WAR NEWS IN BRIEF

NATIONAL

WASHINGTON, June 13. — President Roosevelt said today that Gen. Dwight D. Eisenhower, supreme allied commander in Europe, has reported to him that "other" openings will be made in Hitler's European fortress and that "the Nazis will be forced to fight throughout the perimeter of their stronghold." The Eisenhower report also described the progress of the fighting in France as "satisfactory" to date, but said that in magnitude the battle "is but a mere beginning to the tremendous struggles that must follow before final victory is achieved."

INTERNATIONAL

LONDON, Wednesday, June 14. — The Nazi-controlled Vichy radio quoted a Berlin military spokesman today as saying that important allied shipping movements had been observed in the Gulf of Gascony, in the Bay of Biscay near the Spanish frontier, in the last few hours. A region of flat, sandy beaches, the Gulf of Gascony lies in the Biarritz region of France's west shore some 400 miles south of the Normandy beachhead. It is too early to say whether the shipping movement is a feint or a prelude to a new invasion, the German spokesman was quoted.

MOSCOW, June 13. — Marshal Joseph Stalin hailed the allied invasion as a masterful achievement and said that "the large forcing of the channel and the mass landing of troops of the allies on northern France have fully succeeded." Stalin's first public declaration on the invasion was made in a statement to a correspondent of Pravda, official organ of the central committee. Emphatically voicing his approval of the allied assault in the west, the leader of the soviet union declared that "the history of wars does not know such an undertaking so broad, in conception so grandiose, and in execution so masterly."

ALLIED HEADQUARTERS, Southwest Pacific, Wednesday, June 14.—Allied aircraft sank seven and possibly eight Japanese vessels in Geelvink bay Monday in new blows against enemy shipping off Dutch New Guinea, while American planes began using the captured Morker airfield on Biak Island to support the Sixth army drive on other nearby airdromes, it was announced today. Far-ranging Liberators under Gen. Douglas MacArthur's command continued to strike at the main bases of Japan's Caroline Islands defense ring Sunday, blasting Truk atol for the seventh consecutive day, and hitting Palau for the fourth consecutive day in two attacks.

LONDON, Wednesday, June 14.—The spearhead of the red army's northward drive into Finland plunged to within 30 miles of the important port of Viipuri during fierce fighting Tuesday, Moscow reported early today, and enemy broadcasts said Russia's whole northern front from the Arctic to the White sea and Gulf of Finland was blazing into action. Finnish and German radio reports said the Russians were attacking in the Lisa sector between Murmansk and Petsamo and that there was strong reconnaissance activity in the Kandalaksha and Loukh sectors some 250 miles

OFFICERS KILL ONE, SERIOUSLY HURT ANOTHER

Henry Newman and Conrad Bell Surprised In Robbery

NEWMAN FATALLY HIT

Were Said To Be In Act of Removing Sugar From Yadkinville Store

FUNERAL WEDNESDAY

Henry Grady Newman, 29, was instantly killed and Conrad Bell, 28, was seriously wounded by Yadkin officers about 2:30 Monday morning when they were surprised in an attempt to rob the Yadkin Grocery Co., wholesale, of hundreds of pounds of sugar.

Newman was shot by Deputy Sheriff W. E. Wishon as he fled after being placed under arrest by Sheriff A. L. Inscore at the scene of the crime. Bell, who fled in the opposite direction was shot by Ray Graham, son-in-law of Sheriff Inscore, now in the civil service department of the government at Washington, who was visiting in Sheriff Inscore's home when he was notified the robbery was in progress. Wishon fired five shots at the fleeing prisoner before he fell, but only one shot took effect. The ball entered the right side just above the hip and ranged through the body, coming out on the left side of the abdomen. Physicians state that internal bleeding caused death so quickly. The bullet from Graham's gun struck Bell just slightly lower but almost at the same place and ranged downward, striking the pelvis bone and going downward, lodging in the leg.

Newman, the dead man is a native of upper Yadkin county, but claimed Roaring River as his home, as does Bell. Newman has served various road sentences and it was reported here that he had recently finished a term in federal prison. He has served terms at the Yadkin prison camp; one in Iredell county for robbing a store near Harmony; a term in Alexander county for robbery. He one time posed as an officer and seized loads of liquor and sold it, commonly called hi-jacking. He

YANKS TAKE CARENTAN

Radio Vichy Reports "Important Allied Shipping" In Bay of Biscay

REPORT NOT CONFIRMED

Allied Supreme Headquarters, London, June 14. — Allied tanks and infantry broke through the center of the German line today and captured Caumont and Villers Bocage in a sudden thrust 20 miles inland that outflanked and imperiled the enemy strongholds of St. Lo, Tilly-sur-Seulles and Coen.

German counterattacks — the most violent yet hurled against the beachhead — that penetrated American-held Montebourg and Carentan and threatened the British hold on Troarn, 5 miles east of Caen, were being "held or broken up," Allied headquarters announced.

Montebourg, 14 miles southeast of Cherbourg, changed hands at least three times in fierce fighting during the past 24 hours, a spokesman said, but Carentan definitely was in American hands.

Radio Vichy broadcast a report that "important Allied shipping movements" had been observed in the Bay of Biscay near the Franco-Spanish border, but added that "it is too early to say whether this is a feint or a prelude to an attack."

The broadcast followed release of a message from Gen. Dwight D. Eisenhower, Supreme Allied Invasion Commander, to President Roosevelt promising that he would blast other "openings" in Hitler's European fortress.

Lieut. Gen. Kurt Dittmar, German Army commentator, also warned in a broadcast over radio Berlin that Germany must "expect other large scale landings," since the forces so far landed in Normandy constituted "only part of the huge troops concentrated on the British Isles."

The surprise Allied thrust between St. Lo and Caen was disclosed in Eisenhower's 17th communique of the invasion.

Armored forces struck south against the enemy's flank west of embattled Tilly-sur-Seulles "with great effect" and reached Caumont, 13 miles east southeast of St. Lo and 20 miles southwest of Caen, despite "vigorous reaction on the part of the enemy," the communique said.

SET USED CAR PRICE CEILING

Inflated Prices Which Have Been Charged For Months Said Ridiculous

PENALTIES PROVIDED

Charlotte, June 13.—"The news that was received over the press wires Saturday, announcing ceiling prices on used cars, was received in this district office with no surprise," said L. W. Driscoll, district director of the Western North Carolina District of the Office of Price Administration.

"Any one," added Mr. Driscoll, "who is familiar with the used car market today, realizes that the inflated prices which have been charged for months are perfectly ridiculous and, in good many instances, people have paid more than the price of a new car for an old jalopy that, in normal times, they would not have even considered. Since no cars have been manufactured during the war, the supply of new cars for civilian use is at an all-time low, only 47,000 as of May 1 in the entire United States to be exact. This has automatically created a
