BLAME SLICK PAVEMENT

Three automobile wrecks, two happening in the same spot, resulted in serious injuries for two people Tuesday while a third escaped with minor scratches and brusies. Two of the accidents took place in Jonesville and the other in Boonville.

As a result of the crashes, each said to have been caused by slick pavement, Edwin "Buddy" Evans, 18, son of Mrs. M. R. Bailey, of Elkin, suffered a fractured spine while Walter Hodge, about 35, of Boonville, suffered several fractured ribs. The condition of both were said to be satisfactory Wednesday morning at Hugh Chatham Memorial hospital here. Thomas Harris, of Elkin, the other wreck victim, escaped with minor scratches and bruises.

The first accident to take place occurred about 2:00 a. m. Tuesday morning when young Harris' car skidded on highway 26 in Jonesville and rolled down a 50-foot embankment, landing bottom side up. Harris broke out a window glass with a hammer to make his escape from the car.

The second accident, in which Evans was hurt, took place at the

Government Authorities Return His Plane on Promise Not to Fly Back

SAID WENT WRONG WAY

Dublin, July 19-Irish government authorities, loudly cheering the "wrong direction" flight of Douglas G. Corrigan across the Atlantic, late today returned his flimsy-appearing \$900 plane to him after he promised not to attempt to fly back to New York.

The nine-year-old plane that carried the 31-year-old Californian from New York to Dublin on "bootleg" solo hop which he said was very boring was temporarily impounded by customs men at Baldonnel Airport after his jaunty remark that:

"Talk about a nine-year-old crate—why, she's good enough to fly around the world."

The remark led to the apprehension lest the devil-may-care aviator might sneak away on some other daring adventure, just as he left Floyd Bennett Field COURT IN LAST REUNION OF DIXON outside New York City early Sunday without Atlantic maps or navigating instruments and an announcement that he was on his way home to Los Angeles.

Release of the single-motor Curtiss-Robin plane — a mere baby carriage compared with other trans-Atlantic ones-was on instructions of the Irish government which said Corrigan's feat CALLED BEST TEACHER was "too creditable" for such technical bickerings.
