ACCIDENT FATAL FOR RONDA MAN

An early morning accident Wednesday took the life of Armstrong Pardue, 35 year old resident of Ronda, and injured a companion, William Rumble, Jr., 21, also of Ronda.

Pardue, said to have been driving the 1940 Ford, and Rumble were traveling on the newly-paved Swan Creek Road shortly after midnight when they came to the intersection at Highway 421, allegedly traveling at a high rate of speed, and continued on across the highway to strike a service station operated by Bessie Myers. The wrist watch on the arm of the dead man stopped at 12:45 a. m.

The automobile plowed into a brick column at one end of the station, sheared a gasoline tank completely off, and continued on to crash into the front of the building.

Sheriff A. F. Moxley, who investigated the wreck, said there were no tire marks to show that brakes had been applied, and reported that the automobile was completely wrecked.

Pardue died while he was being carried to a North Wilkesboro hospital. Rumble, who was hospitalized, was released Wednesday morning. He was said to be the owner of the automobile.

STATE STILL SEEKING SITE

Continuing Surveys To Find Suitable Location For Tobacco Experiment Station

CONSIDER 4 COUNTIES

State extension service authorities are still conducting surveys in an effort to locate a suitable farm for the proposed tobacco experiment station in western North Carolina, and a site is expected to be selected within the next two weeks.

Farms in Surry, Stokes, Forsyth and Rockingham Counties are being considered in the quest for a suitable location. The site selected must have soil conditions typical of this section of the state, a dwelling house, storage space for farm machinery and facilities for curing tobacco.

Several farms in Surry County have been rejected because of inaccessibility and poor soil. The sloping terrain typical of the county is also a disadvantage that may preclude establishment of the experiment station in Surry.

EAST BEND MAN DIES IN WRECK

N. G. Hutchens, Prominent Citizen, Killed In Monday Accident

RETIRED MAIL CARRIER

N. G. (Gurney) Hutchens, 72, prominent East Bend citizen, was instantly killed about 3:30 o'clock Monday afternoon when the Jeep in which he was riding was struck by a Buick car driven by John Wilson Moore of Winston-Salem. The accident occurred in front of the Negro church in the eastern edge of East Bend. Elsie Martin, driver of the Jeep received undetermined injuries and was carried to a Winston-Salem hospital.

No one witnessed the fatal accident, according to Sheriff Bill Moxley and Patrolman J. W. Williamson, who investigated the crash. From Brewer Hutchens, son of the deceased, it was learned that Elsie Martin drove by his service station and asked Mr. Hutchens to take a ride in his Jeep which he had recently received from his son, George Martin. They drove to the edge of town and were either turning in at the church to turn around or had driven in and were backing out when the Buick came over a rise in the road from the direction of East Bend and crashed into the Jeep on the wrong side of the road. From all appearances the Buick rolled over the body of Mr. Hutchens.

Moore was accompanied by Jim Scott of Smithtown, who was cut over the eye, and Tommie Cox, who received a broken ankle.

Sheriff Moxley placed Moore under a bond of \$2,000 on a technical charge of manslaughter and a hearing is set before Magistrate J. E. Shew on September 17. His bond was signed by G. B. Smitherman of East Bend. The Jeep was knocked or rolled 240 feet from the place of impact, went up a bank and turned completely over with the wheels in the air.

Coroner Jake F. Brown accompanied Sheriff Moxley to the scene of the accident but decided an inquest was unnecessary.

Prominent Citizen Mr. Hutchens was one of the

Order Is Expected To Be Placed This Week

THIRTY-DAY DELIVERY

Yadkin Valley Garden Club Asks Twice Weekly Garbage Pickup In Summer

WOULD PROHIBIT HOGS

The purchase of approximately 200 parking meters was authorized by Elkin's board of commissioners at a meeting in the City Hall Monday evening. A committee composed of City Administrator Lewis Alexander and Commissioners Russell Burcham and J. W. L. Benson will work out minor details in connection with the purchase, and the order is expected to be placed this week.

Manufacturers of the meter adopted by the board have promised delivery within 30 days.

The board voted to amend the town parking ordinances to prohibit parking on the east side of Gwyn Avenue from the intersection at Market Street to a point approximately 500 feet north.

A deed to the street running west from Elk Spur Street at the Sunset Park intersection, signed by C. W. Young, was accepted for the town by the board.

City Administrator Alexander presented recommendations from the Yadkin Valley Garden Club that: (1) garbage be collected twice weekly during the summer months; (2) that no parking be permitted at any time on Gwyn Avenue; and (3) that the town adopt an ordinance prohibiting the keeping of hogs within the city limits after January 1, 1948. The board tabled action on the requests until the October meeting.

The Yellow Cab Company was authorized to place an additional taxi in service. However, the board adopted a policy to the effect that the last cabs authorized would be the first to be removed in the event that it became evident that an excessive number of taxis were in operation here.

CATERPILLARS DAMAGE CROPS

County Agent Smith Warns Farmers To Be On Look-Out For Insect Damage

OUTBREAK NEAR ELKIN

Farmers of this area are advised by County Agent Neill M. Smith to be on the alert for the appearance of caterpillars, or "Army worms," in their growing crops. An outbreak of the destructive worms was discovered Monday on the farm of E. W. McDaniel north of Elkin, Mr. Smith said, and similar outbreaks may occur elsewhere.

An effective poison for the worms may be obtained by mixing wheat bran and paris green in water. A mixture sufficient to treat three to five acres of crops should consist of 100 pounds of wheat bran, four pounds of paris green and 12 gallons of water, Mr. Smith stated.

Livestock should not be permitted to graze on treated pastures for several days or until after a rain. Farmers who wish further information on eliminating the worms should contact the county agent's office.
