## Please Check Your Label

On December 1st The Tribune will be forced to discontinue all subscriptions not showing a date of December 1, 1938, or in advance of that time. Please check your label. The first figures show the month and the last the year to which you are paid, according to our records.

We have not corrected our list for the last week of the campaign, so if you have paid during that week, credit does not show on your label, but be sure you are paid to December 1, 1938, or in advance of that time, otherwise we will be forced to discontinue your paper.

We do not wish to stop the paper of a single subscriber who wants the paper and is willing to pay for it, so if you cannot pay at this time, please come in and make arrangements to have your paper continued, otherwise this will probably be the last issue you will receive, if your label shows a date back of December, 1938, and you have not made a payment during the last week of the campaign.

## FLUE-CURED QUOTA FOR 1939 IS SET BY SEC'Y WALLACE

National Quota Is Fixed at 754,000,000 Pounds

VOTE MUST BE TAKEN

To Ballot on Approval of Restrictions on December 10; Urge All to Vote

NEED 2-3 MAJORITY

Washington, Nov. 22.—Secretary Wallace today fixed the 1939 national marketing quota for flue-cured tobacco—the total amount producers may sell free from penalty next year if they approve its imposition—at 754,000,000 pounds.

Growers of this type of tobacco, produced in Virginia, North Carolina, South Carolina, Georgia, Florida and Alabama, will vote December 10 on whether they want the marketing restriction in effect next year under provisions of the 1938 farm law.

A two-thirds majority in favor of the quota is required. The election will be conducted through secret ballots.

Secretary Wallace pointed out every farmer who grew flue-cured tobacco this year was eligible to vote.

Officials said "every effort is being made" to break the national figure into state and individual farm quotas prior to the referendum.

"It is not expected that the quotas will be completely satisfactory to all farmers," Wallace said in a statement, "because many growers desire to expand their production as a result of the favorable tobacco prices in recent years."

"However, co-operation by farmers in the tobacco programs clearly accounts for a large part of the difference between favorable prices for their recent crops and disastrously low prices such as those existing prior to the beginning of the (original AAA) program in 1933."

The 1939 quota compared with a national sales allotment of 748,079,000 pounds in effect this year as a result of a favorable referendum, when all flue-cured tobacco sold by farmers in excess of their individual quotas was subject to a penalty tax.

## EXTERMINATION OF JEWS IS PREDICTED BY GERMAN PAPER

United States, Britain Are Called Upon

BRITAIN GETS WARNING

U. S. Note Received in Berlin Asking Protection for American Jews

PLAN NEW OUTRAGES

Berlin, Nov. 22.—Das Schwarz Korps, organ of the elite Nazi storm troops, tonight predicted the "actually fatal extermination" of Jews who persist in remaining in Germany and called upon the United States and Great Britain to save them from destruction.

The storm troop organ, explaining that Jews must be driven into virtual ghettos "where they will have the least possible contact with Germans," said:

"When this stage is reached we would be faced with the hard necessity of exterminating the Jewish underworld by methods which we, in our orderly state, always use in dealing with criminals, namely, fire and sword."

Das Schwarz Korps urged the democracies to make a positive contribution to the solution of the fate of Germany's 700,000 Jews.

"Only the creation of a Jew state outside Germany can save the German Jews from the destruction otherwise threatening them," it said.

"The United States and the British empire are large enough to give room somewhere to the 20,000,000 Jews said to exist."

The organ denied that the Jewish faith had anything to do

Washington, Nov. 22.—Secretary of State Hull and the German ambassador, Hans Dieckhoff, said their farewells so tersely today that they are believed to have set a record for diplomatic brevity.

The government, supervising rescue work, late today had accounted for 75 bodies. Many persons were missing and one estimate was that 150 had been killed.

An area of 64 square miles was ordered evacuated as a precautionary measure as slides continued this afternoon.

### TOSS CHARGES OF ILLEGAL VOTING

Raleigh, Nov. 21 — Democrats and Republicans today tossed charges of illegal and fraudulent voting, as the state board of elections began a probe of alleged misconduct in the general election of November 8.

The charges revolved mainly about alleged misuse of absentee ballots, but attorneys for some of the defeated candidates asserted that votes were openly purchased and that drunkenness, violence and gunfire on election day terrified poll holders in some precincts, preventing a true count of returns.

## Everyone Urged To Buy Christmas Seals for Health

At the approach of the holiday season gaily decorated packages are the rule. Let every one of these, also cards and letters, both business and personal, be made a messenger of your interest in public health with Christmas Seals. These seals fight tuberculosis, which is preventable, and also curable. Christmas seal funds are used for the education of those who need it along these lines. They also pay for the demonstration of scientific methods which aim towards eradication of this dread disease which now may invade any home, also for milk, cod liver oil, etc., for undernourished children.

The Christmas seal sale here this year will be held on December 1, according to Mrs. E. F. McNeer, who is in charge of the work which is sponsored by the Elkin Woman's Club, through the Garden Department of the club.

Buy the seals and use them generously.
