### PRISONERS TAKE FRENCH LEAVE

Assigned to Work at the Surry County Farm, Three Men Make Departure

### SERVING SHORT TERMS

Perhaps figuring that the sun was too hot, and that from 30 to 60 days in jail, assigned to work at the Surry county farm, was too big a price to pay for merely getting drunk, three prisoners, one a member of the Dobson CCC camp, took French leave from the county farm Tuesday morning.

No trace had been found of the men, Surry County Jailer L. C. Castle told a Tribune reporter Wednesday morning.

The prisoners who walked off without even so much as a goodbye, were John Thomas, 28, and Everett Odell, 25, both of Mount Airy, and James B. Baker, 20, of Statesville. Baker was a member of the Surry CCC camp, having been arrested in Mount Airy for drunkenness.

Prisoners of this type, who usually wind up in jail for short sentences because they do not have the money for fine and costs, are worked at the county farm without attendance of an armed guard, Jailer Castle said. He said he expected to have them back in another day or so.

## FAMOUS PILOT IS KILLED AS PLANE HITS POWER LINE

Commander Frank 'Hawks' Plane Burns

### A NOTED SPEED FLIER

J. H. Campbell, Passenger in Plane, Also Meets Death in Mishap

### PILOTING SMALL PLANE

East Aurora, N. Y., Aug. 23.—Commander Frank Hawks and a socialite companion were killed tonight in a flaming plane crash less than a year after Hawks gave up the speed flying which made him famous and took up "safety and comfort" flying.

Hawks, who for years escaped death in daring speed exploits, lost his life in the crash of a small safety plane which he had said he would rather fly than any other.

He died in a hospital in Buffalo, 15 miles away, soon after he had been dragged from the burning wreckage of his ship.

J. Hazard Campbell, of East Aurora, a stock broker who was taking a demonstration ride in the plane, died in the same hospital from injuries later tonight. Campbell was a brother-in-law of Seymour Knox, internationally known polo star.

The "Gwinn Aircar" in which the two men were flying tripped across a group of electric and telephone wires and plunged into a field a short distance from this village.

A few minutes before they had taken off from an estate nearby, a friend had handed Hawks a four-leaf clover with a wish of "good luck."

Horried farmers in the area pulled the two men from their burning craft but Hawks died a few hours later in a Buffalo hospital. The Aircar burned to a mass of twisted wreckage.

A fire extinguisher in the plane exploded adding to the danger to those seeking to aid the two men.

## CLYDE HEMRIC IS FATALLY HURT AS CAR LEAVES ROAD

Had 100 Gallons of Liquor Aboard

### FAILS TO MAKE CURVE

Fast Coupe Crashes Down 15-Foot Embankment to Land in Cornfield

### WAS IN OTHER WRECK

Clyde Hemric, 25, of Roaring River, died in the hospital here Tuesday morning about 6:00 o'clock from injuries sustained Sunday evening shortly before dark when his fast coupe, loaded with 100 gallons of contraband whisky, failed to make a curve on the Elkin-Dobson highway, and crashed over a 15-foot fill to land a mass of wreckage in the cornfield below. The accident took place about five miles east of Elkin.

Rushed to the local hospital by ambulance, Hemric was found to have suffered a fracture at the base of his skull, spinal injuries, broken ribs and internal injuries. Although no one witnessed the wreck, it was apparent that the young man was driving at a terrific rate of speed, and was unable to round the curve. The car turned over several times, cutting a large swath through the corn, and came to a standstill upon its side. Hemric was thrown out of the car and was found lying several feet away. He was unconscious.

J. P. Curtis, Elkin business man, was the first at the scene, and called the ambulance. Patrolman Lee Phillips, of Elkin, was also notified and quickly reached the wreck. He said he had been expecting Hemric to come through with a load of liquor and had been watching for him all afternoon. Patrolman Phillips had come home for supper when the liquor car passed through.

Twenty five-gallon cans of whisky were found packed in the back of Hemric's car. The whisky was poured out at the scene.

It was reported that a small child was with Hemric when he passed through Elkin, and a search of the wreckage and the cornfield was made. Later at the hospital here the young man was reported to have told attendants, in a brief moment of consciousness, that the child had been left with relatives.

Hemric will be remembered as the driver of the car which crashed into a car on the highway a short distance west of Brook's Cross Roads in November, 1933, killing two people and putting five others in the hospital. His car at that time was loaded with 75 gallons of whisky. Not badly injured himself, he was sentenced to 27 months in prison.

The persons killed in this wreck, which occurred at night, were Mrs. Frank Pinnix, 65, of Brook's Cross Roads, and C. W. Allred, 23, of Winston-Salem. The accident took place when the Pinnix car was said to have pulled into the highway from a side road, directly in the path of the liquor car.

Hemric was the son of Mr. and Mrs. George Hemric, of the Windy Gap section of Wilkes. He was married twice, first to Miss Ruby Joyner, and second to a Miss Mathis, who, with his parents and several brothers and sisters, survive.

The body was removed to Wilkes county for burial.

## Tribune To Present Second Motion Picture Cooking School Sept. 5-6

—Going to school in a theatre! It sounds a bit strange, doesn't it? But that is what women of the community will be doing when The Elkin Tribune Motion Picture Cooking School comes to town on Monday, September 5th.

There will be real lessons, too, lessons in measuring, mixing and blending the ingredients for many recipes; in the preparation of such triumphs as a lattice-top fruit-pie; in making delicious frozen desserts and salads; in laundering fine fabrics; and in planning healthful meals for growing children.

The camera has assembled all the expert information of trained home economists—not as a routine lecture, not as a formal "highbrow" demonstration, but as a real romance of home making, full of suspense and charm, and informal chats from one-good-cook-to-another.

There will be remarkable close-

ups of each process in a series of model, conveniently - equipped kitchens, (not the synthetic, false-front variety), where trained home-makers will plan and complete the preparation of several meals so the entire audience can see the process step by step.

The finished dishes, which will be shown in full color, will look as though they could be picked right out of the picture and eaten on the spot.

The class won't be all work, for there is the constant play of sparkling humor, the appeal of tender romance, the suspense of a coherent, intelligently-directed story, which dramatizes everyday happenings—the human sort of things that really do happen.

Binding the attractive story together is the romance of home-making, a subject that holds the interest of every woman, young and old. Even The Elkin Tribune knows that all women—brides,

business types, and experienced housekeepers—respond to the fascination of looking in on another woman when she is at work in the kitchen.

Particularly do they like it when they are allowed to sit quietly and watch her prepare some dish in which she specializes. They know that if they watch closely, while she measures and mixes and completes the entire cooking operation, this close-up personal study will be more helpful than hours of ready recipes or blind experimenting.

The motion picture camera was leisurely, completely unhurried and painstakingly accurate in recording "Star in My Kitchen." There is no trickery in the cooking, baking, and preparation of appetizing ice-box wonders. Competent cooks who have drifted into bad habits will be able to
