### SEES LAW AS USELESS

Chester, Pa., June 7 — Attorney-General Cummings said today that interstate kidnapping has been broken up and that he is not in favor of a law that would forbid parents from paying ransom.

The two recent Florida and New York kidnappings were "local" crimes, the head of the Justice Department said in an interview before he received the honorary degree of doctor of laws at Pennsylvania Military College.

Of the suggested no-ransom law, the attorney-general said it "would be almost impossible to enforce and would do more harm than good. It would be of doubtful constitutionality."

The furnishings included a number of valuable paintings, the work of Mrs. Carter's mother, the late Mrs. Joyce Gwyn McBee, who was an artist of ability, and many antiques, heirlooms of the Gwyn family of Green Hill. ## Commissioners Here Favor Construction Municipal Building

### Winner

Allen H. Gwyn, of Reidsville, who was nominated for judge of the 21st judicial district in Saturday's balloting.

## AGREEMENT WITH WPA AUTHORIZED AT MONDAY MEET

Cost of Proposed Building About \$15,000

HOLD UP APPLICATION

Are Awaiting Action of Congress on Relief Bill; Building Needed

TAX RATE IS NAMED

The Elkin board of commissioners Monday evening voted to authorize the mayor and town treasurer to complete an agreement with the WPA for the construction here of a town municipal building to house city offices, jail, fire department, etc.

The one provision attached was that the town's proportion of the project not exceed \$7,500. Present plans call for a structure to cost in the neighborhood of \$15,000.

The new building would be located on the town-owned lot located at the intersection of East Market and Court streets, adjacent to the F-W Chevrolet Company building.

Although the commissioners have taken such action, it was deemed best to hold up filing application with the WPA for a few days until Congress passes the new relief bill, so it could be ascertained if, under the new bill, it will be possible to secure a higher proportion of materials than under the present set-up.

Under the present set-up, according to a Mr. Elferbe, WPA engineer, who was present at the meeting together with John Franklin, local architect, the WPA could furnish the labor, amounting to approximately \$7,000, and approximately \$1,300 in materials.

Erection of a municipal building here would give the town adequate office space and a new jail, which is badly needed. In the building, in addition to the fire department, would be stored the town's truck equipment. Various amounts of rent, now being paid to house town-owned equipment and municipal offices, would be saved by the building.

In addition to their action on the proposed municipal building, the commissioners also set the town tax rate at the tentative figure of \$1.50, the same as during the past year. An ordinance, a copy of which is located elsewhere in this issue, was also passed providing for a four and one-half-foot sidewalk on the west side of church street and continuing along North Bridge street to the entrance of Hospital Drive. A sidewalk from the highway to the hospital has already been completed.

Sig Holcomb, electrical inspector here for the past several years, was present at the meeting and handed in his resignation. Clyde Hall was appointed to succeed him.
