

THE PLANES STILL TAKE OFF FOR TOKYO!

The greatest tribute we can pay our fighting men in this glad hour is to continue to back them all the way in the deadly fight that still remains against Japan! We can buy more Bonds, stick to our War Jobs and otherwise carry on in full support of the war effort until final Victory comes! For until Japan falls, there can be no Peace for any of us.

The Fighting In Europe Is Over But The War Still Goes On!

Today we are thrilled and thankful that the news of Victory in Europe has at last come, and like all Americans everywhere we honor the brave men whose bravery on the fighting fronts made that Victory possible. But we are sobered to think that elsewhere in the world — in the Pacific — the war still goes on! Men still fight. . . are wounded. . . die. And until that fight has last ended in total Victory, all of us must continue to do our full part on the home front!

Russians Took Reich Capital 185 Years Ago

(By The Associated Press)
The last time Russia took Berlin was 185 years ago. They took it from Frederick the Great, the French-speaking autocrat who brought the Prussian military tradition into first flower. They did it with ill-trained and poorly led troops but held it only three days. Three years before the Russians barged in, a flying detachment of 4,000 Austrian cavalry under command of daring General Haddick razed a Berlin suburb and forced the capital, under threat of similar treatment to pay ransom. Within 12 hours Haddick wheeled his troops and was gone before the Prussians discovered the meager size of his forces. Gustavious Adolphus, the Swedish soldier of the Cross, was in Berlin in 1631. Napoleon swept in from the west in 1806 and exacted heavy levies to fill his empire war chest.

REMEMBER PEARL HARBOR!

Honor and Glory to Our Fighting Heroes

These are the men who loaded the guns and manned the tanks and piloted the planes which won the war against Hitlerism. These are the men who lay wounded on battlefields waiting for blood plasma and stretcher bearers. Men who, torpedoed at sea, stayed alive on rafts—to await rescue and an opportunity to fight again. These are women too, who served wherever their military duties took them. These are our boys and girls, your sons and daughters, or your neighbors! Honor them on this glad day, in your heart, in your thoughts—and in your unstinted purchase of more and bigger Bonds! And honor, too, those other brave men and women still fighting in the Pacific who have played an equally big part in the Victory we celebrate this day by driving the Japs back to the evil nest from which they sprang!
