1945 and the possible disaster that lack of backing of the forthcoming drive might bring in the years to come.

The year 1941, he said, found us confused and startled, when on December 7 disaster struck on our shores. Humiliation and desperation were ours in 1942. Army engineers will open hearings at Wilkesboro courthouse at 10 a. m. October 17 on Yadkin-Pee Dee flood control proposals, Sen. Josiah W. Bailey, senate commerce committee, chairman, announced Friday.

Despite the one-sided score, the local gridsters put up a scrappy fight with no let-up until the final whistle sounded.

Elkin scored in the third quarter when Tom Parker pushed across the goal line, then boosted his score to seven by kicking the extra point.

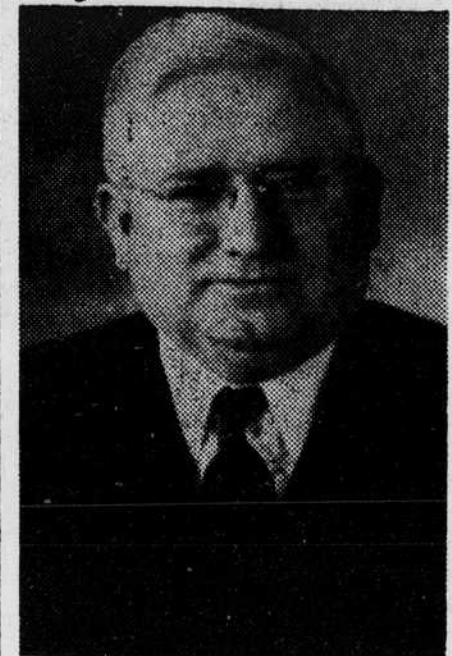

Outstanding for the Elks were York and Ratledge, proving threats throughout the game.

Tomorrow evening (Friday), the Elks will go to Mount Airy to meet the Mount Airy high school in a night game starting at 8:00 o'clock. Mount Airy, with a big, heavy team, presents a formidable opponent but the Elks are in no way dismayed.

In the Courtney district, plans have already been perfected, and the leaders there hope to raise their quota within the next couple of weeks.

The quota for Yadkin county this year is \$6600. This year in addition to the canvass of the homes, officials plan to have a church day for every church in Yadkin county.

District committee chairmen have been named as follows:

Jonesville: Watt Deal and Mrs. Lila S. Woodruff; Yadkinville, Luther Todd and Ernest Long; Boonville, Albert Martin and Frank Woodhouse; East Bend, Laurence Todd and Prof. W. A. Beal; Courtney, Jack Barnes and Mrs. Lacy Reavis; Forbush, Bruce Matthews, Mrs. A. A. Doub, and Bruce Jarrett; West Yadkin, Louis Haire and Clyde Wright; Fall Creek, Carl Shore and Principal Chy J. Fire Prevention Week Observance Urged Here

A complete inspection of the business section of Elkin and as much of the residential area as can be covered, is planned by the local fire department during National Fire Prevention Week, October 7 to 13.

E. E. All too often, he said, fires are due to carelessness, and although frequently blamed on "defective wiring" and "rats," in many cases
