

WPA Is To Operate Lunchrooms In Co.

Children Will Have Access to Hot Lunches During the Coming 1940-41 Season. Fifteen Such Projects Will Be Operated in Surry

The children of 15 Surry schools will have access to hot lunches during the coming 1940-41 season in lunchrooms, which will be operated under the auspices of the women's professional and service division of the works progress administration.

This was revealed by Mrs. Lillie Mae Nance, supervisor of the WPA's gardening, canning and lunchroom project in Surry county, a project which has done an exceptionally fine job for the past four years.

There were 11 WPA lunchrooms in operation last year, these being at the high schools at Copeland, Stokes, Pilot Mountain, Flat Rock, Franklin, White Plains, Beulah and Mountain Park, and at the elementary schools in Elkin and Siloam and

at Mount Airy's North Main Street school.

One other lunchroom was operated by the NYA at Dobson.

Four new lunchrooms have been built this summer and will be in operation during the coming year. These new rooms are located at Westfield High School, Lowgap High School and in the Rockford Street and Bannertown Elementary schools in Mount Airy.

These 15 lunchrooms will employ more than 40 workers, each of whom must have health certificates before they can work, and all are required to wear head bands, hair nets, uniforms and aprons at all times.

The work of the county-wide gardening, canning and lunchroom project, which is carried out under the sponsorship of the

North Carolina department of public instruction and the Surry county board of education, has drawn excellent cooperation from all agencies. Mrs. Nance, in discussing the work of the project, paid particular tribute to Miss Katherine Bowen, of Winston-Salem, district supervisor, and to M. S. Witherington, Surry county WPA construction supervisor, for their fine cooperation.

The project cares for both production and dispensing of the food to the school children, since there are school gardens scattered all over the county, where large quantities of food have been produced this summer by WPA workers. This food is then canned by WPA workers and used in the various lunchrooms.

Thus far during the summer over 3,000 quarts of vegetables have been canned and 4,946 pounds of vegetables have been dried for the coming winter. This fall other vegetables, such as turnips, collards, beets and carrots, will be planted and used directly from the gardens.

From these gardens the food will be carried to the various lunchrooms, where it will be dispensed. Last year the lunchrooms served 36,000 meals per month, with more than 15,000 being served free to underprivileged children. Other children were served at a moderate cost of five cents per item, with no distinction made between the paying children and the underprivileged ones.

RESEARCH

While there has been a steady growth in both personnel and funds spent by federal and state governments for agricultural research, the annual expenditure now is less than \$45,000,000 for the United States.

Davenport's Hold Reunion Sunday At Rockford

Davenport relatives and friends met for the eighth annual reunion Sunday, held at the old homestead of the late E. C. Davenport now owned by the granddaughter and her husband, Mr. and Mrs. Everett McCormick, of Rockford. The homeplace is located about two miles northwest of Rockford.

The inconvenience of traveling caused by the bridges being washed out in the recent flood held a number of friends and relatives away although there was a tremendous gain over last year's attendance, there being 83 this year compared to 56 last year.

Among the friends were four stars of WSJS radio station, Elizabeth Baumgardner, soprano, who greeted the crowd with the song, "Life's Railway to Heaven," accompanied by Eddie Carlos, guitarist. Then the Grubb Sisters, Edith and Katherine, sang "In the Garden," also accompanied by Eddie Carlos.

Next on the program was the election of new officers. W. Y. Davenport was elected president, Ollie L. Clark, secretary, and Warren Davenport, treasurer.

The principal speakers of the day were W. Y. Davenport, of Pilot Mountain, who gave the history of the Davenport family, and Rev. McClamrock, of Dobson, pastor of Rockford Methodist church, who made an impressive talk on "Friendship," and offered prayer. After prayer the friends and relatives gathered around the table which had been set and enjoyed a bountiful feast and renewed old friendships.

After lunch the crowd assembled to be entertained by the WSJS stars who rendered delightful music and songs.

Huge Improvement in Gulf Gasolines

To measure the quality of a gasoline, no hocus-pocus is needed.

There is a scientific test that shows the comparative anti-knock value of any motor fuel.

The shorter figure above represents the former "mark" in that test of GOOD GULF. But look at the second figure! It shows precisely how much the NEW GOOD GULF has been stepped up—a step up so great that this great gasoline now surpasses North Carolina specifications for premium fuels. Try Good Gulf and see what a difference it makes in your car.

Above, at left, is the pre-improvement "mark" of GULF NO-NOX—for years one of America's best premium gasolines.

But hang on to that hat again as you look at the other figure! It shows how much GULF NO-NOX has been lifted over its old high—a high that by far exceeds North Carolina specifications for premium fuels. And when you consider that the old NO-NOX was knockproof under all normal driving conditions, you will marvel at the performance this new gas gives.

Introduce your car to Gulf No-Nox today at the Sign of the Gulf Orange Disc.
