS SPEAKER AT KIWANIS MEET

Candidate for Judge in This District Speaks on "Youth of the Land"

TO ENTERTAIN SENIORS

Solicitor Allen H. Gwyn, of the 21st judicial district and a candidate for judge, was guest speaker at last Thursday evening's meeting of the Elkin Kiwanis club at Hotel Elkin.

Mr. Gwyn spoke on "Youth of the Land", stating that between eight and 10,000 men and boys had come before him during his three and one-half years' term as solicitor. In his opinion, he said, the average young man in court was not necessarily bad at heart, but was a victim of environment. Parents should take a greater interest in the rearing of their children, he stated, teaching them more thoroughly the difference between right and wrong at an early age.

H. P. Graham, program chairman, introduced Mr. Gwyn.

Frank Martin, of Asheville, was the guest of Kiwanian Hugh Royall. Dr. H. D. Hoskins was the guest of Dr. C. L. Haywood, and Dr. E. G. Click the guest of W. M. Allen.

At this evening's meeting of the club, the graduating classes of Elkin and Jonesville high schools will be the guests of the club. On May 19, the club will go to Winston-Salem for a meeting at noon. This meeting will take the place of the regular Thursday evening meeting.

COUNTY DECLINES PART IN DISEASE CONTROL PROGRAM

Lack of Funds Given As Reason

MEETING HELD MONDAY

Would Have to Match Fund in Drive for Venereal Disease Control

TO ADOPT SAME BUDGET

Lack of funds was given as the reason for Surry county's refusal to participate in the state board of health's venereal disease control program made possible by the Z. Smith Reynolds Foundation.

Such an announcement was made following a meeting of the Surry county commissioners, county board of health and Mt. Airy city commissioners at a meeting in Mount Airy Monday.

The state asks that each county match funds provided by the foundation to fight venereal diseases. Surry commissioners said the \$19,000 needed annually for social security prevents the county participating in any other program.

Surry county has a budget of \$10,981.37 for its health program. Of this amount, the county appropriates \$4,350; Mount Airy, \$1,848; Elkin, \$360; State board of health, \$1,320; United States Public Health Service, \$2,825 and small sums come from other sources.

The same budget will be adopted for the coming fiscal year, it was pointed out, with only minor changes.

Recently Dr. Carl V. Reynolds, state health officers and representatives of the state board of health, visited Surry and outlined the venereal control plan to the county commissioners.

Those attending the meeting Monday night held at the city hall in Mount Airy were: J. W. Lovell, of Mount Airy, county commissioner; W. J. Swanson, of Pilot Mountain, chairman, and M. Q. Snow, of Elkin, other two members of the board, were not present.

The county board of health was represented by John W. Comer, of Dobson, superintendent of Surry schools; Dr. Hugh Parks, of Elkin, and Dr. John L. Ashby, of Mount Airy.

Mayor John D. Thompson and the following members of the Mount Airy city council were present: J. W. Parker, W. L. Sydnor, D. M. Owen, T. E. Smith, Jr., and M. C. Fowler.

NEWLY BORN INFANT IS FOUND IN BARN

A tiny, black-haired infant girl, two hours old, was found wrapped in a fertilizer sack stuffed behind a chimney flue in a tobacco barn near Shoals Sunday.

The child was found after its cries had been heard by people passing.

Mrs. Maggie Beck, widowed mother of eight children, who lived nearby, admitted the baby was hers and that she hid it there, after first denying to Sheriff Harvey Boyd that she knew anything about the matter.

The tiny girl, turned over to its mother while officers pondered whether to bring charges against her, was little worse for its experience.

DEBATE IS OPENED ON RECOVERY BILL IN HOUSE TUESDAY

Foes Attack Act As Spending Orgy

EXPECT QUICK PASSAGE

Solons Are Not Expected to Change Form or Contents of Measure

MONEY IS EARMARKED

Washington, May 10—President Roosevelt's multi-billion-dollar recovery program started through the House today, praised by Democrats as a means of providing 5,000,000 jobs in the next fiscal year and sharply attacked by Republicans as a "wild spending orgy."

Passage in substantially its present form and without delay was assured when the appropriations committee earmarked the gigantic fund to placate anti-new deal Democrats who feared it might be used in reprisal against them at the polls in the November elections. Leaders hope to enact the bill the latter part of the week or the first of next.

As thrust before the lower chamber the measure calls for appropriations of \$2,519,425,000 and authorizations of \$635,000,000. Other provisions in the spending-lending program already approved or pending in Congress, will bring the total of the administration's latest campaign against the depression to \$5,041,425,000 instead of the \$4,512,000,000 originally estimated by the President.

Big Freeze Came On May 10 Away Back in 1906

The Tribune is indebted to Mrs. R. L. Hubbard for the following reprint from a paper dated May 10, 1919, regarding a freeze on May 10, 1906. According to Mrs. Hubbard, the cold wave affected the entire Piedmont section of North Carolina and the cold wave here was accompanied by snow flurries.

"Tomorrow is the thirteenth anniversary of a most important happening in this part of the country—the May freeze.

It was on the morning of the tenth day of May, 1906, that farmers awoke throughout all this part of North Carolina to find wheat and corn bitten to the ground, tobacco plants scorched and a chill in the air which was sufficiently keen to form considerable ice in exposed vessels of water.

Crops were not destroyed, but some had to be replanted and the crops generally that year were delayed considerably by the cold snap."
